The Second Hand in the Timepiece of God

(In 3 Parts—Part 1)

AN EXPLANATION RESPECTING A COMPLETE CHANGE OF CALENDAR, WITH SUGGESTIONS AS TO HOW THE CALENDAR OF JEHOVAH GOD CAN BE PUT INTO EFFECT EASILY AND NATURALLY, WITHOUT ANY CONFUSION.

Copyright, 1935, by Golden Age Publishing Co., Inc., Brooklyn, N. Y., U.S.A.
All Rights Reserved.

MATTERS have arisen recently to call sharp attention to the Gregorian calendar and its confusions, and to direct attention to the Word of God on the subject of time, with a consideration of what may be called the timepiece of God, the beautiful and orderly arrangement of the sun and moon as they were set in the heavens by the Creator "to rule over the day and over the night" (Genesis 1:18), "to be for signs, and for seasons, and for days, and for years."—Genesis 1:14.

This is no nonsense, or worse than nonsense from the Great Pyramid in Egypt (built with unpaid slave labor), but there is now a wealth of information regarding the exact length of the year, and the exact length of the lunation (from one new moon to another), which makes all past history an open book, where the number of years involved is known, and where there is associated with those years some marked reference to the moon.

"The Precious Things Put Forth"

It is an interesting possibility indicated by Moses when he mentions "the precious things put forth by the moon". (Deuteronomy 33:14) In the beautifully working parts of His great timepiece Jehovah God has preserved evidence that will yet shame all the wise of the earth.

Does it not seem a very wonderful thing, a gift from Jehovah God, that Jehovah's people may now have a perfect calendar of the Lord's life, knowing, for example, in terms of the Gregorian calendar, with which all are familiar, the exact days of the week, month and year when, as a boy, He remained behind in the temple, asking and answering questions; that they may know the exact date when Moses came marching out of Egypt, the exact date the Jordan was crossed by the forces under Joshua, the exact

date Noah and his family went into the ark, and the day they came out, and the probable day of Adam's creation, all from the silent movements going on constantly by which the sun and the moon never get out of place or out of order, as do other clocks, but are far enough away that no mischief-maker can get at them to interfere?

It is so simple, when one gets into the subject, that it is passing strange that Jehovah's people never became interested in it before. Though the moon has its variations in speed, yet the mean lunation, 29 days 12 hours 44 minutes 2.864976 seconds (2551442.864976 seconds), is one of the definite fixtures of the heavens, and its reliability is such that astronomers meet and gravely discuss the reasons for differences of so small an amount as 1/1000th of a second in a lunation.

The nature of the oscillations of the moon is known many years in advance, and will be laid before the reader, and he will be able to make intelligent predictions as to times of lunations himself. Nor will this knowledge, when understood, lessen confidence in the second hand of God's timepiece, but rather increase it. A man may run up and down the length of a swiftly moving train and thus move slower or faster through the surrounding country, yet, after all, the net result is not changed if he quietly stays in his seat. That is the way it is respecting the oscillations of the moon.

In his work *The Calendar; Its History, Structure and Improvement* (published by the Macmillan Company) Prof. Alexander Philip, LL.B., F.R.S., of Edinburgh, says the exact length of the year is 365 days 5 hours 48 minutes 46.15 seconds. He made a careful study and had access to many works; in this production it is assumed that his statements are correct.

Indebtedness is acknowledged to 220 works on astronomy; also to Dr. Clyde Fisher, Ph. D., LL.D., curator of the Department of Astronomy, The American Museum of Natural History, 77th street and Central Park West, New York city. Dr. Fisher is rated the ablest astronomer in New York.

An Intricate, Confusing Subject

Gentile scholars of eminence sadly say that years are "incommensurable"; an incorrect but excusable statement, in view of the difficulties involved. There is only one way out: God's way; which way is simplicity itself, as will appear in due course.

That the Jews are confused is self-evident. Here is what the International dictionary says of their efforts: "The common year is said to be defective, regular or perfect (or abundant) according as it has 353, 354 or 355 days. The leap year has an intercalary month, and a total of 383 (defective), 384 (regular), or 385 (perfect, or abundant) days. The calendar is complicated by various rules providing for the harmonious arrangement of festivals, etc., so that no simple perpetual calendar can be constructed." In their calendar the Jews show only 3,761 years in the era B.C., whereas the Scriptures, preserved in their midst, show that somewhere, somehow, they have lost account of at the very least 267 years. Jehovah's people have nothing to learn from the Jews on this subject; the Jews have lost the "key of knowledge".—Luke 11:52.

Jehovah's people are not interested in the old Roman calendar of ten months in a year, even though "Christendom" still uses the original names of the last four months of that year: September, October, November, December.

They are not interested in the old Greek calendar, the use of which caused such confusion in the Roman empire that in the year 46 B.C. it was necessary to add two months to the year, making it fourteen months long, in order to bring the seasons back to their proper position.

They are not interested in the Julian calendar, which followed, unless they chance to live in Greece, or unless they are astronomers. The first of the year, with the Greeks, is thirteen days behind the one now in general use. The reason why the astronomers cling to the Julian reckoning is that it has been in use constantly, in some sections of the world, 1,980 years. They merely use it as a convenient measuring rod, to connect up with the past. Julian days, used

by all astronomers, begin to count 250,310 days prior to the day of Adam's creation, and are to that extent in error. In this article the Edenic day, i.e., the day from Adam's creation, is substituted for the Julian day; and it is hoped that all astronomers, in the interest of pure truth, will adopt and accept and use the Edenic day exclusively.

Jehovah's people disdain to consider for a moment the Mohammedan calendar, which takes its start in July of the year 622 (A.D.), and which even the Mohammedans no longer take seriously.

Napoleon put an end to the French Revolution calendar, which began in November, 1793, and perished in 1805. Everything was supposed to be done by the decimal system. There were 12 months of 30 days each, and five or six fete days at the end of the year, to balance things up.

The Gregorian Calendar

But though Jehovah's people ignore all of the foregoing, they cannot quite, in the immediate present, ignore the Gregorian or papal calendar inaugurated in October, 1582, at which time ten days were dropped from the Julian calendar, the fifteenth of that month hooking up next to the fourth. It was not until 1752 that England adopted the Gregorian calendar.

In this series of articles it will be shown that all the foregoing calendars are calendars of the Devil. If that is shown to be true regarding the Gregorian, it will certainly be true of all the others. Please, now, take the time to examine some of the necessary details of this intricate subject.

Jehovah God is nowhere mentioned in the Gregorian calendar. It would suit Satan well to have Him lost sight of altogether. Christ is mentioned, but the year 1935 is not the year of our Lord at all, for He was born in 2 B.C. and died in A.D. 33.

In these articles the Gregorian calendar is supplanted and discarded by the unique expedient of extending it into the past, as if it had always been in operation, using it to establish historical points in terms that will be understood by those now living, and then letting it die an ignominious death.

The present pope is not sure, even, as to in what year Christ died. One of his alleged reasons for extending the "Holy Year" to 1934 was that, so he said, he was not sure whether Christ

died in A.D. 33 or in A.D. 34. Of course, the real reason why he was making both ends of the year "holy" was that thus he could get collections at both ends.

The Gregorian calendar was the work of a council of theologians, professedly the successors of the apostles, but eager to hide the apostles from sight except as they might wish to shine in their reflected glory. One can see this in what the council did, and in what they failed to do.

Gregorian Calendar and Apostles

Let it be supposed that the Gregorian council had really desired to honor the apostles whose successors they claim to be. What a fine chance they had! For instance, they could have changed January to James, in honor of the man to whom the Scriptures refer as the Lord's brother. But they preferred to have millions of people everlastingly writing down a name in honor of Janus, the original Roman "father". Janus was two-faced. His successors have been like their "father". He was worshiped as the god of gods, supreme janitor of heaven and earth. The word "janitor" takes its derivation from the word "Janus". A writer who made a study of this subject says: "But here is the important fact that, till the pope was invested with the title, which for a thousand years had had attached to it the power of the keys of Janus and Cybele, no such claims to pre-eminence, or anything approaching to it, was ever publicly made on his part, on the ground of his being the possessor of the keys bestowed on Peter." In other words, he was Jupiter, the Devil, and naturally those who claim to rule heaven, earth and hell, and who love the name "father", did not wish to part with anything that so well upheld their claims.

The theologians had a second opportunity with regard to the second month. On or about what is now February 15 the ancient pagan Romans had heathen priests, called the priests of Faunus, who clad themselves in goatskins, and made a circuit of the Palatine Hill, striking with goatskin thongs all women encountered. The ostensible object was to insure fertility and easy delivery; the real object was to enable the grafting priests to keep their hold on the superstitious people. This ceremony was supposed to "februare", or purify, the women. One can readily understand why the Roman Catholic

theologians wanted to retain this connection with heathenism.

In connection with the "februation" of the women the priests held a festival, the Lupercalia, in honor of Lupercus, the god of fertility. There is a brief account of a similar "festival" in Numbers 25:1, 2: "And Israel abode in Shittim, and the people began to commit whoredom with the daughters of Moab. And they called the people unto the sacrifices of their gods: and the people did eat, and bowed down to their gods."

These alleged successors of the apostles who made the Gregorian calendar could have named the second month Boanerges, in memory of James the brother of John, the one who had the honor of being the first martyr among the Lord's chosen twelve, but they preferred the old pagan name.

The Old Roman Year

The old Roman year began with March, and its first month in the year was named Martius, after Mars, the god of war. The war priests of ancient Rome were the Salii, or leapers. Their job (contrasted with their present successors) was not so much the encouragement of the production of more Roman soldiers, but to see to it that Mars was well bribed by their leapings and other gymnastics. Their chief ceremony was on March 19.

The Gregorian ecclesiastics had another good opportunity here. They might have named this month after Peter, for whom they profess to have so much attachment. But as between following the advice of Peter to "seek peace, and ensue it" (1 Peter 3:11) his alleged successors have done all possible to keep the world in wars and turmoils throughout their entire history, and tomorrow, if another world war were to start, the Roman Catholic theologians would be the very first to climb on the band wagon, for their full share of chaplaincies or whatever other graft was to be had, in every country involved. And the Protestant clergy would be scarcely one whit behind. And so one can see why the Gregorians desired to retain the martial spirit, martial law and martial music of Mars rather than to have a month named after the humble fisherman who, in his writings, counseled peace at least five times.

The second month of the old Roman year of ten months was Aprilis, from a word meaning

'to open', and probably signifying that this was the month in which the buds open. There is no objection to this, surely, but, as this was the month in which the Savior died, what a chance there was here to commemorate that event upon which all human life depends. The month could have been called Christ, and it would have been an annual reminder of man's debt that can never be repaid.

But the theologians preferred the old name, with which, no doubt, some god or goddess was in some way involved. Incidentally, as will later be shown in this series of articles, there is ground for the tradition that Christ was nailed to the tree on April 1, and that the so-called "April fool" pranks on that day are intended by the Devil to bring ridicule on the One who counted not His life dear unto Himself, but gave it all up in the doing of Jehovah's will and in the vindication of His name. May God help all of Jehovah's people to be like their Master, and "fools" for His sake.—1 Corinthians 4:10.

The Month of Maius

The month of Maius in the old Roman calendar, the present May, refers to Master Jupiter, the great father god, who had more wives than Henry VIII. It would have been a rather nice thing for the theologians who pretended to think so much of the apostles if they had called this month Matthew. But it was Matthew, in the 23d chapter, that specially drew attention to the Lord's warning: "Call no man your father upon the earth: for one is your Father, which is in heaven. Neither be ye called [Master]: for one is your Master, even Christ." (Verses 9 and 10) And the theologians knew better than to draw the attention of the people to the word of God which exposes their paternalistic method of gaining control of the men through control of the women.

Juno, so the encyclopedia discloses, was "the most exalted divinity of the Latin races in Italy next to Jupiter, of whom she was the sister and wife. She was the queen of heaven and under the name of Regina (queen) was worshiped in Italy at an early period". It would have been nice for the Gregorian theologians to name the sixth month after John, the one whom the Lord especially loved, but that would have been a hard blow at mariolatry; and so the Gregorian ecclesiastics, who are so strong for the pagan queen-of-heaven idea, preferred to let the name June stand as it is.

In the old Roman calendar the fifth month was named Quintilis, which merely meant that it was the fifth month of their year. When Julius Caesar reconstructed the calendar, making the year one of twelve months instead of ten, one of the new months was named after himself, and Quintilis became July. Here again the theologians had a fine opportunity to choose between a great warrior and the humble and faithful Jude, whose short epistle contains so much; and so, because they more admired military conquerors than a humble messenger of peace, they chose to retain the name of the warrior, born in that month.

The Month of August

It was Mark Antony, the politician, that fixed it up to have the seventh month of the year named after Julius Caesar, but Julius' successor Augustus was less modest. He changed the name Sextilis, sixth month, to August, and the Roman senate, to gratify his vanity, took one day away from February and added it to the month thus named. That is why February is so short.

Theologians love everything that exalts men; and so when the question came up, if it ever did come up, of naming the eighth month after the apostle Andrew, the suggestion was voted down 100 percent in favor of retaining the name of the publicity-seeker who started world-wide taxation.

September, seventh old Roman month, could have nicely been named after Philip, but it was not. October, eighth old Roman month, could have been named after Thomas, but it was not. November could have been named after Nathanael (Bartholomew), but it was not; and December could have been named after Simon (Zelotes), but it was not. The theologians did not want any of the months named after the real apostles. They preferred that the old paganism which constitute their sole stock in trade should be perpetuated, as long as possible. Certainly, on no account do they wish the people to have the Scriptures, or even to be reminded of them, except in so far as they can twist these to seem to sustain their pretensions.

The Days and the Hours

The Devil, of course, was the one who induced the ancestors of the present generation to name all the days of the week after heathen gods and goddesses. Neither God nor Christ, nor any

prophet or apostle, is represented in the days of the week as now in common use. Sunday is named after the sun god; Monday, after the moon god; Tuesday, after Zeus, or Tyr; Wednesday, after the god Woden; Thursday, after Thor, the god of thunder; Friday, after Frigg, or Friga, Woden's wife; and Saturday, after Saturn. The theologians could have changed all this if they had wished to do so, but they did not.

God made the day to begin at sundown, and so the Devil has changed that in almost every place, but not quite. In most countries the beautiful robe of starlit night is rent in twain and the day begins at midnight, which practice was handed down from the Egyptians and Romans. The Babylonians began the day at sunrise. Astronomers make it begin at noon, and number the hours from 1 to 24 consecutively. This system is followed in some parts of Italy. In all of these matters the theologians have gone along with every scheme to dishonor the Maker of the stars and to stray farther and farther from the Word of God. They have seemed to instinctively realize that their protection consists in keeping as close as possible to the Devil and the Devil's way of doing things.

Latest Ecclesiastical Muddling

Under the leadership of Doctor Cadman, ex-president of the Federal Council of [Protestant] Churches in America, a still further mix-up in respect to calendars is in sight. Following a big get-together council of all the most pompous Protestant theologians, at Fanoe, Denmark, in 1934, the proposition was launched to make every year one of 364 days, adding the 365th day as an "extra" Saturday, coming always between December 30 and January 1; then when the year would have 366 days the "extra" day would be inserted as an "extra" Saturday between June and July. By this plan, in which the Scriptural arrangement of the days into weeks would be entirely ignored, there would be four quarters of the year identical in length, each containing three months of 31, 30 and 30 days, and, if one is foolish enough to believe it, "any given date will fall on the same day of the week."

It is thus seen that the Devil and the children of the Devil are greatly interested in having everything different from the way God arranged it, not only as respects the years and the months, but as respects the weeks, the days, and even the hours, and the reason for it is clear. The

Devil is determined to leave no stone unturned to dishonor God, and he also well knows that as one error leads to another so one truth also leads to another, and is in terror lest great truths long covered should be brought to light.

And so, with this preliminary examination, please turn to make a *study* of the various items that enter into the making of calendars, a Scriptural as well as a scientific study, to which is invited the closest scrutiny of astronomers, mathematicians and others, as well as Jehovah's people. Should any errors be discovered in statements of fact or in calculations, be so good as to transmit them to *The Golden Age* as promptly as possible. In this material, high-school and college teachers have abundant opportunities to put the skill of their pupils to the test and at the same time exalt the name of Jehovah, the true and living God.

The methods that will be pursued will be entirely different from any ever before used. The place to begin is with the year.

A Consideration of the Year

According to Genesis 1:14 God made both the sun and the moon to be "for signs, and for seasons, and for days, and years". The thought that the signs here mentioned have anything to do with the signs of the zodiac is all nonsense, demonism. The word "signs" signifies "ensigns", as if here is some standard that needs the attention which will now be given to it.

The seasons recognized in the Scriptures are but two, the summer and the winter, which seasons will continue forever. "While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night, shall not cease."—Genesis 8:22.

Jehovah's people are familiar with the instructions to Israel to "keep the passover at his appointed season" (Numbers 9:2), and know why Jehovah spoke of it as "the season that thou camest forth out of Egypt". (Deuteronomy 16:6) They know that the Lord, in the parable of the vineyard, spoke of "fruits in their seasons" (Matthew 21:41), that the apostle also mentioned "fruitful seasons" (Acts 14:17); the prophecy of Zechariah (14:8) speaks of summer and winter as ever continuing; and there are other references to the seasons in the Scriptures, and yet the clergy have never recognized in any way these grand divisions of time in any of their calendars. One would have thought

that they would at least have named one month after the opening of the vernal season or one after the opening of the autumnal season, but the clergy have no zeal for the honoring of anything with which Jehovah God has had anything to do. They are interested only in the things that bring dishonor to Him and do bring honor to men and to their master, the Devil, whose they are and whom they serve. On the other hand it seems that the attention of the *true* people of God has been directed to the vernal equinox for centuries, and there must be some reason for it. To this day, Jehovah's people, striving for truth and obedience, seek the beginning of Nisan (the name is of heathen origin), the month in which Jesus died, and locate it with the new moon nearest to the said equinox.

When Do the Seasons Begin?

For various reasons it is desirable that the new year should have a fixed point at which to begin, and to end; and what better point than that made by Jehovah himself in the heavens, when the days and nights are of equal length at every point on the globe? It is the time of life, a time when all should specially turn their minds and hearts to the great Creator who provided such a convenient day for the settlement of accounts that are in the past and for the opening of new vistas for the future. "Thou crownest the year with thy goodness."—Psalm 65: 11.

Years ago many of those who are now Jehovah's witnesses had the belief that the true time of the year's beginning is in the fall, yet, whatever may have been the reason, in the two texts where the two seasons are mentioned together the summer is mentioned first.—See Genesis 8: 22; Zechariah 14: 8.

All intelligent persons know that on the equator the days and nights are always of equal length. They also know that twice a year the sun apparently shifts its position with respect to the earth, and in March and September there are what are called equinoxes; that is, the days and nights are of equal length in every place on the earth. The human family was first implanted in the Northern Hemisphere; there the Scriptures were written; there the Lord died. Hence the Scriptures tacitly recognize the fact.

Additionally, the Northern Hemisphere contains most of the land surface.

The summer season (which men, but not the

Scriptures, divide into two parts, one of which is named "spring") begins in March (in the Northern Hemisphere) and contains the growing and harvesting seasons of that part of the world, wherein most of the land surface of the earth is found. The cold seasons are inaugurated by the autumnal equinoxes.

The Gregorian calendar does not begin at either equinox, and does not even begin any month with either of them, but it cannot quite ignore these important fixed points in terrestrial history, and so one generally finds in an almanac a brief mention of the time when the equinox (usually the vernal) occurs. It is manifest that, in the mind of God, the true year would have its beginning at one of these points. Would it not seem reasonable, since God made the sun to rule the day and the moon to rule the night, that He would have the greater of these two luminaries fix the length of the year and the lesser fix the length of the month?

Jehovah puts the mind at rest on this subject of *His* time for beginning the year. As the Israelites were about to leave Egypt (which, as will be shown subsequently, was about the time of the vernal equinox) He said to Moses: "This month shall be unto you the beginning of months: it shall be the first month of the year to you."—Exodus 12: 2.

Much has been said of the observance of so-called Jewish "New Year" at the autumnal equinox, but the Devil has been after the Jews as well as after the Christians. Can anybody show where the Jews or anybody else was ever commanded or authorized to begin a new year at any other time than that fixed by Jehovah God? He cannot. It is quite true that Exodus 34: 22 speaks of "the feast of ingathering at the year's end" (revolution of the year, *margin*); but the reference is manifestly to the crop year, which does indeed end in the fall, as is well known to everybody. Exodus 12: 2 is the *law* on this subject.

The foregoing text, therefore, ought to be sufficient proof that the true time of the beginning of the year is with the vernal equinox; but there is more. Nine months from the autumnal equinox would be on or about June 23, at which time in Palestine it is exceedingly warm. Nine months from the vernal equinox is about December 22. Here read Jeremiah 36: 22: "Now the king sat in the winter house, in the ninth month: and there was a fire on the hearth

burning before him." What time that year started ought to be plain to all.

On Solomon's Porch—in Winter

When Jesus was here on earth His every word and act was designed to be an honor to His Father's name. He was able to say, "I do always those things that please him." (John 8:29) The Father himself said: "Thou art my beloved Son; in thee I am well pleased."—Luke 3:22.

As a result of this close relationship, one may study with minute care every detail of what Jesus said and did and always find in it something that the Father is telling His people by that means. There is this item: "And it was at Jerusalem the feast of the dedication, and it was winter. And Jesus walked in the temple in Solomon's porch."—John 10:22, 23.

Theologians have endeavored to explain this text, aiming to show that Jesus was trying in some way to participate in a feast of dedication not mentioned in the Scriptures, and in so doing they have missed the point.

In this passage the heavenly Father seems to be gently hinting to the reader that there is a point in connection with Solomon's temple that needs to be considered; it is the time of its dedication. And if one looks the matter up he finds that it was dedicated "in the month Ethanim" (the name itself is of heathen origin), "which is the seventh month" (1 Kings 8:2), and the "feast of dedication", identified with the seven-day dedication of the altar, was on the 8th to the 14th of that month. (2 Chronicles 7:9, 10) The seventh month was the first month of the winter season. Additionally, it is well known that the day of atonement and the feast of tabernacles, which occurred in the seventh month, were observed when the Israelites had gathered in the fruits of the land and were entering the winter season. (Leviticus 23:27, 39) It is thus established by the mouth of four witnesses that the true beginning of the year is at the vernal equinox.

The Length of the Year

The length of the year, from vernal equinox to vernal equinox, is not an exact number of days.

Beginning with the vernal equinox of the year 1886 (A.D.), the times between the vernal equinoxes for the next succeeding fifty years, down to 1936 inclusive, are, in their order, 365 days 5 hours and the number of minutes which fol-

low: 46, 45, 48, 54, 44, 05, 46, 48, 60, 27, 45, 48, 50, 13, 57, 81, 41, 52, 66, 60, 00, 60, 60, 60, 21, 49, 53, 40, 56, 51, 48, 61, 40, 52, 58, 40, 51, 53, 49, 57, 46, 50, 55, 37, 47, 49, 45, 54, 40. This information was gleaned from reference works in the New York Public Library. The general average for this particular period is 365 days 5 hours 46 minutes 45.6 seconds.

The length of the year is influenced by conditions in the earth itself, near the equator, by the approach and recession of other planets, and by the precession of the equinoxes. In the accompanying diagram (page 363), in the right-hand lower corner is shown in graphic form how the influences that make one year shorter than another are overcome in succeeding years. The small differences are not cumulative; the total divergences of less than an hour from the mean would not be greater six thousand years ago, which means that one can tell accurately the time of the vernal equinox in any year from creation to date. Moreover, its day in the week can be ascertained, which is something quite new in the field of human interest, a path never before trodden.

Extending the Gregorian Calendar

Taking note of the fact that there are 60 seconds in a minute, 60 minutes in an hour, and 24 hours in a day, it follows that in one of God's years, a so-called solar year, or tropical year, or synodical year, that is, from one vernal equinox to another, there are 31,556,926.15 seconds; in a calendar year of 365 days the number of seconds is 31,536,000; so God's year is longer than man's year by 20,926.15 seconds.

In the Gregorian calendar arrangement man puts in an extra day once in four years; so in that time he has 1,461 days. In four of God's years there are 126,227,704.6 seconds. In 1,461 calendar days there are 126,230,400 seconds; so at the end of the four years man has borrowed 2,695.4 seconds from the future, to make up for his extra inserted day.

After twenty-four leap-year periods of four years each, man has borrowed nearly a day. Accordingly, when the end of the century is reached, the leap year is usually omitted. The normal century of man, therefore, has in it 24 leap years and 76 years that are not leap years. The total of days in such century is 36,524 days, amounting to 3,155,673,600 seconds. In one hundred of God's years He has 3,155,692,615

seconds. At the end of a normal century, man has not used in his calendar all the time that has been made for his use, by 19,015 seconds.

After four centuries, or rather, every fourth century, man finds it necessary to put in an extra leap year. These years, called quadricentesimal years, go in at the end of such centuries as are divisible by 400. The next one would be in the year A.D. 2000, but it will not be needed. The Lord has a much better way.

In four of man's centuries he has 146,097 days: 97 leap days and 146,000 ordinary days. In seconds this amounts to 12,622,780,800. In 400 of God's years there are 12,622,770,460 seconds; so at the end of each quadricentesimal period of 400 years the man has again borrowed from the future a total of 10,340 seconds.

Another shift is necessary after eight quadricentesimal periods. In that time man will have borrowed for his calendar 82,720 seconds that did not belong to him. This is almost a day (there are 86,400 seconds in a day); accordingly at this point no quadricentesimal leap day occurs. The net difference, then, in 3,200 years amounts to 3,680 seconds, or 1 hour 1 minute 20 seconds. A further correction would be necessary after 23 such 3,200-year periods; and so on indefinitely.

Projecting the Calendar Backward

If the Gregorian calendar can be projected forward it can also be projected backward; and this has been done in the accompanying illustration. The outline at the top (page 363) shows in a general way the time of vernal equinox of every year from creation to date. Each century is in a little diamond-shaped section by itself, except where the quadricentesimal leap days occur, when two sections are merged in one. The latest date in each century when the equinox could occur is named, and the earliest one. A little careful study of the enlarged diagrams beneath the outline will show how to make use of the outline. The quadricentesimal leap years are fourteen in number; that is, 4000, 3600, 3200, 2800, 2400, 2000, 1600, 800, 400, and 1, B.C., and A.D. 400, 800, 1200 and 1600. The year 1200 B.C. is not a leap year, for the reason that it is one of the correction places in the whole general scheme, as has already been fully explained.

In using the Gregorian calendar between centuries removed from each other, it is neces-

sary when finding how far apart any two equinoxes are, if one is in a century B.C. and one is in an A.D. century, to make the total one year less than that indicated by adding the years together. In computing time from a B.C. date to an A.D. date the portion of the year that has elapsed must be taken into consideration. That the exact number of years is not to be had by simply adding B.C. and A.D. dates together, as some long supposed, can be immediately demonstrated. In the spring of 1 B.C. Christ was $\frac{1}{2}$ year of age; He died 33 full years thereafter, but not in the spring of A.D. 32, as would be the case if it were correct to add B.C. and A.D. dates together: the 33 years were not up till the spring of A.D. 33. If B.C. and A.D. dates are added together, the total number of years is one less than the sum thus obtained.

The year 4 B.C. is a leap year, though only three years away from the leap year of 1 B.C. (a quadricentesimal year). This feature is shown in one of the diagrams (C) below the outline.

Calculating the Equinoxes: Problem 1

Reference to the outline at the top of page 363 shows that in the year 1935 A.D. the equinox is on the afternoon of Thursday, March 21.* To be exact, it is at 52 seconds after 3:42 p.m., Jerusalem time, which is the proper time basis to use in all human affairs, for reasons to be explained later. The time of equinox at the 75th meridian west, commonly called Eastern Standard Time, is 8:18 a.m., March 21. This is 7 hours 24 minutes 52 seconds later than Jerusalem time (used henceforth in calculating the equinoxes). Enlarged section of the last years of the nineteenth century and the remaining years to date shows more fully the times of equinoxes at Jerusalem in the past century. See the diagram on opposite page for particulars.

Jehovah's people have heretofore thought they had good evidence to believe that Adam was created in 4128 (or fall of 4129) B.C., and Problem 1 is to ascertain the time of vernal equinox for the year 4128 B.C. Reference to the small outline at top shows it was in the morning of March 21, 4128 B.C.; the enlarged section (A) of the first period after creation shows it was very close to 10:00 a.m. Exactly what time was it?

*Master chart, from which this greatly condensed outline was drawn, is 15 feet 3 inches long; on file at the *Golden Age* office, where it may be seen on application.

From 4128 B.C. to A.D. 1935 is not 6,063 (4128+1935) years, but 6,062 (4128+1935-1) years. The number of seconds in 6,062 solar years, God's years, is 191,298,086,321.3; in 2,214,098 days, the total number of seconds is 191,298,067,200.0. The difference is 19,121.3 seconds, which is 5 hours 18 minutes 41.3 seconds; to be figured back from (before) 3 hours 42 minutes 52 seconds (3:42:52) p.m., the hour of equinox on March 21, A.D. 1935. The answer is that the equinox on March 21, 4128 B.C., was at 10.7 seconds after 10:24 a.m. Now, what day of the week was it?

The 2,214,098 days from March 21, 4128 B.C., to March 21, A.D. 1935, are found as follows:

- (a) Each of the 6,062 years had at least 365 days . . . $6062 \times 365 = 2,212,630$
- (b) The 60 centuries had at least 24 leap days each . . . $60 \times 24 = 1,440$
- (c) 14 quadricentesimal years had each a leap day $14 \times 1 = 14$
- (d) 8 leap days in the 20th century $8 \times 1 = 8$
- (e) 6 leap days in the period before 4100 B.C. $6 \times 1 = 6$

Total number of days 2,214,098

Leap day for the year 4128 B.C. would not be counted, as the vernal equinox is not as far back in the year as the point at which the leap day occurs.

Another method of arriving at the same result is to take the number of leap years (1468) and multiply by 366; and then, deducting the number of leap years from the total of 6062 (6062-1468=4594), multiply the result by 365, as follows:

$$\begin{array}{r} 1,468 \text{ leap years;} \quad 1468 \times 366 = \quad 537,288 \\ 4,594 \text{ common years;} \quad 4594 \times 365 = \quad 1,676,810 \\ \hline \text{Total number of days} \quad \quad \quad 2,214,098 \end{array}$$

In 2,214,098 days there are 316,299 weeks and 5 days. In the year 1935 the 21st of March falls on Thursday. In 4128 B.C. the 21st of March fell five days earlier in the week, which day is Saturday. Therefore, the vernal equinox of 4128 B.C. fell on Saturday, at 10:24:10.7 a.m.

The Result of Some Calculations

Using exactly the same method as above, but without going over all the operations, the next step in order is to give a considerable list of vernal equinox dates, in the past and the present. After A.D. 1886 there is given a plus or minus number of minutes by which the actual

time of equinox varied from the mean which the astronomers have provided.

Notes on the Above Problems:

Problems Nos. 2, 3, 6, 8, 12, 13, 14, 16, 18, 22, present the same features as Problem No. 1, and are solved by taking similar steps.

Problems 25, 27, 28, 29, 30, are similar to Problem 1, but, being wholly within the A.D. period, the years that intervene are ascertained by subtracting the year in question from the year 1935. All other steps are the same as for No. 1.

Problems 5, 16, 17, 20, 21, 31, are similar to Problem 1, but fractions are large and must be watched; in each of these instances there are sufficient hours in the fractional days to make them count as complete days.

Problems 4, 7, 9, 10, 11, 23, 24, 26, 32, show the vernal equinox for the desired year falls on March 20. By this trick of the calendar one full day is lost, and must be accounted for in the answer. This is clearly seen in Problem 26. The 18,627 days involved are 2,661 weeks (fractions in the problem being too small to affect the answer). March 20, 1935 A.D., is on Wednesday. One might infer from this that the equinoctial date of March 20 in the year 1884 A.D. (which is an even number of weeks away from the equinoctial date of 1935 A.D.) would also be on a Wednesday, but it is on a Thursday (the same as in 1935). (See diagram [B] page 363.)

Problems 15, 19, show the vernal equinox for the desired year falls on March 22, instead of the 21st. By this trick of the calendar one full day is borrowed, and must be accounted for in the answer. These two problems, like those in the paragraph last above, require close reasoning.

To aid students of these problems there is published, on pages 368, 369, a calendar from creation to date, occupying two full pages of *The Golden Age*, and greatly simplifying the arriving at correct dates in the remote past, both as to the days of the month and as to the days of the week.

Date of Autumnal Equinox 4129 B.C.

Inasmuch as some have held that Adam was created in the fall of 4129 B.C., at a date convenient to the autumnal equinox, the date of that equinox is fixed by the following accurate and convenient method:

Autumnal equinox, 1934 A.D., Jerusalem time, was September 23, 8:11 p.m. Vernal equinox, 1935 A.D., is, Jerusalem time, March 21, 3:43 p.m. Therefore the length of time from the autumnal equinox of 1934 to the vernal equinox of 1935 is 178 days 19 hours 32 minutes. The year 4128 B.C. was a leap year; therefore 178 days 19 hours 32 minutes back from the time of the vernal equinox of 4128 B.C. brings us to September 24, 4129 B.C., at 10.7 seconds after 2:52 p.m. as the time of the autumnal equinox of that year.

Following are the vernal and autumnal equinoxes, Jerusalem time, for the years stated:

	Vernal	Autumnal
1923, March 21,	5:54 p.m.	September 24, 4:29 a.m.
1924, " 20,	11:45 "	" 23, 10:24 "
1925, " 21,	5:38 a.m.	" 23, 4:09 p.m.
1926, " 21,	11:27 "	" 23, 9:52 "
1927, " 21,	5:24 p.m.	" 24, 3:42 a.m.

1928, March 20,	11:10 p.m.	September 23,	9:31 a.m.
1929, " 21,	5:00 a.m.	" 23,	3:18 p.m.
1930, " 21,	10:55 "	" 23,	9:02 "
1931, " 21,	4:32 p.m.	" 24,	2:49 a.m.
1932, " 20,	10:19 "	" 23,	8:41 "
1933, " 21,	4:08 a.m.	" 23,	2:26 p.m.
1934, " 21,	9:53 "	" 23,	8:11 "

Average date, vernal: March 21, 7:41:32 a.m.

Average date, autumnal: September 23, 6:18:50 p.m.

Average time, vernal equinox forward to autumnal equinox, 186 d. 10 h. 36 m. 18 sec.

Average time, autumnal equinox forward to vernal equinox, including the three leap days, in the 12 years, 178 d. 19 h. 23 m. 42 sec.

As some will be interested at this point to consider them, two small items are now slightly anticipated in the following summary:

New moon rose Sunday, September 22, 4129 B.C., at 8:23:27.504592 a.m.

Autumnal equinox was 54½ hours later, Tuesday, September 24, 4129 B.C., at 2:52 p.m.

New moon rose Tuesday, March 17, 4128 B.C., at 12:47:44.694448 p.m.

Vernal equinox was 94 hours later, Saturday, March 21, 4128 B.C., at 10:24:10.7 a.m.

Do any of Jehovah's witnesses, or any of the Jonadabs (comrades of Jehovah's witnesses; see *Vindication*, Book Three), see anything in the placement of these moons with respect to the equinoxes, or anything in the days of the week on which they occurred, to specially indicate the hand of God, as one might reasonably expect it to be manifested at such an interesting time in earth's affairs? No such pleasing evidence appears. More on this point later, in its proper place, when careful consideration will be given to the details of the calendar of Jehovah God; which calendar, it is hoped and believed, will permanently replace, as far as calendars are concerned, the efforts of Satan to hide some of God's beautiful truth, now, since 1918, coming out from His temple in such a refreshing stream.

God's Love of the Beautiful

In the summertime, in Pike county, Pennsylvania, in a region where one may see a score or more of wild deer in a single day, deep down in the heart of the forest, a mile or more from the highway, lives all alone a little old lady who loves the truth. She got it by listening to Watchtower programs over the radio station WBBR, of New York city.

When this little old lady was found she went into ecstasies over the messages she had heard. Explaining her environment, and that she could live with her children in New York city and in Philadelphia, if she chose, she said, "I prefer to live here, like a gypsy, in the midst of God's bouquets." The frost had just touched the leaves of the forest, tinting them with colors that beggar description.

How much more God loves beauty! And how much the most beautiful things of His creation are all a little different from one another! When men try to make things beautiful they try to make them all alike.

No two flowers in a flower garden were ever exactly alike; no two roses on a rose bush, no two petals on a rose. A million new-born infants can be fingerprinted, or a billion of them, or ten billion, for that matter, and no two sets of fingerprints will be the same. And thus one comes to a consideration of God's beautiful months, His lovely, exquisite months, that the more they are studied, the more they are to be admired, because, while all substantially alike, they are all slightly different.

A Study of God's Months

The word "month" comes from the word "moon"; God's months were all arranged for before man appeared on the earth. It is man's proper place to inquire humbly at God's feet respecting the work of His hands; it is not man's right to discard things which God has made for His government, nor to substitute others in their place.

"And God said, Let there be lights in the firmament of the heaven, to divide the day from the night; and let them be for signs, and for seasons, and for days, and years: and let them be for lights in the firmament of the heaven, to give light upon the earth: and it was so. And God made two great lights; the greater light to rule the day, and the lesser light to rule the night: he made the stars also. And God set them in the firmament of the heaven, to give light upon the earth, and to rule over the day and over the night, and to divide the light from the darkness: and God saw that it was good." (Genesis 1:14-18) Herein is the first reference to the moon in the Scriptures.

Even though the moon had not been mentioned at all in God's Word, man would be compelled to take note of it; it is too conspicuous in

the heavens to be ignored; and too beautiful; and too useful.

Satan has endeavored to get men to hold God's month and its instrument the moon in little esteem; hence the terms "lunacy", "lunatic," "moon-struck," and terms of similar import. The apostle does indeed say, "Let no man therefore judge you in meat, or in drink, or in respect of an holy day, or of [feasts celebrating] the new moon, or of the sabbath days; which are a shadow of things to come; but the body is of Christ." (Colossians 2:16, 17) But this is far from urging men to set aside the plain statement of God's Word that God "appointed the moon for seasons" (Psalm 104:19), monthly seasons being manifestly what is here meant.

"A Faithful Witness in Heaven"

It is true that the prophet Isaiah brings the message to an idolatrous and rebellious people, "Your new moons and your appointed feasts my soul hateth" (Isaiah 1:14), but that does not change the fact that the prophet Ezekiel writes of the future offerings of "the prince" which are to take place "in the new moons". See *Vindication*, Book Three, pages 287, 293, 295, for comments and explanations on references to the new moons in Ezekiel 45:17; 46:1, 3, 6. These may not be ignored or set aside.

Though Isaiah mentions in the first chapter God's disgust with Israel's hypocritical observances of the new moons, he says in the next to the last verse of his prophecy: "And it shall come to pass, that from one new moon to another, and from one sabbath to another, shall all flesh come to worship before me, saith [Jehovah]." (Isaiah 66:23) Of course, that is after the oncoming battle of Armageddon has done its work of destroying Satan's organization, and the earth has been cleansed of all its defilements.

When the psalmist said, "When I consider . . . the moon" (Psalm 8:3), he meant that he really did consider it. Especially significant is his statement of David's seed, that "it shall be established for ever as the moon, and as a faithful witness in heaven". (Psalm 89:37) The moon is, indeed, a faithful witness in heaven, a witness whose testimony cannot be gainsaid.

It is the voice of God, speaking through Moses, that mentions the "precious things thrust forth by the moons". (Deuteronomy 33:14, *margin*) What some of those precious things are it is now the privilege of Jehovah's wit-

nesses and their companions in the chariot of Jehovah's organization to see and understand. Indeed, it is even possible that there may be some direct reference to these present unfoldings of truth that God had in mind when He said of this day that "the light of the moon shall be as the light of the sun".—Isaiah 30:26.

Anyway, it was infinitely wise of God to set a second hand in His timepiece, and to put it out there in the sky 239,000 miles away, far enough away that the theologians could not get at it to interfere with it, which they would surely have done if they had been able to so do. Now it is about to put them all to shame.

Calendar for 6,062 Years

This issue contains, on pages 368, 369, all the essentials of a calendar covering all past human history. All know that in the normal year there are 52 weeks and 1 day and that therefore in the next succeeding year, unless it is a leap year, the days of each month are one day later in the week. Thus, in the year 1933 A.D. the 22d day of March came on Wednesday; in the year 1934 A.D. the 22d day of March came on Thursday, while in the year 1935 A.D. the 22d day of March comes on *Friday*. In the year 1936, on account of that year's being a leap year, the 22d day of March will come on Sunday.

The use of the calendar is very simple. Every year is represented. If a given day of the month falls on *Friday* in the year 1935, the day of the week on which that same day of the month will fall in other years is shown at the head of the column above the year desired. Persons using the calendar must consider, in the case of leap years, that dates in January and February must be separately calculated after some other date is known. The calendar will be found very useful and valuable when the manner of using it has been mastered. It is assumed that the user has an ordinary calendar and can readily locate a *Friday* in 1935 or a Thursday in 1934, from which information any other desired data regarding past days of the week may be at once obtained. This is the first time the Gregorian calendar, or any other, has ever been projected back to creation.

Besides the calendar for 6,062 years there is also presented a table of "Lunations Ushering in the Years or Periods Which Contained the Most Important Events in History". Let the table speak for itself. There will be frequent

reference to it in the explanations of the Calendar of Jehovah God which follow.

God's Will Regarding Months

The years of God are not each of an equal number of months, nor of an equal number of weeks, nor of an equal number of days, nor of an equal number of hours, nor of an equal number of minutes, nor of an equal number of seconds. Man has no right to ignore these years of God. It is his duty to number them, and to mark them well as they go, and to use them to God's praise, but not to endeavor to force them to begin or end at some point in no way indicated in the divine Word of the Creator.

The months of God are not of a fixed number in the years of God, nor within themselves are they composed each of an equal number of weeks, nor of an equal number of days, nor of an equal number of hours, nor of an equal number of minutes, nor of an equal number of seconds. Man has no right to ignore these months of God. It is his duty to number them, and to mark them well as they go, and to use them to God's praise, but not to endeavor to force them to begin where the years begin or to end where the years end.

Is it necessary to start a new year on July 4, or Thanksgiving Day, or Christmas, or Washington's Birthday, or Lincoln's Birthday? Not at all. Each of Jehovah's years properly begins at a certain point, and, reasonably enough, at the beginning of a specific day, as in the case of the months, but neither the years nor the months nor the weeks need to be in accord exactly, nor are they in accord except by man's egotistic and destructive acts.

The days in the months of God are never less than 29; and they are never more than thirty. There is a sure and proper method of determining how many days the month should have. Jehovah God fixed the method. He so arranged and ordered all the details connected with the sacrifice of His own dear Son that that event, of first importance in history, occurred at Jerusalem on the fourteenth day of the month, when the moon was at its full. The fourteenth day of each month, therefore, is that day of the month when the moon is full over Jerusalem. That automatically makes Jerusalem, not Greenwich, the time center of the earth.

The weeks are for man, but they are *of* God, and no man may change the arrangement which

LUNATIONS USHERING IN THE YEARS OR PERIODS WHICH CONTAIN THE MOST IMPORTANT EVENTS OF HISTORY, STATED IN TERMS OF THE GREGORIAN CALENDAR, AND ASTRONOMICALLY EXACT

(In the dates cited below are also cited certain other dates, prior to Vernal Equinox No. 3000, hitherto much held in esteem)

Time shown in each case is Jerusalem time, 7 hours 20 minutes 52 seconds earlier than Eastern Standard time. Each calculation was checked to the one preceding and the one following, and in every instance with the 1935 A.D. date shown, with which agreement is exact. The variations of a b c d e f g, amounting respectively to about 8, 10, 14, 4½, 10, 15, and 3 hours, after calculations extending over 6,000 years, are not due to any errors in the calculations themselves, but to variations from the mean lunation; explained in full in its proper place. In figuring eclipses and other periods astronomers calculate the mean time between lunations as 2551442.864976 seconds. (Their method is to express the time in days and decimals thereof, but the results are the same either way.) These figures, astronomically exact to a millionth of a second, are used in all the above calculations.

God made. No man may alter the number of days in a week; in these days (since the French Revolution calendar fiasco) none but a theologian, with huge conceit and no reverence for God, would contemplate for a moment such an act of presumption. Man may number his weeks; there is no harm in so doing. Since God is so good as to give them, it would seem that, at least once a year, man might take note of their number.

Learning Something About God's Months

It seems strange that man's months should be so different from God's months, that the two kinds of months could be going along steadily side by side, overlapping each other, etc., and yet most people know next to nothing about the particular kind of months that God provided for the nocturnal government of the earth. On page 371 begins a lunation experience table,

carefully compiled from records in the New York Public Library, covering the fifty years from 1886 to date. The moons are here numbered by *The Golden Age*, the one for January 5, 1886, being numbered 73131; thereafter they are in sequence down to 73761, the number of the lunation for December 13, 1936, which is as far as the compilation goes. This table is in Jerusalem time, 7 hours 24 minutes 52 seconds earlier than Eastern Standard time. It is quite self-explanatory. God's months are of 29 or 30 days each; their moons rise at various times of the day or night, on various days in the week, as specified in the first eight columns, the table concluding with the dates grouped under the word "Actual".

The "mean lunation" is universally agreed by astronomers to be 29.530588715 days. Otherwise stated, this is 29 days 12 hours 44 minutes 2.864976 seconds; or it may be stated altogether

Lunation Experience Table, Jerusalem Time

(Jerusalem time is 2 hours 25 minutes* earlier [faster] than Greenwich; or 7 hours 25 minutes earlier than Eastern Standard time. To get Jerusalem time, therefore, add 7 hours 25 minutes to Eastern Standard time.) (*24 minutes 52 seconds)

nomical calculations very similar to those used in this series of articles.

In figuring the mean calculations shown in the central part of the tables, No. 73176, August 26, 1889, was taken as the starting point, because it was only about 2 minutes away from the mean generally used by astronomers for *current* calculations, that is, 29 days 12 hours 44 minutes (seconds being dropped). From this starting point the calculations were carried backward to January, 1886, and forward to December, 1936.

The next column, entitled "Minutes over 29 Days", is a very useful one for purposes of study. Each moon is a period of 29 days and a certain number of minutes in addition. The total number of minutes over 29 days between this moon and the one next following it is given. Thus, from the new moon of Tuesday, January 5, 1886, at 10:13 a.m., to the new moon of Thursday, February 4, 1886, at 5:43 a.m., was 29 days and 1,170 minutes. See Nos. 73131 and 73132.

In the next two columns each moon is compared with the one next to it. Thus, it being taken for truth that the normal time from one new moon to another is 29 days, 12 hours and 44 minutes, that is, 29 days and 764 minutes, if a moon takes 29 days and 1,170 minutes, it is slow by the difference, which is 406 minutes (6 hours 46 minutes).

The Moon Runs Fast

The experience tables show that the moon has the habit of running ahead of its schedule (if such an expression is permissible). Thus, according to the "Mean" the moon on January 5, 1886, was not due to rise until 7:31 p.m. of that day, but, as a matter of fact, it rose 9 hours 18 minutes earlier; so it was fast by that amount of time.

The lover of Jehovah God will now be greatly interested in the accompanying chart of lunations which shows the beautiful and graceful manner in which the moon keeps care of the seconds of the great Creator. It instantly appears that there is order, not the order of cogs and gears and rattling machinery, but the order of rhythm on a magnificent scale. But first another glance at the tables.

Take note of the last four columns of the tables and note how the moon is usually for seven moons fast, then for seven moons slow, etc., as compared with those that have gone before; it

is not always for seven fast and for seven slow, but is so 73 percent of the time, a few sixes, eights and nines being sprinkled in.

Note again from the tables that the moon is in the habit of running fast not only with respect to the previous moon, but with respect to its mean lunation; for about 9½ lunations it is fast with respect to its mean, and then, for 4 lunations, slow until the balance is recovered.

The way the astronomers put it is that the moon has a maximum eccentricity of orbit of 1.61959788103203 days. That is to say, stating this in a manner suitable for the general reader, the variation over any period of years, no matter how remote, will be not more than 1 day 14 hours 52 minutes 13¼ seconds. But the differences need not be of such an amount, and by proper care in taking the right kind of starting point the total difference over so long a period as 6,000 years will be only an hour or so, as will be shown.

Metonic Cycle and the God of Order

Men have been studying the moon many centuries. It is now about 2,400 years since the astronomer Meton discovered that after 235 lunations the new moon usually rises on the same day of the month that it did 19 years before. Thus, compare No. 73131, January 5, 1886, with No. 73366, January 5, 1905, or any two moons 235 lunations apart, and it will be found that this is nearly exact. The Callippic cycle is a refinement of the Metonic, in which 1 day is dropped every fourth Metonic cycle, to make the Metonics come out more nearly exact over longer periods of time.

Of much greater interest is the saros or eclipse cycle of 223 moons, used by all astronomers in calculating time of eclipses. Every 223 moons the moon is back where it was, if such an expression may be used. The chart (pages 374-375) helps to make this clear. Note again the data regarding the first moon mentioned in the table, No. 73131, of January 5, 1886; now note its position on the chart. Then add 223 moons, reaching to No. 73354, of January 17, 1904 (a period of 6,585.32 days, or 18 years and 10.32 or 11.32 days, depending on how many leap years are in the period), and notice on the chart that the moon is in the same relative position that it was at first. Compare any two moons 223 moons apart, and note the results.

Take the time to pay very special attention to this eclipse cycle feature, as it is the key to

unlocking the past. By means of this key astronomers have located many events which occurred hundreds of years before Christ. The chroniclers mentioned eclipses with much exactness, with the result that the dates could be exactly located.

Calculations in the *Golden Age* office show that in six thousand years the eclipse cycle locates a certain moon with absolute accuracy. It is on this wise: There were 73,740 moons from the lunation nearest the spring equinox of 4028 B.C. to the lunation nearest the spring equinox of A.D. 1935. There are 223 moons in an eclipse cycle; i.e., in 73,740 moons there are 330 eclipse cycles and 150 moons besides. Accordingly, 150 moons back from moon No. 73740, moon No. 73590 (of February 15, 1923) should be in exactly the same position in the heavens as the one some 5,950 years earlier (in 4028 B.C.); and such is the case.

At 29,530,588,715 days each, 73,590 moons amount, in total, to 2,173,156 days and about 34 minutes over. In 330 eclipse cycles, at 6,585.32 days per cycle, the total days are 2,173,155.6 days. In 5,950 years the moon is in the same position, and positively identifiable, with a total difference in the two calculations of less than 10 hours 3 minutes.

Getting Ready to Explore the Past

With this divinely provided measuring rod there will now be made an exploration of the past, particularly those passages in Holy Writ in which certain things are said to have taken place at such and such a time in such and such a moon. The right place to start inquiry is with the moon nearest at hand, say the one which is nearest to the vernal equinox in the year A.D. 1935. This new moon makes its appearance, astronomically speaking, at Los Angeles, Calif., at 4:11 a.m., Wednesday, April 3; on the 75th meridian, near New York and Philadelphia (Eastern Standard Time), at 7:11 a.m. on the same day, and at Jerusalem at 2:35:52 p.m. on the same day.

It is desired to ascertain as accurately as possible just when, astronomically, the new moon rose, in the year 4028 B.C., at the time nearest the vernal equinox. Remembering the accuracy of the eclipse cycle, one could wish to start backward from the moon which exactly corresponds in its movements with the one around the middle of March, 4028 B.C., but to do this it would be necessary to start with moon No. 73590, of February 15, 1923.

All things considered, it seems best to start with the moon nearest the present (moon No. 73740; April 3, 1935), but to take advantage of the eclipse cycle data, and thus start three hours earlier than moon No. 73740 indicates. Comparing the records of these two moons we find that No. 73590 was 10 hours 35 minutes ahead of the mean, while No. 73740 was but 7 hours 35 minutes ahead of it; the difference is 3 hours. Therefore the start is made at Jerusalem at Wednesday, April 3, 1935 A.D., at 11:35:52 a.m. (instead of 2:35:52 p.m. on the same day), so that the answer when obtained will be as nearly exact as possible. Any date in the remote past may now be sought with confidence.

Method of Calculating Lunations

Problem: Find the date of lunation nearest the autumnal equinox of the year 4129 B.C. **Answer:** 6,062½ years from the above starting point is October 2, 4129 B.C., at 11:35:52 p.m. In 6,062½ years there are at least 6,062½ × 365 normal days, which are 2,212,812½ days; in the 60 unbroken centuries, counting 24 leap years to each century, there are 1,440 more days; in the fragment of the 42d century B.C. there were 7 leap days; in the portion of a century in which this generation now lives there have been 8 leap days; there were also 14 so-called quadricentesimal leap years (being the years B.C. 4000, 3600, 3200, 2800, 2400, 2000, 1600, 800, 400, 1, and A.D. 400, 800, 1200, and 1600, but not the year 1200 B.C.). Total leap days, 1,469. Total days for 6,062½ years, 2,214,281½.

There are approximately 12,3682 lunations each year. In the 6,062½ years (multiplying) the correct number is found to be 74,983 lunations. In a lunation there are 2,551,442.864976 seconds; in 74,983 there are 191,314,840,344.4-95408, which at 604,800 seconds to the week, 86,400 to the day, 3,600 to the hour, and 60 to the minute, resolves into 316,327 weeks 3 days 3 hours 12 minutes 24.495408 seconds.

The starting point having been on a Wednesday (April 3, 1935) at 11:35:52 a.m., the time of the lunation in 4129 B.C. is 3 days 3 hours 12 minutes 24.495408 seconds earlier in the week than Wednesday, and is therefore on Sunday at 8:23:27.504592 a.m. In these problems the decimal fractions are preserved and carried along, as they afford protection against errors and provide methods of checking results.

As to the day of the month: In the 6,062½ years the total days were found to be 2,214,-

CHART FOR CHANGING OVER THE DAYS AND HOURS OF THE GREGORIAN
CALENDAR TO THE DAYS AND HOURS OF THE CALENDAR OF JEHOVAH GOD

2811½. In the 74,983 lunations there were 2,214,292 days, or 10½ more. The correct day of the month is therefore September 22, which is 10½ days back from October 2, at 11:35:52 p.m. The full answer is that in the autumn of 4129 B.C. the new moon rose at, Jerusalem time, 8:23:27.504592 a.m., Sunday, September 22.

"So Teach Us to Number Our Days"

In the 90th Psalm, verse 12, in his prayer there recorded, Moses, the man of God, includes a petition, "Teach us to number our days." Surely the days of God are precious enough that once a year their number may be taken into account. Their grand total to date is considerably less than two and a quarter millions, a figure which, in these days, stated in dollars, is, in some quarters, considered small.

The year which begins in the spring of the year 1935 A.D. and ends in the spring of the year 1936 A.D. is the *Year of Ransom* (or, *Y.R.*) 1903. The year which began in the spring of the year 4028 B.C., and ended in the spring of 4027 B.C., was the year *Before Ransom* (or, *B.R.*) 4060.

Dates in March-December (inclusive) of any B.C. year are transformed into *B.R.* dates by the addition of 32 years to the B.C. date. Dates in January and February of any B.C. year are transformed into *B.R.* dates by the addition of 33 years to the B.C. date.

From the spring of 4028 B.C. to the spring of A.D.1935 is (4028+1935-1=) 5,962 years. From the spring of *Before Ransom* 4060 to the *Year of Ransom* 1903 is (4060+1903-1=) 5,962 years.

The vernal equinoxes should be numbered, year by year. They come but once a year. Counting as No. 0 the one that occurred in the spring of the year *Before Ransom* 4060 (4028 B.C.) the total number to and including the one in the spring of the *Year of Ransom* 1903 (A.D. 1935) is but 5,962. Surely it is not a laborious task to keep annual record of these gifts of God.

The Calendar of Jehovah God

The calendar of Jehovah God first appeared in the *Year Book* of Jehovah's witnesses for the year 1935, page 168. The page which there appeared is here reproduced, with some slight alterations found advisable.

† This day, corresponding to Friday, April 5, 1935, is Edenic day No. 2177588, completing 311,084 weeks from the creation of Adam.

* Vernal equinox No. 5963, which is the last day of Jehovah's Year of Ransom 1903, occurs on this day.

‡ Jehovah's Year of Ransom 1904 begins with this day, corresponding to Sunday, March 22, 1936. It is Edenic day No. 2177940.

NOTE: *Lifeday, Redemption 14, 1903 Y.R.*, really begins at 6:00 p.m. of Wednesday, April 17, 1935 A.D., and was so shown in the calendar as originally published in the 1935 Year Book.

Lightday, the first day of the week, is commemorative of the great gift of light in creative epoch No. 1. (Genesis 1:3) For a full account of the work of this and the other creative days, see the Watch Tower publication *Creation*. Concerning this work a gentleman in Paterson, N. J., whose brother is a clergyman, said, "When I obtained possession of this book I hated God; when I had read it I loved Him."

Heavenday, second day of the week, is commemorative of the gift of an atmosphere, necessary to sustain the life of breathing creatures.—Genesis 1:8.

Earthday, third day of the week, is commemorative of the making of the beautiful home which God made for man and other breathing creatures.—Genesis 1:10-12.

Starday, fourth day of the week, is commemorative of the unfoldment of the magnificent pageantry of the heavens, suns, moons and stars inconceivable in number and beauty; the matchless spectacle of the universe. (Genesis 1:16) "Praise ye him, sun and moon: praise him, all ye stars of light."—Psalm 148:3.

Lifeday, fifth day of the week, will ever be commemorative of the great epoch in which the Creator first bestowed upon earthly creatures the unspeakable boon of life.—Genesis 1:20-22.

Mansday, sixth day of the week, will ever remind man of the gracious act of God in making the human creature and will remind him of the time when he was not in existence. (Genesis 1:26, 27) It was not at all necessary to the happiness of God that such a creature as man should ever have lived.

Godsday, seventh day of the week, reminds man for ever of the source of all his joys and hopes and the eternal resting place of his love.—Genesis 2:2, 3.

The hours of the day, as God arranged them, are six hours ahead of those days which man starts at midnight (and by which he rudely assumes to rend each beautiful night in twain). The hours of night are 12; the hours of daylight are 12. The first hour of the 24-hour period begins with the hour 12:00 D. (or, Day), and ends at 1:00 N. (or, Night). The sixth hour ends at midnight, 6:00 N. The twelfth hour is the last hour of the night, and there, 12:00 N., begins the daylight period of the day. It stands midway between midnight and the succeeding noon, which point, 6:00 D., is properly called the close of the 6th hour of the day. The 9th hour of the

day ends at 9:00 D., commonly designated 3:00 p.m. The day ends with the 12th hour, at 12:00 D.

"Man Became a Living Soul"

"The secret things belong unto [Jehovah] our God: but those things which are revealed belong unto us, and to our children for ever." (Deuteronomy 29:29) None may say at just what time "Jehovah God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul" (Genesis 2:7, *A.R.V.*), but this series of articles contains the strong evidence that it was in the spring of the year 4060 *Before Ransom* (4028 B.C.).

The evidence has already been presented that the vernal equinox that year was at 9:41 D., *Lifeday, Temple 28, 4060 B.R.* (3:41 p.m., Thursday, March 21, 4028 B.C.). The new moon appeared about 29 hours subsequently, 2:55 N., *Godsday, Temple 30, 4060 B.R.* (8:55 p.m., Friday, March 22, 4028 B.C.). If it subsequently appears that Jesus, the Second Adam, was born into the world about the ninth hour of the night (heretofore called three o'clock in the morning) would it be unreasonable to reverently hold the thought that the first Adam was completed about the same hour? That he was created sometime before sundown of that day certainly seems to be suggested by the reference to the "sixth day" in Genesis 1:31. These two events, equinox and new moon, rarely come so close together as they did on this occasion, and they come in the order that one would expect, if the creation of man occurred midway between them.

Concealed from clear vision behind the mists, the first moon shining over Adam was moon No. 0, month Redemption, and it may have been that even before that first month was ended he had need of the hope contained in God's mysterious statement to the great adversary, "I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel." (Genesis 3:15) There is no record as to the number of the days of innocence and happiness in Eden.

Using the Six-Thousand-Year Calendar

Glance now at the six-thousand-year calendar. Note the letter "H" in the year 3793 B.C. (3825 B.R., 235th vernal equinox). The year is the year of the birth of Enos, Adam's grandson. The Scriptures say that "then began men to call

themselves by the name of Jehovah". (Genesis 4: 26, *margin*) Then, while Adam had yet to live 695 years, hypocrisy had already begun in the earth. Adam at this time was but 235 years of age.

Glance again at the six-thousand-year calendar and note the letter "M" in the year 3341 B.C. (*3373 B.R., 687th vernal equinox*). Adam at this time was 687 years of age, but still had 243 years before he finished his course. Methuselah was born in this year. It is as certain as anything can be that Methuselah and Adam knew each other intimately for at least two hundred years. What the one knew, the other learned; what God had told the one, Adam, was (one would think) certainly told by him to the other, Methuselah. There is but one link necessary to connect Methuselah with Abraham; he (Shem) was contemporaneous with them both.

Using the six-thousand-year calendar again, note the "A" in the year 3098 B.C. (*3130 B.R., 930th vernal equinox*), the time of Adam's death; note the "E" which indicates that the godly Enoch was translated only 57 years later. It would be good to connect all the lettered points by ruled lines, so that explanations of the calendar may be made readily to friends. It will be

apparent that Adam had the privilege of living with Enoch 308 years, long enough for them both to learn much.

Note the "S1" in the year 2470 B.C. (*2502 B.R., 1558th vernal equinox*); this is the year of Shem's birth. From then until the "D" (for the Deluge and Methuselah's death) in the year 2373 B.C. (*2405 B.R., 1655th vernal equinox*), a period of over 97 years, Shem had abundant opportunities to learn all Methuselah knew.

Referring to the table containing list of "Lunations Ushering in the Years or Periods Which Contain the Most Important Events of History", it shows a new moon rising at *3:21 D., Earthday, Edenic day No. 604846, precursor of God's month No. 20482, 1656th vernal equinox, 2404 B.R. (9:21 a.m., Tuesday, March 26, 2372 B.C.)*.

But as the account of the Flood is the first place in the Scriptures where months are mentioned, and the question of when and how the months are to be reckoned arises, it is desirable that not only the days of the lunations, but the hours as well, should be determined as accurately as possible. To this end, use is made again of the eclipse cycles.

(To be continued)

"THIRTY DAYS HATH SEPTEMBER"

So begins the old rhyme intended to help children remember the number of days in each calendar month. But very few people give any thought to the question of *why* the months are arranged as they are, or why they are named the way "Christendom" has them. Who fixed it all up, anyway? and why should the whole world follow the arrangement? What authority is there for it all? Read "THE SECOND HAND IN THE TIMEPIECE OF GOD", a series of articles beginning in this issue, and you will appreciate why a new calendar should be adopted by those who would honor the Creator.

Incidentally, have you subscribed for The GOLDEN AGE? If not, begin now, with this issue, so that you may have every number in which these absorbingly interesting articles will be run.

The Golden Age, 117 Adams St., Brooklyn, N. Y.

Please enter my subscription for The GOLDEN AGE for one year, beginning with No. 404. I enclose money order for \$1.00 (Canada and other countries, \$1.25).

A SPECIAL PACKET OF 50 BOOKLETS FOR YOU

So That You May Have a Part in the Special Witness Period

April 13-21

EVERYONE who is truly interested in Jehovah's kingdom established on earth will necessarily want to have a part in the advertising of that kingdom. The dates April 13-21 are set aside as a special period called **THE ANOINTED'S THANKSGIVING PERIOD**, and during this time all people of good will should have a keen desire to be a publisher of the message of the Kingdom, which is the only hope for the world. There is constantly being brought to the **GOLDEN AGE** readers, from the great storehouse of God, the truth, which should make each one determined to take his stand on the side of the Lord. In order to demonstrate this one would naturally want to have a part in proclaiming the important truths from the Word of Jehovah.

Why not have a part in this special period and obtain 50 booklets, on a contribution of only \$1.00, which will be used to print more of these publications? The packet is composed of the following:

10 SUPREMACY 10 HIS VENGEANCE
30 WHO SHALL RULE THE WORLD?

These in turn can be offered to the people, three on a contribution of 10c, or the booklet **WHO SHALL RULE THE WORLD?** can be left with the people on only a penny contribution, or given to them if they really desire it and are unable to contribute anything. You may be assured that you will receive a great blessing in doing this. It is suggested that you have in your hand a card bearing the testimony printed below, and instead of reading it to the persons you call upon, let them read it, and while they are reading be ready to present the above-named three booklets.

In these days of perplexity and many conflicting opinions thoughtful persons are seeking to know and understand from the sure Word of God what is the truth. To aid the people in getting a proper understanding these books are published. Frequently you are confronted with questions like these: Why is there so much wickedness on earth? Will wickedness continue forever, or may we hope for something better? Who shall rule the world? Who is the supreme and all-powerful one? and how will that supremacy be made known to us?

A proper answer to those and many related questions will be found in these books, and the answer will bring you comfort, strength and hope. Voluntary contributions make it possible to publish these three booklets for ten cents. Would you take these three and contribute ten cents that more like books might be published for the benefit of the people?

The Watch Tower

117 Adams St.

Brooklyn, N. Y.

I desire to have a part in the witness, and I desire to be a publisher of the Kingdom message during **THE ANOINTED'S THANKSGIVING PERIOD**, April 13-21. Please send me, therefore, the special packet composed of the following booklets. Enclosed find a dollar contribution so that more of these can be printed.

(In 3 Parts—Part 2)

Eclipse Cycles Promote Accuracy*

THERE are 238 eclipse cycles of 223 moons each from No. 20470 listed in the table below to No. 73544, *Lifeday, Life 28, Edenic day No. 2171798, Y.R. 1887* (Thursday, May 29, 1919 A.D.). God's months Nos. 73544-73557 are the counterparts of Nos. 20470-20483. Lunation Experience Table and Chart of Lunations.

Applying this corrective, the lunation on

Edenic day No. 604846 (2372 B.C.), listed below, at which day "the waters were dried up from off the earth", is found to have occurred at 9:40 p.m. of the day named in the table, instead of 9:21 a.m., as shown in the table of lunations ushering in the most important events in history. The times of all the moons covering the period of the Flood are now shown as the eclipse cycles indicate them to have occurred:

Vernal Equinox	Moon No.	Hour	Day of Week	Edenic Day No.	Ensuing Month	Year B.C.	Hour	Gregorian Date	Year B.C.

The Story of the Flood

The story of the Flood is told, mostly in the language of the Scriptures with which are now connected both of these nomenclatures. "And he that sat upon the throne said, Behold, I make all things new. And he said unto me, Write; for these words are true and faithful." (Revelation 21:5) It takes longer for some minds to get used to new things than it does for others; but afterwards, how much the new things are enjoyed! and how much better they are than the old! Who is there that would wish to return to the sanitary(!) conveniences of the "good old

* The twelve hours of Joshua's long day are believed to have been subsequently compensated.

days"! its "churches"! its politics! its finance! its "medicine"! its "education"! its inquisition! its newspapers! its radio! its wars! its oxcarts! its monasteries! its vermin! its wooden plows! its priests! its poison gas! its convents! its theological seminaries! its manure piles!

"In the six hundredth year of Noah's life, in the second month" (see No. 20471 in the table, for details), on the tenth day of the month (Genesis 7:7-11), Noah and his family went into the ark. The first day of the month, beginning at sundown at the end of the day the moon rose, was Edenic day No. 604522; the tenth day was Edenic day No. 604531. The day, therefore, when Noah and his family went into their place

of safety was *Earthday, Life 10* (Tuesday, May 16). (They probably entered the ark the Monday evening previous, which, according to Bible usage, was a part of the day in question.)

"[On] the seventeenth day of the month," one week later, *Earthday, Life 17, Edenic day No. 604538* (Tuesday, May 23), "the same day were all the fountains of the great deep broken up, and the windows of heaven were opened. And the rain was upon the earth forty days and forty nights." (Genesis 7:11, 12) It rained 14 days in that month and 26 in the next one, *Visitment* (see the table), ending on *Godsday, Edenic day No. 604577* (Saturday, July 1). At the time, in the year 1934 A.D., when the month *Visitment* was named, it was not known that *visitment* of God applied so perfectly to month.

"And the waters prevailed upon the earth an hundred and fifty days" (Genesis 7:24), and were due to end, to be exact, at the end of *Lifeday, King 17, Edenic day No. 604687* (Thursday, October 19). And it was so; that was just what occurred. "And after the end of the hundred and fifty days the waters were abated. And the ark rested in the seventh month, on the seventeenth day of the month, upon the mountains of Ararat."—Genesis 8:3, 4.

Here Enters the Visibility Factor

God helps man in the things in which he cannot help himself, but as soon as he has been provided adequate assistance he is left to his own resources. This can be seen in Peter's deliverance from prison. In answer to the prayers of the Jerusalem company of witnesses the angel came to him and found him asleep in the care of his jailers. The angel gave him a little punch, set him up, and told him to get up the rest of the way himself. As he obeyed an unseen angelic confederate unlocked Peter's handcuffs, and the chains fell. Then the angel ordered Peter to gird himself, bind on his sandals, cast his garment about him, and follow him. He did so. As they came to various doors and gates other unseen confederate angels unlocked them, and Peter stepped into the street a free man. The angel escorted him down one block, just to steady Peter's nerves, and let him go the rest of the way alone. All will see that this method is right.

Manifestly this is the way it was with Noah at the time of the Flood. Although the earth had been illuminated at night from the time of Adam

down to moon No. 20472, at which time the Deluge was at its height, yet probably not a human eye ever saw the moon until the Deluge had cleared the skies of the prevailing mists. On this point, and at length, see *Creation*, published by The Watch Tower. Further, even now, thousands of years after the Flood, the sun itself is sometimes not seen for many days, and indeed has not been visible in Brooklyn, New York, for four full days past, including the day this is written.

Revelation and Observation

It is very evident that Noah received his information about months down to No. 20472, *Visitment*, inclusive, by revelation, and from that point onward by his own observations, and those of his family. Viewed in this manner, the

is consistent with itself and with the facts.

The first moon that Noah saw, therefore, was No. 20473, *Freedom*, which rose astronomically at the hour 12:52 D., *Earthday, Edenic day No. 604580* (6:52 a.m., Tuesday, July 4). It could have been seen that night; the earliest a new moon may be seen after its astronomical rising is sixteen hours; it is often forty hours. From the time observation was possible, it seems to have been the custom to count the new month as beginning at sundown of the day following that in which the new moon was seen.

Referring now to the table, it is manifest that Noah's months, after observation was possible, began to count about two days later than the astronomical rising. Thus, take moon No. 20476, rising at 12:35 D., *Lightday, Edenic day No. 604669* (6:35 a.m., Sunday, October 1). It was probably seen sometime in the succeeding night, and the new month began to count with sundown of what the heathen call Monday night, which day is in fact and in effect *Earthday, King 1, Edenic day No. 604671* (Tuesday, October 3).

The seventeenth day of that month, *King 17, Edenic day No. 604687* (Thursday, October 19), concludes, just where it should, the 150 days mentioned in the account. In other words, revelation and observation combine to make the record perfect.

Theologians have tried to make people believe that Moses, the writer of Genesis, was influenced by his Egyptian education and that at this point he followed the Egyptian custom of ignoring God's months and making 150 days to be exactly five months of 30 days each. This

argument answers itself. Moses was a man of God, writing the record of God, for God's witnesses to use now, to put His enemies to shame. Moses was not influenced by anything but a desire to put down the record as it came from God, through God's faithful intermediate messengers, Shem and others. Moses' grandfather, Levi, was a grandson of Isaac, living in the days of Shem.

Logos and Jehovah in the Record

"And the waters decreased continually the tenth month: in the tenth month, on the first day of the month, were the tops of the mountains seen." (Genesis 8:5) The moon itself (No. 20479, *Logos*) rose astronomically at 6:50 D., *Mansday, Edenic day No. 604758, 2405 B.R.* (12:50 p.m., Friday, December 29, 2373 B.C.). It was probably not seen that night, *Godsday*. Therefore the month did not begin until 12:00 D., *Heavenday* (6:00 p.m., Sunday, December 31). The next morning, corresponding to Monday, January 1, the tops of the mountains were seen, *Edenic day No. 604761*.

"And it came to pass, at the end of forty days, that Noah opened the window of the ark which he had made: and he sent forth a raven, which went forth to and fro, until the waters were dried up from off the earth. Also he sent forth a dove from him, to see if the waters were abated from off the face of the ground: but the dove found no rest for the sole of her foot, and she returned unto him into the ark, for the waters were on the face of the whole earth: then he put forth his hand, and took her, and pulled her in unto him into the ark." (Genesis 8:6-9) The time indicated is *Mansday, Jehovah 10, Edenic day No. 604800,* God's month No. 20480, 2405 B.R.* (probably Friday evening, February 9, 2372 B.C.).

Jehovah in the Record Thrice

"And he stayed yet other seven days, and again he sent forth the dove out of the ark: and the dove came in to him in the evening; and, lo, in her mouth was an olive leaf, plucked off; so Noah knew that the waters were abated from off the earth." (Genesis 8:10, 11) The time indicated is *Mansday, Jehovah 17, Edenic day No. 604807, God's month No. 20480, 2405 B.R.* (probably Friday evening, February 16, 2372 B.C.).

"And he stayed yet other seven days, and

* There are just 604,800 seconds in one week.

sent forth the dove, which returned not again unto him any more." (Genesis 8:12) The time indicated is *Mansday, Jehovah 24, Edenic day No. 604814, God's month No. 20480, 2405 B.R.* (Friday evening, February 23, 2372 B.C.).

"And it came to pass, in the six hundredth and first year, in the first month, the first day of the month, the waters were dried up from off the earth: and Noah removed the covering of the ark, and looked, and behold, the face of the ground was dry." (Genesis 8:13) The time indicated is *Mansday, Redemption 1, Edenic day No. 604849, God's month No. 20482, 2404 B.R.* (Friday, March 29, 2372 B.C.).

"And in the second month, on the seven and twentieth day of the month, was the earth dried. And God spake unto Noah, saying, Go forth of the ark, thou, and thy wife, and thy sons, and thy sons' wives with thee." (Genesis 8:14-16) The time indicated is *Lifeday, Life 27, Edenic day No. 604904, God's month No. 20483, 2404 B.R., vernal equinox No. 1656* (Thursday, May 23, 2372 B.C.). And who shall say that

... was not the ideal time for them to come forth from the ark and plant their first garden in the rich alluvial lands covered by the detritus from the Flood? And so there naturally follows, as the concluding verse of the chapter and of this part of the story: "While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night, shall not cease."—Genesis 8:22.

The with Abraham

The next place where one of the months of God is in evidence is at the time of the covenant with Abraham: see again the six-thousand-year calendar and note the "C" in the year 1945 B.C. (1977 B.R.). It was in this year that the covenant was made, and Jehovah God has been pleased to reveal the day.

Although the history of the making of the covenant is recorded in the twelfth chapter of Genesis, the day is not disclosed in the Genesis account further than to make it clear that it was the day Abraham crossed the Euphrates at Haran; but it is mentioned in Exodus 12:41, where it says, "And it came to pass at the end of the four hundred and thirty years, even the fiftieth day it came to pass, that all the hosts of [Jehovah] went out from the land of Egypt." It is clear that the covenant was made on *Heavenday, Redemption 14, Edenic day No. 760812*,

God's month No. 25763, 1977 B.R., vernal equinox No. 2083 (Monday, April 3, 1945 B.C.).

Shem lived on after the Flood, down through the deflection in the days of Nimrod, the dividing of the land among the people, or possibly the rending of the continents asunder, in the days of Peleg, the building of the tower of Babel and the confusion of tongues. Abraham's father, Terah, was born, grew to manhood, lived to be 205 years of age, and died, and Shem lived on. Abraham himself was born and lived to be one hundred years of age, and Shem lived on.

Refer again to the six-thousand-year calendar and note the "I" in the year 1920 B.C. (1952 B.R.). Isaac was born in that year. Isaac grew to manhood, and was married to Rebecca at forty years of age, and it was not until ten years after that marriage that Shem passed away. See the "S2" in the year 1870 B.C. (1902 B.R.).

Although there is no record that either Abraham or Isaac ever met Shem, there is nothing in reason nor in Scripture to the contrary. It would seem reasonable that God had some reason for perpetuating the life of this man whose grandfather Methuselah must have known Adam well, and who had himself passed through all the experiences of the Flood, and that the reason was that he might convey to some faithful soul like Abraham the things that he knew. Indeed, he might have conveyed the same information to Isaac.

The Time of Isaac's Birth

Isaac was born in the year that Abraham was 100 years old, 1920 B.C. (1952 B.R.), but the time of the year is uncertain. Consider the circumstances. Abraham was circumcised when he was ninety-nine years of age. (Genesis 17:24) He subsequently entertained angels unawares, the angels who came to destroy Sodom and to announce the forthcoming birth of Isaac. On this occasion one of these angels made the promise, to Sarah, "At the time appointed I will return unto thee, according to the time of life, and Sarah shall have a son." There is a reason to believe that the time of life* when the angel returned to fulfill his promise was in the month Logos, and that it was the Logos himself

* The "time of life" here referred to is 280 days. Therefore we may understand that if the birth of Isaac was on October 1, 1920, as is believed to have been the case, the day of the visit of the angels was March 21, 1921 B.C., and the day of conception was December 26, 1921 B.C.

that made the promise. Sarah's conception was delayed nine months.

Before the promise was fulfilled, Sodom was destroyed and Abraham left that part of the country, to dwell in the land of Abimelech. While he was in that land Abimelech seized Sarah, intending to have her for his wife, but "[Jehovah] had fast closed up all the wombs of the house of Abimelech, because of Sarah, Abraham's wife". (Genesis 20:18) Jehovah defeated the Devil's plans to prevent the birth of the promised seed, but permitted him to go the limit to do what he could to interfere. These experiences necessarily took some time; so there was a delay. *After* this there is the simple record:

"And [Jehovah] visited Sarah as he had said, and [Jehovah] did unto Sarah as he had spoken. For Sarah conceived, and bare Abraham a son in his old age, at the set time of which God had spoken to him. And Abraham called the name of his son that was born unto him, whom Sarah bare to him, Isaac. And Abraham circumcised his son Isaac, being eight days old, as God had commanded him. And Abraham was an hundred years old when his son Isaac was born unto him."—Genesis 21:1-5.

Isaac Born in the Autumn

Though Abraham's birthday was evidently in the spring, about the time the covenant was made with him, there is reason for thinking that Isaac was born in the autumn, sometime around October 1. At that time Abraham would still be spoken of as "an hundred years old", for when Christ was 12½ years of age he was still referred to as twelve, the half year being ignored.

The reasons for thinking that Isaac was born in the autumn are several. There is the curious reference to "the time appointed" (Genesis 18:14), the delay occasioned by the journey to the land of Abimelech and what there occurred, and the reference to "the set time of which God had spoken to him".—Genesis 21:1-5.

In a very special sense Abraham represented God and Isaac represented Christ Jesus; and it pleased God that Christ should be born in the autumn. "By faith Abraham, when he was tried, offered up Isaac; and he that had received the promises offered up his only begotten son, of whom it was said, That in Isaac shall thy seed

be called. Accounting that God was able to raise him up, even from the dead; from whence also he received him in a figure." (Hebrews 11: 17-19) "Which things are an allegory." (Galatians 4: 24) When Jehovah God makes allegories He makes them right.

Isaac was Abraham's heir, heir of all that he had. He was to have the land of Palestine for his inheritance, and the Scriptures declare that he really got that inheritance (typically and, in a fuller sense, in his posterity), though his posterity, the children of Israel, had to wait about four hundred and fifty years for it. It was 450½ years from the fall of the year 1920 B.C. (1952 B.R.), when Isaac was born, to the spring of the year 1469 B.C. (1501 B.R.) at which time the division of the land among the twelve tribes of Israel occurred.

Genesis 15: 13, 14 reads: "And he said unto Abram, Know of a surety that thy seed shall be a stranger in a land that is not theirs, and shall serve them; and they shall afflict them four hundred years: and also that nation, whom they shall serve, will I judge: and afterward shall they come out with great substance." This scripture proves that four hundred years were up at the exodus of the children of Israel from Egypt; they wandered in the wilderness for forty years more, and thereafter were occupied six years in conquest of the land before the division of the land took place. This makes a total of 446 years. Isaac was born five years before these years began, making a grand total of 451 years, which is "about four hundred and fifty years".

One of the most trustworthy of all the versions of the Holy Scriptures explains the entire matter as above set forth. Note carefully:

"Ye men of Israel! and such as revere God! hearken:—The God of this people Israel chose our fathers, and the people he exalted by their sojourn in the land of Egypt,—and with a high arm brought he them out of it; and for the time of about forty years bare with their manners in the desert; and overthrowing seven nations in the land of Canaan gave them their land as an inheritance—about four hundred and fifty years. And after these things he gave them judges until Samuel the prophet."—Acts 13: 16-20, *Rotherham*.

The *American Revised Version* is the work of many able scholars. Their rendering of verses 19 and 20 is similar:

"And when he had destroyed seven nations

in the land of Canaan, he gave them their land for an inheritance, for about four hundred and fifty years: and after these things he gave them judges until Samuel the prophet."

Another version much appreciated by is the *Weymouth*. Dr. Weymouth, who made his living for many years teaching Greek in college, renders the last-cited passage:

"After overthrowing seven nations in the land of Canaan, He divided that country among them for their inheritance for about four hundred and fifty years; and afterwards [after their 450½ years of waiting for their inheritance were at an end] He gave them judges down to the time of the Prophet Samuel."

Isaac was born in the autumn. God now discloses, thrusting it forth as one of the 'precious things of the moons' (Deuteronomy 33: 14), that it is necessary to mutilate or alter His Word, in order to force a chronology, as was done with 1 Kings 6: 1, where a "4" was changed to a "5" to make things fit better (?). All that is necessary is to keep faithfully on with His organization until such time as He sees fit to explain things theretofore obscure. But, anyway, even if Isaac was born in the spring, four hundred and fifty-one years is "about four hundred and fifty years" and would be properly so mentioned.

God's Witness and the Exodus

The next time months are mentioned in the Scriptures is in the record of the Exodus. As several are mentioned within the first fourteen months, and it is desirable that the exact time be known, as near as possible, reference is again had to the eclipse cycles, already used with good results.

From the new moon which rose nearest to the time of the Exodus, in the spring of the year 1515 B.C. (1547 B.R.), there are 191 eclipse cycles of 223 moons each down to No. 73674 (see Luration Experience Table and Luration Chart). Nos. 31080-31097, of Moses' day, find their exact counterpart in Nos. 73673-73690, now but about five years in the past. Therefore, the following table shows, as near as may be calculated, just when the lunations in those days occurred. Comparison of the second item with the corresponding one in the Luration Table shows a correction of 3 hours 55 minutes, obtained by using the eclipse cycles at this point.

Moon No.	Hour	Day of Week	Edenic Day No.	Ensuing Month	Year B.R.	Hour	Day of Week	Name of Month	Year Day B.C.

Stirring Times in Egypt

Jehovah God must have had some reason for disclosing the time that elapsed between various acts of the drama of vindication and deliverance in the land of Egypt. It is manifest that the very days in which the Israelites were making all their preparations to leave the land of bondage were the days in which the plagues were visited upon the Egyptians. It is so in the fulfillment.

At this point the reader is urged to procure the book *Jehovah*, and to read it all, but especially Chapters II and III, and there see what the plagues upon Egypt foreshadowed. Briefly, these plagues, preceding the vindication of Jehovah's name in Egypt, foreshadowed the truth of God's Word, at the hands of His witnesses, shining into every part of the Devil's organization, and revealing that commerce is bloody and death-dealing; that all plans of human origin for the recovery of humanity are frog-like in appearance and effect; that the visible organization of Satan is active for the same reason that a lousy person is more active than one that is not lousy; that in claiming to be the "higher powers" Satan and his agents are disclosed as mere side-steppers, false flitters; that the "Holy Year" scheme, and all similar schemes, aim, not to bear away the burdens of the people, but to add to them; that the League of Nations, the World Court, and all similar pretentious political projects, are just so many frauds; that the true people of God openly take their stand for Jehovah and against Satan; that the "locusts",

which are such a pest to the Devil and his crowd, are really a great blessing to all that love truth; that the darkness which covers the earth, and great darkness the people, is because the Devil's crowd have neglected the Word of God; and that the destruction of the Devil's firstborn impends.

In this article there is no thought of more than mere mention of what the plagues represented. The intent here is to pay close attention to what actually happened in Egypt 3,449 years ago, the "things thrust forth by the moon". It at once appears that the preliminaries and the plagues covered a total period of 21 days and that each of these days may now be identified. Some think the plagues were strung out for months. The thought herein presented takes an opposite view; but whichever view is taken the tenth plague terminated at the time and in the manner herein presented.

Identification of the Days

Identification of the days really begins with moon No. 31080, which rose at the hour 11:41 N., Lifeday, Edenic day No. 917811, 1548 B.R., vernal equinox 2512 (5:41 a.m., Thursday, February 6, 1515 B.C.). The month Temple began its 30-day course 36½ hours thereafter, due allowance being made for the usual visibility of the moon and proclamation. The story now proceeds in order, as set forth in the Scriptures, each day being accounted for down to the time of the departure from Egypt, on the 15th of the succeeding month.—Numbers 33:3-5.

It was on *Heavenday, Temple 24, Edenic day No. 917836, God's month No. 31080, B.R. 1548* (Monday, March 3, 1515 B.C.), that "Moses and Aaron did so; as Jehovah commanded them, so did they. And Moses was fourscore years old, and Aaron fourscore and three years old, when they spake unto Pharaoh. And Jehovah spake unto Moses and unto Aaron, saying, When Pharaoh shall speak unto you, saying, Show a wonder for you; then thou shalt say unto Aaron, Take thy rod, and cast it down before Pharaoh, that it become a serpent. And Moses and Aaron went in unto Pharaoh, and they did so, as Jehovah had commanded". Pharaoh's heart was hard; Jehovah knew it, and doubtless while His witnesses stood there (as seems at other subsequent times to have been the case) "Jehovah said unto Moses, Pharaoh's heart is stubborn, he refuseth to let the people go". Within a few hours followed the command to Moses and Aaron, "Get thee unto Pharaoh in the morning and visit him with the first plague.—Exodus 7: 6-10, 14, 15, *A.R.V.*"

Bright and early the next morning, *Earthday, Temple 25, Edenic day No. 917837, God's month No. 31080, B.R. 1548* (Tuesday, March 4, 1515 B.C.), "Moses and Aaron did so, as Jehovah commanded; and he lifted up the rod, and smote the waters that were in the river, in the sight of Pharaoh, and in the sight of his servants; and all the waters that were in the river were turned to blood."—Exodus 7: 20, *A.R.V.*

"And seven days were fulfilled, after that Jehovah had smitten the river." (Exodus 7: 25, *A.R.V.*) For one week there were no additional plagues visited upon Pharaoh. These seven days have a symbolic meaning, but back in the days of Moses and Aaron and Pharaoh they served a very real and practical purpose.

Inauguration of a New Era

In the week that followed it was God's purpose to inaugurate not only a new month, but a new year and a new era. During the week of the plague of blood rose a new moon, No. 31081, at 4:28 N., *Godsday, Edenic day No. 917841, B.R. 1548* (10:28 p.m., Friday, March 7, 1515 B.C.). It was seen the night following, of *Lightday*, and the next day, which followed the seven days of the plague, was the beginning of a new month, a new year, and a new era.

In the Scriptures, as in other literature, it is impractical to put into one chapter all the events

that occur at the same time, and it was manifestly *Heavenday, Redemption 1, Edenic day No. 917843* (after 6:00 p.m., Sunday, March 9, 1515 B.C.), that Jehovah "spake unto Moses and Aaron in the land of Egypt, saying, This month shall be unto you the beginning of months: it shall be the first month of the year to you". (Exodus 12: 1, 2) **That day was the first day of the month, and the first day of a new era.** The account goes on to specify what the Israelites should do on the tenth day, *Starday* (after 6:00 p.m., Tuesday, March 18), and the fourteenth day, *Lightday* (after 6:00 p.m., Saturday, March 22), indicating that those days were yet future from when the instructions were given. The week while the plague of blood continued enabled Moses and Aaron, now with considerable prestige among the Israelites, to do something toward organizing the two million or more people that would be in the exodus. As soon as the week was up additional plagues followed one another in rapid succession for twelve days, terminating with the passover and the exodus.

Subsequent Plagues

Without delay, on the morning of *Earthday, Redemption 2, Edenic day No. 917844, God's month No. 31081, B.R. 1547* (Tuesday, March 11, 1515 B.C.), the plague of frogs was visited upon the Egyptians and produced results immediately. "Then [the same day] Pharaoh called for Moses and Aaron, and said, Entreat Jehovah, that he take away the frogs from me, and from my people; and I will let the people go, that they may sacrifice unto Jehovah. And Moses said unto Pharaoh, Have thou this glory over me: against what time shall I entreat for thee; and for thy servants, and for thy people, that the frogs be destroyed from thee and thy houses, and remain in the river only! And he said, Against to-morrow. And he said, Be it according to thy word."—Exodus 8: 8-10, *A.R.V.*

The plague of the frogs was lifted from Egypt on *Starday, Redemption 3, Edenic day No. 917845, God's month No. 31081* (Wednesday, March 12). The very day that the plague of frogs was lifted, and Pharaoh was again proven a liar and hard of heart, a plague of lice was upon him and his people; and when this came, even his magicians had sense enough to admit that it was the finger of God.—Exodus 8: 19.

Moses was instructed to "rise up early in the morning [*Lifeday, Thursday*], and stand before

Pharaoh" (Exodus 8:20) and tell him of the huge swarms of flies that would be upon him and all his people on the day following (*Mansday*) unless he yielded. To hurt him still worse, he was also told that on this occasion a line would be drawn between the land of the Egyptians and the land of Goshen, where the Israelites dwelt: his own people would suffer; the Israelites would not.

The notice that the flies were coming was served on Pharaoh on *Lifeday, Redemption 4, Edenic day No. 917846* (Thursday, March 13). When the notice was served, Moses said, "To-morrow shall this sign be" (Exodus 8:23); and **it was: the flies came on schedule, Mansday, Redemption 5, Edenic day No. 917847, God's month No. 31081** (Friday, March 14).

Tomorrow—Tomorrow—Tomorrow

As one reads the account of the plagues it is striking how rapidly the events follow one another and how well every day is accounted for. It did not take Pharaoh long to get all the flies he wanted, and so he sent for Moses and Aaron, and, after some argument, told them they might go a little way into the wilderness and sacrifice to Jehovah God, but not to go very far. "And Moses said, Behold, I go out from thee, and I will entreat Jehovah that the swarms of flies may depart from Pharaoh, from his servants, and from his people, to-morrow." (Exodus 8:29, *A.R.V.*) The plague of flies was lifted on *Godsday, Redemption 6, Edenic day No. 917848, God's month No. 31081* (Saturday, March 15).

As soon as the plague of flies had been removed, "Pharaoh hardened his heart at this time also" (Exodus 8:32), and "then [the very same day] Jehovah said unto Moses, Go in unto Pharaoh, and tell him, Thus saith Jehovah, the God of the Hebrews, Let my people go, that they may serve me. For if thou refuse to let them go, and wilt hold them still, behold, the hand of Jehovah is upon thy cattle which are **in the field. . . .** And Jehovah appointed a set time, saying, To-morrow Jehovah shall do this thing in the land. And Jehovah did that thing on the morrow; and all the cattle of Egypt died; but of the cattle of the children of Israel died not one". (Exodus 9:1-6, *A.R.V.*) The plague upon the cattle came on *Lightday, Redemption 7, Edenic day No. 917849, God's month No. 31081* (Sunday, March 16). Pharaoh did not repent, and so on that day (the same Egyptian day,

but not the same day of Jehovah God; probably about sundown) he received double punishment; that day (*Heavenday*) came the boils on man and beast.—Exodus 9:7-12.

Another plague followed hard upon its heels. "And Jehovah said unto Moses, Rise up early in the morning, and stand before Pharaoh, and say unto him, . . . Behold, to-morrow about this time I will cause it to rain a very grievous hail, such as hath not been in Egypt since the day it was founded even until now." (Exodus 9:13, 18, *A.R.V.*) This came to pass, the notice one day and the hail the next, the latter on *Earthday, Redemption 9, Edenic day No. 917851, God's month No. 31081* (Tuesday, March 18).

The Last Week in Captivity

The last week in captivity was a stirring week. The first three days, as above noted, brought in swift succession the plagues upon the cattle, boils on man and beast, and hail such as never before seen in the land, yet "when Pharaoh saw that the rain and the hail and the thunders were ceased" (in answer to Moses' petition to God offered in the suburbs of the heathen city) "he sinned yet more, and hardened his heart, he and his servants". (Exodus 9:34) Thereupon, "Jehovah said unto Moses, Go in [return into the city at once] unto Pharaoh" with this message: "If thou refuse to let my people go, behold, to-morrow will I bring locusts into thy border."—Exodus 10:1-4, *A.R.V.*

All the rest of that day, and all that night (in the evening hours of *Starday*), Jehovah brought billions on billions of locusts, so that in the morning, the daylight hours of *Starday, Redemption 10, Edenic day No. 917852, God's month No. 31081* (Wednesday, March 19), they literally covered the earth. One glance at them was enough. Badly frightened, "Pharaoh called for Moses and Aaron in haste; and he said, I have sinned against Jehovah your God, and against you. Now therefore forgive, I pray thee, my sin only this once, and entreat Jehovah your God, that he may take away from me this death only." (Exodus 10:16, 17, *A.R.V.*) Moses complied, and the plague was lifted. That day, *Redemption 10* (March 19), the paschal lamb was selected by each Hebrew family group.

As usual, Pharaoh's repentance was merely a mouth repentance, and he still refused to let the people go. There then followed three days of pitch-black darkness. At the beginning of these

three days of darkness was the *vernal equinox* No. 2513, at 1:08 D., *Lifeday, Redemption 11, Edenic day* No. 917853, *God's month* No. 31081 (7:08 a.m., Thursday, March 20). During those three days, ending *Godsday, Redemption 13* (Saturday, March 22), "they saw not one another, neither rose any from his place for three days: but all the children of Israel had light in their dwellings."—Exodus 10:23.

God's hand in bringing the plague of darkness at that time can be plainly seen. The Israelites had rest from their tormentors. Also, they had the necessary time to pack up their belongings and get ready for the great trek, the Exodus. There were final instructions to the companies; contact points were assigned. Everything was ready for the final great event, **VINDICATION**, and **DELIVERANCE**. If you have not read them, get the Watch Tower publications bearing these titles and read them, carefully.

The Passover and the Exodus

Refer again to the lunation table published under the subhead "God's Witness and the Exodus"; note moon No. 31081, and see its counterpart in No. 73674 in the Lunation Experience Table and Lunation Chart. This moon came to the full, Jerusalem time, 14 days 21 hours 27 minutes after its astronomical rising, or, in other words, 1:55 N., *Lightday, Redemption 14, Edenic day* No. 917856, *B.R. 1547* (7:55 p.m., Saturday, March 22, 1515 B.C.).

About that time the paschal lamb was and eaten, and its blood was sprinkled upon the door posts and lintels of every home of the Hebrew people. That night the angel of death would perform God's act, His strange act, in the land of Egypt. All the firstborn in Egypt were doomed, "from the firstborn of Pharaoh that sitteth upon his throne, even unto the firstborn of the maidservant that is behind the mill; and all the firstborn of beasts."—Exodus 11:5.

"And it came to pass at midnight, that Jehovah smote all the first-born in the land of Egypt, from the first-born of Pharaoh that sat on his throne unto the first-born of the captive that was in the dungeon; and all the first-born of cattle. And Pharaoh rose up in the night, he, and all his servants, and all the Egyptians; and there was a great cry in Egypt; for there was not a house where there was not one dead. And he called for Moses and Aaron by night, and said, Rise up, get you forth from among my people, both ye and the children of Israel; and

go, serve Jehovah, as ye have said. Take both your flocks and your herds, as ye have said, and be gone; and bless me also. And the Egyptians were urgent upon the people, to send them out of the land in haste; for they said, We are all dead men. And the people took their dough before it was leavened, their kneading-troughs being bound up in their clothes upon their shoulders. And the children of Israel did according to the word of Moses; and they asked of the Egyptians jewels of silver, and jewels of gold, and raiment [back pay for unpaid labor or ransom money by the Egyptians for themselves not all being killed]: and Jehovah gave the people favor in the sight of the Egyptians, so that they let them have what they asked. And they despoiled the Egyptians."—Exodus 12:29-36, *A.R.V.*

It took the cavalcade eighteen hours to get under way. It left the contact point, Rameses, at sundown, the beginning of the next day, *Heavenday, Redemption 15, Edenic day* No. 917857, *God's month* No. 31081, *B.R. 1547, vernal equinox 2513* (Sunday evening, March 23, 1515 B.C.). "And they departed from Rameses in the first month; on the fifteenth day of the first month: on the morrow after the passover." (Numbers 33:3) The pilgrims had good light for their journey. God's 'faithful witness in the heavens' (the moon) was furnishing illumination then, even as it is giving some to the reader now. The moon was at its full, providing, in the clear air of Egypt, ample illumination for night travel.

On the Sinaitic Peninsula

Here and there, in the wanderings of Israel in the Sinaitic peninsula, there is mention, when matters of unusual interest occurred, of the exact time. One of these is recorded in the sixteenth chapter of Exodus, which please see.

God's "second hand" in the heavens assists us in locating the events which took place in the second month after leaving Egypt, the month *Life*, the new moon of which rose at 11:23 D., *Lightday, Edenic day* No. 917871 (5:22 p.m., Sunday, April 6, 1515 B.C.).

The moon in question, No. 31082, has its counterpart in No. 73674. Reference to the lunation experience table shows that this moon spanned 29 days and 1,134 minutes (29 days 18 hours 54 minutes); one half of which is 14 days 21 hours and 27 minutes. Moon No. 31082 came to the full in the daytime, at 8:47 D.,

Heavenday, Life 13, Edenic day No. 917885, God's month 31082 (2:47 p.m., Monday, April 21, 1515 B.C.). The fourteenth day of the month began at sundown of that day; it could not have begun earlier; the moon would not have been at the full. The fifteenth day of that month, therefore, was *Starday, Life 15*, corresponding to Wednesday, April 23.

In the Wilderness of Sin

"And they took their journey from Elim, and all the congregation of the children of Israel came unto the wilderness of Sin, which is between Elim and Sinai, on the fifteenth day of the second month after their departing out of the land of Egypt [arrived at their destination *Starday, Life 15, Edenic day No. 917887, God's month No. 31082, B.R. 1547, vernal equinox No. 2513* (Wednesday, April 23, 1515 B.C.)]."
The first day at this point was no doubt taken up in getting settled, and it seems that a murmuring against Moses and Aaron arose without delay. Probably the very next day a deputation of representative men came to Moses and conveyed to him the sentiments of the people, who said, "Would that we had died by the hand of Jehovah in the land of Egypt, when we sat by the flesh-pots, when we did eat bread to the full; for ye have brought us forth into this wilderness, to kill this whole assembly with hunger."—Exodus 16:1, 3, *A.R.V.*

The Israelites had been on the trek an entire month, and it is probable that the store of food which they had brought with them was about exhausted and the possibility of famine became a depressing shadow, since they apparently forgot to take into consideration all the wonders Jehovah had worked on their behalf. Moses took the matter to Jehovah, who said to Moses, "Behold, I will rain bread from heaven for you; and the people shall go out and gather a day's portion every day, that I may prove them, whether they will walk in my law, or not. And it shall come to pass on the sixth day, that they shall prepare that which they bring in, and it shall be twice as much as they gather daily."—Exodus 16:4, 5, *A.R.V.*

Moses and Aaron returned Jehovah's answer to the people, probably the following day, which was *Mansday, Life 17* (Friday, April 25). They said to the people, "At even, then ye shall know that Jehovah hath brought you out from the land of Egypt; and in the morning [*Godsday, Life 18* (Saturday, April 26)], then ye shall see

the glory of Jehovah; for that he heareth your murmurings against Jehovah: and what are we, that ye murmur against us? And Moses said, This shall be, when Jehovah shall give you in the evening [beginning *Lightday, Life 19*] flesh to eat, and in the morning [of *Lightday*] bread to the full; for that Jehovah heareth your murmurings which ye murmur against him: and what are we? your murmurings are not against us, but against Jehovah."—Exodus 16:6-8, *A.R.V.*

The foregoing is the part of the drama which was enacted in the short time, seemingly about three days, which elapsed between their arrival in the wilderness (which did not look very good to them after the palm trees of Elim) and the day when the Lord was ready to send them the manna. Moses had told the people to be ready for the vision of Jehovah's glory in the morning.

Inauguration of the Sabbath System

"And Moses said unto Aaron [*Godsday, Life 18, Edenic day No. 917890, God's month No. 31082* (Saturday morning, April 26)], Say unto all the congregation of the children of Israel, Come near before Jehovah; for he hath heard your murmurings. And it came to pass, as Aaron spake unto the whole congregation of the children of Israel, that they looked toward the wilderness, and, behold, the glory of Jehovah appeared in the cloud. And Jehovah spake unto Moses, saying, I have heard the murmurings of the children of Israel: speak unto them, saying, At even [beginning of *Lightday, Life 19* (Saturday, April 26)] ye shall eat flesh, and in the morning [of *Lightday* (Sunday, April 27)] ye shall be filled with bread; and ye shall know that I am Jehovah your God."—Exodus 16:9-12, *A.R.V.*

"And it came to pass at even [beginning *Lightday, Life 19*], that the quails came up, and covered the camp; and in the morning [of *Lightday*] the dew lay round about the camp. And when the dew that lay was gone up, behold, upon the face of the wilderness a small round thing, small as the hoar-frost on the ground. And when the children of Israel saw it, they said one to another, What is it? for they knew not what it was. And Moses said unto them, It is the bread which Jehovah hath given you to eat. This is the thing which Jehovah hath commanded. Gather ye of it every man according to his eating; an omer a head, according to the number of your persons, shall ye take it, every man for

them that are in his tent."—Exodus 16:13-16, A.R.V.

"And it came to pass, that on the sixth day [*Mansday, Life 24, Edenic day No. 917896, God's month No. 31082* (Friday, May 2)], they gathered twice as much bread, two omers for each one: and all the rulers of the congregation came and told Moses. And he said unto them, This is that which Jehovah hath spoken, To-morrow [*Godsday*] is a solemn rest, a holy sabbath unto Jehovah: bake that which ye will bake, and boil that which ye will boil; and all that remaineth over lay up for you to be kept until the morning. And they laid it up till the morning, as Moses bade: and it did not become foul, neither was there any worm therein. And Moses said, Eat that to-day; for to-day is a sabbath unto Jehovah [*Godsday, Life 25, Edenic day No. 917897, God's month No. 31082, B.R. 1547, vernal equinox 2513* (Sat., May 3, 1515 B.C.)]."
—Exodus 16:22-25, A.R.V.

"In the Third Month . . . the Same Day"

The next place a day is mentioned in the Scriptures which may now be identified with reasonable accuracy is the day mentioned in Exodus 19:1, where we read: "In the third

month, when the children of Israel were gone forth out of the land of Egypt, the same day came they into the wilderness of Sinai." Inasmuch as there is the plain statement of Scripture already noted that they came out "on the fifteenth day of the first month: on the morrow after the passover", it is taken that "the same day" means the fifteenth day of the third month, in which they arrived at Sinai, *Mansday, Visitation 15, Edenic day No. 917917,* God's month No. 31083, B.R. 1547, vernal equinox 2513* (Friday, May 23, 1515 B.C.). It was the beginning of the ratification of the law covenant, for that same day Moses went up into the mountain for instructions and set before the people the momentous words of Jehovah, "If ye will obey my voice indeed, and keep my covenant, then ye shall be mine own possession from among all peoples: for all the earth is mine: and ye shall be unto me a kingdom of priests, and a holy nation." (Exodus 19:5, 6, A.R.V.) "And all the people answered together, and said, All that Jehovah hath spoken we will do. And Moses reported the words of the people unto Jehovah."
—Exodus 19:8, A.R.V.

The people were told to sanctify themselves and to wash their clothes to be ready for the

* This day, Visitation 15, when Israel camped at the base of the mount of God momentarily waiting until He should reveal himself; was a most unusual day. Manifestly it stands for or represents THE DAY OF JEHOVAH, just preceding God's great revelation of himself at Armageddon. See the account in Hebrews 12, "For ye are not come unto the mount . . . but ye are come unto mount Zion . . .," and consider how true it is that Jehovah was then visiting His typical people as He is in this day of visitation. Consider now the number of this Edenic day, 917,917. The 9 and 1 may be grouped together in a rearrangement of the digits thus:

7
10 10
7

The number 10 is symbolic of perfection toward earth as 7 is symbolic of perfection heavenly. Divisible by 7, this number, 917,917, seems to point to Jehovah God, the Head. "The head of Christ is God."—1 Corinthians 11:3.

Accepting the whole number as representing "God the Judge of all", notice now that one of the factors is 7007. The number 1000 is composed of 10×10×10; so the number 7007 may be thought of as follows:

7
10 10 10
7

This is the same as the other grouping of digits, except that there is one more 10 enclosed within the other figures. "No man hath seen God at any time; the only begotten Son, which is in the bosom of the Father, he hath declared him." (John 1:18) So, besides coming to God the Judge of All, the arrival at the mount of God is also a coming "to Jesus the mediator of the new covenant".—Hebrews 12:24.

It further appears that the number 1001 is a factor of the original number. This number may be set down in this manner:

1
1000

"One . . . among a thousand have I found."—Ecclesiastes 7:28.

Most remarkable of all, one of the factors of the original number is 131,131. Rearrange the digits, adding 3 and 1 together to make 4 (as the 9 and 1 were added together to make 10), and the rearrangement becomes, by easy stages:

140,140, then 144,001, then $\frac{1}{144,000}$

"And I looked, and, lo, a Lamb stood on the mount Zion, and with him an hundred forty and four thousand, having his Father's name written in their foreheads."—Revelation 14:1.

The prime factors of 917,917 are 7×7×11×13×131.

third day, when God himself would speak to them. "And it came to pass on the third day [*Lightday, Visitment 17, Edenic day No. 917919* (Sunday, May 25)], when it was morning, that there were thunders and lightnings, and a thick cloud upon the mount, and the voice of a trumpet exceeding loud; and all the people that were in the camp trembled. And Moses brought forth the people out of the camp to meet God; and they stood at the nether part of the mount. And mount Sinai, the whole of it, smoked, because Jehovah descended upon it in fire; and the smoke thereof ascended as the smoke of a furnace, and the whole mount quaked greatly. And when the voice of the trumpet waxed louder and louder, Moses spake, and God answered him by a voice." (Exodus 19: 16-19, *A.R.V.*) The ten commandments were then given, "and the people stood afar off, and Moses drew near unto the thick darkness where God was" (Exodus 20: 21, *A.R.V.*) and received supplementary instructions.

"And Moses came and told the people all the words of Jehovah, and all the ordinances: and all the people answered with one voice, and said, All the words which Jehovah hath spoken will we do. And Moses wrote all the words of Jehovah, and rose up early in the morning [*Heaven-day, Visitment 18, Edenic day No. 917920, God's month No. 31083* (Monday, May 26)], and builded an altar under the mount, and twelve pillars, according to the twelve tribes of Israel." —Exod 24: 3, 4, *A.R.V.*

Forty Days in the Mountain

"And Jehovah said unto Moses, Come up to me into the mount, and be there: and I will give thee the tables of stone, and the law and the commandment, which I have written, that thou mayest teach them. And Moses entered into the midst of the cloud, and went up into the mount: and Moses was in the mount forty days and forty nights." (Exodus 24: 12, 18, *A.R.V.*) The summoning of Moses away from the elders, where they all "did eat and drink" in the presence of God (Exodus 24: 11), began after the glory of Jehovah had covered Mount Sinai for six days. (Exodus 24: 16) The first day of this glory was *Visitment 17* (Sunday, May 25); the sixth day of it was *Mansday, Visitment 23, Edenic day No. 917924, God's month No. 31083* (Friday, May 30). The day when Moses went into the midst of the cloud was *Godsday, Visit-*

ment 23 (Saturday, May 31); the day when he came down out of the mount and found Israel worshipping the golden calf was *Lifeday, Vindication 4, Edenic day No. 917965, God's month No. 31085, B.R. 1547, vernal equinox No. 2513* (Thursday, July 10, 1515 B.C.).

"Then Moses stood in the gate of the camp, and said, Whoso is on Jehovah's side, let him come unto me. And all the sons of Levi gathered themselves together unto him. And he said unto them, Thus saith Jehovah, the God of Israel, Put ye every man his sword upon his thigh, and go to and fro from gate to gate throughout the camp, and slay every man his brother, and every man his companion, and every man his neighbor. And the sons of Levi did according to the word of Moses: and there fell of the people that day about three thousand men. And Moses said, Consecrate yourselves to-day to Jehovah, yea, every man against his son, and against his brother; that he may bestow upon you a blessing this day. And it came to pass on the morrow [*Mansday, Vindication 5, Edenic day No. 917966* (Friday, July 11)], that Moses said unto the people, Ye have sinned a great sin: and now I will go up unto Jehovah; peradventure I shall make atonement for your sins. And Moses returned unto Jehovah, and said, Oh, this people have sinned a great sin, and have made them gods of gold. Yet now, if thou wilt forgive their sin—; and if not, blot me, I pray thee, out of thy book which thou hast written." (Exodus 32: 26-32, *A.R.V.*) Moses' great act of intercession took place on the same day of the week on which Jesus died, the great Mediator between God and man: This striking correspondency appears clearly to prove the exactness of these figures.

Setting Up the Tabernacle

The tabernacle was set up (Exodus 40: 2) "on the first day of the first month" of the second year after coming out of Egypt. Moon No. 31094 rose 1:04 N., *Mansday, Edenic day No. 918225* (7:04 p.m., Thursday, March 26, 1514 B.C.). It was first visible about twenty-four hours later, and the first day of the month Redemption began with the evening of the next day; so that the tabernacle was set up on *Lightday, Edenic day No. 918227, God's month 31094, B.R. 1546, vernal equinox No. 2514* (Sunday, March 29). Had it been reared a day earlier the labor on the sabbath day would have been a stumbling block to some.—Exodus 40: 18.

"And they kept the passover on the fourteenth day of the first month, at even, in the wilderness of Sinai." (Numbers 9:5) Was it not superbly arranged by Jehovah God that this first memorial, which meant so much to the Jews, came on their sabbath day? The passover was kept on *Godsday, Redemption 14, Edenic day No. 918240** (after sundown Friday night, April 10, 1514 B.C.). One can see an appropriateness, also, in the sabbath's beginning the evening before the daylight period of the rest day arrived.

The census was taken "on the first day of the second month, in the second year after they were come out of the land of Egypt" (Numbers 1:1), moon No. 31095, which rose on *Godsday, at 6:16 D. (12:16 p.m., Saturday, April 25, 1514 B.C.)*, but was probably not seen until the next night. The month began at sundown about 54 hours after the astronomical rising. The census, therefore, was on *Earthday, Life 1* (Tuesday, April 28).

"And it came to pass on the twentieth day of the second month, in the second year [*Lightday, Life 20* (Sunday, May 17)], that the cloud was taken up from off the tabernacle of the testimony. And the children of Israel took their journeys out of the wilderness of Sinai; and the cloud rested in the wilderness of Paran." (Numbers 10:11, 12) A good day to start on a long journey, the day after the sabbath of rest.

After Forty Years of Wandering

There are no more days located by the second hand in the timepiece of God until after the forty years of wandering were nearly at an end. "And Aaron the priest went up into mount Hor at the commandment of Jehovah, and died there, in the fortieth year after the children of Israel were come out of the land of Egypt, in the fifth month, on the first day of the month. And Aaron was a hundred and twenty and three years old when he died in mount Hor." (Numbers 33:38, *A.R.V.*) He died on *Mansday, Vindication 1, Edenic day No. 932225, week No. 133175, God's month No. 31568, B.R. 1508, vernal equinox No. 2552* (Friday, July 26, 1476 B.C.).

Moses survived his brother by seven months and eight days. In thirty-five days he wrote the book of Deuteronomy, and delivered his final exhortation to those for whom, in the providence of God, he had acted as mediator. "And it came to pass in the fortieth year, in the eleventh month, on the first day of the month, that Moses

spake unto the children of Israel, according unto all that Jehovah had given him in commandment unto them." (Deuteronomy 1:3, *A.R.V.*) That was on *Lightday, Edenic day No. 932402, God's month No. 31574* (Sunday, January 19, 1475 B.C.).

"And Moses went and spake these words unto all Israel. And he said unto them, I am a hundred and twenty years old this day; I can no more go out and come in: and Jehovah hath said unto me, Thou shalt not go over this Jordan." (Moses evidently died on his birthday, *Lightday, Temple 8, B.R. 1508, Edenic day No. 932437, God's month No. 31575* [Sunday, February 23, 1475 B.C.]) "And Jehovah said unto Moses, Behold, thy days approach that thou must die." (Deuteronomy 31:1, 2, 14, *A.R.V.*) "And Moses went up from the plains of Moab unto mount Nebo, to the top of Pisgah, that is over against Jericho. And Jehovah showed him all the land of Gilead, unto Dan, and all Naphtali, and the land of Ephraim and Manasseh, and all the land of Judah, unto the hinder sea, and the South, and the Plain of the valley of Jericho the city of palm-trees, unto Zoar: And Jehovah said unto him, This is the land which I swore unto Abraham, unto Isaac, and unto Jacob, saying, I will give it unto thy seed: I have caused thee to see it with thine eyes, but thou shalt not go over thither. So Moses the servant of Jehovah died there in the land of Moab, according to the word of Jehovah. And he buried him in the valley in the land of Moab, over against Beth-peor: but no man knoweth of his sepulchre unto this day. And Moses was a hundred and twenty years old when he died: his eye was not dim, nor his natural force abated. And the children of Israel wept for Moses in the plains of Moab thirty days." (Deuteronomy 34:1-8, *A.R.V.*) The mourning began on the day of his death, and ended on *Earthday, Redemption 7, Edenic day No. 932467, God's month No. 31576, B.R. 1507, vernal equinox No. 2553* (Tuesday, March 25, 1475 B.C.).

rance into Canaan

"Now it came to pass after the death of Moses the servant of Jehovah, that ... Joshua commanded the ... people, saying, Prepare you victuals; for within three days ye are to pass over this Jordan ... And the people came up out of the Jordan on the tenth day of the first

* The factors are interesting: 2x2x2x2x2x3x5x1913.

month [*Mansday, Redemption 10, Edenic day No. 932470, week No. 133210, God's month No. 31576 (Friday, March 28, 1475 B.C.)*].—*Joshua 1: 1, 11; 4: 19, A.R.V.*

"And the children of Israel encamped in Gilgal, and kept the passover on the fourteenth day of the month, at even, in the plains of Jericho [after sundown, at the early beginning of *Earth-day, Redemption 14, Edenic day No. 932474, God's month No. 31576 (Monday evening, March 31, 1475 B.C.)*]." (*Joshua 5: 10*) The new life of Israel in Canaan's "fair and happy land" was begun just 1,507 solar years before the day of Ransom, and 3,392 solar years before April 1, 1918.

Division of the Land

One can only roughly estimate the time when the spies returned from spying out the land of Canaan, in the second year after leaving Egypt. A chronology built on such a foundation would be somewhat shaky. Sinai was left on the twentieth day of the second month. (*Numbers 10: 11*) In three days Israel was complaining. (*Numbers 10: 33*) Then followed thirty full days of gorging themselves with quail. (*Numbers 11*) Miriam's leprosy detained the march seven days. (*Numbers 12*) The 110-mile journey to Kadesh-barnea is estimated to have taken eleven days, but there is no record: it may have taken more, but would hardly have taken less. The spies were gone forty days. Total days from the beginning of that year, about 140. The time indicated for the return is not earlier than *Gods-day, Vindication 22 (Saturday, July 18)*. On their return journey the spies brought pomegranates and figs, probably ripe, and one cluster of grapes, probably nearly ripe, so large that it took two men to carry it. In Palestine figs are ripe from the end of June on. In the valley of Eschol grapes even now grow as large as plums. The time of fully ripe vintage is September. A reasonable estimate, on the basis of these known facts, would be that the spies set out on their forty-day journey into Canaan about the time of the summer solstice, say *Lightday, Freedom 17 (Sunday, June 21)*. By this admittedly circuitous and relatively inexact method (but the best possible under the circumstances) the date last named is here put forth as the birthday of Caleb. It may have been earlier by several months; it could hardly have been later. **The division of the land, therefore, was at some**

time in the spring of the year, as appears from the following scripture:

"As Jehovah commanded Moses, so the children of Israel did; and they divided the land. **Then the children of Judah drew nigh unto Joshua in Gilgal: and Caleb the son of Jephunneh the Kenizzite said unto him, Thou knowest the thing that Jehovah spake unto Moses the man of God concerning me and concerning thee in Kadesh-barnea. Forty years old [but maybe 40½, though counted as 40] was I when Moses the servant of Jehovah sent me from Kadesh-barnea to spy out the land; and I brought him word again as it was in my heart. Nevertheless my brethren that went up with me made the heart of the people melt; but I wholly followed Jehovah my God. And Moses sware on that day, saying, Surely the land whereon thy foot hath trodden shall be an inheritance to thee and to thy children for ever, because thou hast wholly followed Jehovah my God. And now, behold, Jehovah hath kept me alive, as he spake, these forty and five years, from the time Jehovah spake this word unto Moses, while Israel walked in the wilderness: and now, lo, I am this day fourscore and five years old.**"—*Joshua 14: 5-10, A.R.V.*

It has been pointed out that it was 450½ years from the birth of Isaac, in the fall of the year 1952 B.R. (1920 B.C.), to the time of the division of the land among the twelve tribes of Israel, in the spring of the year 1501 B.R. (1469 B.C.), at which time, as above shown, the division of the land occurred.

The Scriptures describe this period of time as "about 450 years". (See *Acts 13: 17-20, Rotherham, Weymouth, and American Revised Version.*)

From the Exodus to the Temple

Everything in the Scriptures is written with direct reference to the erection of the temple of God and the subsequent vindication of His name. **The exodus was associated with one grand picture of the coming vindication: the building of Solomon's temple was a picture of the true temple, through which Jehovah vindicates His name and which is of God's building, not of man's. In His Word Jehovah God has been pleased to join together these two pictures, and to make them an integral and necessary part of the divine record. Note the care with which the connection is made, enabling one now**

Suppressing Truth

A five-minute talk

(Part 1)

by Judge Rutherford

FREEDOM of conscience and speech is dear to the hearts of true men. Today there is an organized movement to deprive the people of such rights and to suppress the truth. The Roman Catholic hierarchy is the prime mover in this endeavor to suppress the truth. Many persons have unwittingly fallen into the deceptive trap of that organization.

Early in 1934 two and one-half million American citizens petitioned Congress to take the necessary steps to protect the rights of the people in freedom of speech by radio. Congress then enacted a law creating the Federal Communications Commission and commanded that Commission to take testimony concerning the use of the radio and to report to Congress. In obedience to that mandate testimony was taken, and the testimony of the two great radio corporations of America disclosed that they control most of the radio facilities; that they permit only clergymen of the Catholic, Protestant and Jewish organizations to broadcast matters of religion, and that they refuse to Jehovah's witnesses the use of their facilities to broadcast the Bible truths, on the ground that such programs by Jehovah's witnesses "hold up to ridicule the doctrines of the churches and shock the religious susceptibilities of those who are opposed to Jehovah's witnesses". The chief witnesses for said radio corporations are sons of clergymen. Catholic priests and other clergymen testified, and all of them agreed that Jehovah's witnesses should not be permitted to use the radio for broadcasting programs to the people.

Testimony was offered by Jehovah's witnesses showing that they have no controversy with men; that their only purpose is to call to the attention of the people the plain truths of God's Word, which it is essential for the people to know; that not one of their programs has ever attacked any individual; and that they broadcast only the truth as found in God's Word, the Bible, which truth necessarily exposes erroneous doctrines. The testimony of Jehovah's witnesses, fully supported by the Bible, shows that the Devil at all times has tried to prevent the people from hearing the truth and that it is the Devil who blinds men to the truth of God's Word and attempts to wholly suppress the truth, and

that the Devil uses selfish men to accomplish his wrongful purpose.

America has always claimed to be a Christian nation; which means that the nation acknowledges Christ Jesus the Son of God as the great Teacher, and that the Word of God is supreme. The radio law provides that programs broadcast should be of public interest, convenience and necessity. These words, as defined by the Bible, mean that such programs should be of value to the people, that is, for their upbuilding in righteousness, and which will serve the best interest of mankind. It is written, at 2 Timothy, that every scripture inspired of God is profitable for the instruction of men in the way of righteousness. The programs broadcast by Jehovah's witnesses, therefore, are the only ones that strictly comply with the law as written, because they broadcast the Bible truths, and the Bible truths make known that which is for the best interest of mankind.

The testimony before the Federal Commission disclosed that the Roman Catholic hierarchy, by the use of threats, of boycotting, and other means of coercion, is attempting to prevent radio stations from broadcasting programs of Jehovah's witnesses because these programs make known God's truth. Since the Scriptures show that Satan is the great opponent of truth, the question is now placed squarely before the people: Whom does the Catholic hierarchy represent, God or the Devil? The opposition of that organization to the truth shows that it represents the Devil. Now, shall the people take the side of the Devil, or shall they take the side of God's Word of truth? Shall the people be permitted to hear the truth, as stated in the Bible and as broadcast by Jehovah's witnesses, and each person decide for himself what he wants to believe, or shall a few selfish men be permitted to constitute themselves the censors of public programs and thus prevent the people from hearing what they really need to hear? Shall freedom of speech continue in America, or shall it be suppressed?

Public officials are sworn to safeguard the general welfare of the people. In violation of that oath many officials in America now conspire with a foreign power to control the radio facilities and limit the use of the same to selfish in-

terests. This they do in order to suppress the truth and keep the people in the dark concerning the kingdom of God which Jehovah's witnesses

now proclaim to the people. Let the people take courage; for the truth is from Jehovah, and the truth shall prevail.

[The foregoing short talk by Judge Rutherford is one of 36 obtainable in the form of phonograph records which may be run on an ordinary phonograph. The wide demand for these talks indicates a desire on the part of the people to know more about the important truths now due to be understood, as well as an effort

to pass on these comforting truths to others. The records are made by the Watch Tower Bible & Tract Society (Brooklyn, N. Y.) and are designed to aid those who, having been blessed by the truth, wish to pass it on to others. Inquiries regarding these records should be sent to the Society, not to The Golden Age.

Making America Catholic

THERE are two kinds of Italians, the decent ones and the other brand. The Roman Catholic hierarchy is made up of the grasping type of Italian and is a dominantly Italian institution. In the "College of Cardinals", which is called "The Senate of the Roman Church", there are 26 Italian representatives, while other countries are represented as follows: France 6, United States 4, Germany 3, Spain 3, Austria 2, Poland 2, and England, Belgium, Hungary, Portugal, Ireland, Brazil, and Canada, 1 each. Clever, isn't it? How would the United States Senate be likely to work if one state had as many representatives as all the other states combined?

Theodore Roosevelt had it right when he said, "The Catholic church is not an American institution." And that it isn't. It isn't anything but an Italian institution, and is far from being a credit to the Italian people. The more of it there is imported into the United States, the worse for that hitherto favored land. But the Hierarchy has set out to "make America Catholic" by hook and by crook. They have a system of hooking every key position in American politics on which they can lay their hands. This accounts in considerable measure for the crookedness which is commonly associated with American politics. The Hierarchy cannot work as freely as it does in more Catholic countries, and so has recourse to all kinds of chicanery.

To see what happens when the Italian religious racketeers exercise a dominating influence, just glance at South America and compare it with North America. In countries where they have had the longest experience with this sneaking and treacherous system the real statesmen will have the least to do with it and its agents. In such countries this religious (!) organization does not hesitate to encourage violence, bloodshed and revolution. Its activities in less

Catholic countries are moderated as "prudence" may require. Hence, in seeking to "make America Catholic" the papal emissaries proceed with some caution and much diplomacy.

Many American politicians are of either the "innocent" or ignorant type, who seem never to have read history, or who, having read history, are so utterly beguiled by the charms (?) of papal diplomacy that they fatuously think of it as other than it was in those days of the stake, the rack and the dungeon vault. So at least appearances indicate, for these same statesmen (?), instead of holding the papacy properly in check, are induced, or seduced, to co-operate in its schemes to "make America Catholic".

Censorship and boycott are favorite weapons of the Hierarchy. To suppress the truth is all-important. It has to proceed with caution, but must accomplish its ends. The effort to censor the movies, not to speak of the radio and the press, is disguised as a step in the direction of decency. But how does the papal crowd propose to raise the morals of the people? Not by instruction in and proper inducements to righteousness. Oh, no. Rather, it would favor a censorship board which would have at least *one* Catholic representative; but the more, the merrier, for the Hierarchy. Then would not only "indecent" pictures be eliminated, but a fine opportunity afforded the papal system to exclude all pictures that cast even slight reflection on its operations. Such pictures could very nicely be classed as "likely to offend religious susceptibilities".

Various and devious are the ways of the papacy, but if there is one thing that will bring it out into the open with vituperation it is a frank criticism of its schemes and methods, or even the appearance of such criticism. It was so in Minnesota, where, in the senate, somebody evidently had his religious susceptibilities ter-

ribly hurt when a number of citizens left on the desk of each of the senators a copy of the booklet *Truth: Shall It Be Suppressed?* The St. Paul Dispatch made mention of this distribution and the reaction of Senator Charles Hausler to the question. It appears that he immediately and loudly voted "Yes" in answer to that question, even before a vote was called for. He just couldn't hold himself back, and worked his religious sensibilities overtime in his demand that henceforth and forever the truth should be suppressed in the Minnesota senate chamber. Said Hausler, "Never, until yesterday, have we ever had to submit to ridicule because we were either Catholic, Protestant or Jew. It is an *insult* to every intelligent American." That word "insult" is characteristic of agents of the Catholic hierarchy. Just let anybody appeal to truth and righteousness as against the tactics of the unscrupulous Catholic political system (for such it is), and immediately he has "insulted" somebody or hurt somebody's religious sensibilities.

Hausler was pleased to refer to the contents of the booklet as "dirty". Everything that shows up the Hierarchy in its true colors is "dirty". This may be acceded with the thought in mind that reference to an unchaste lady by that Scriptural one-syllable word so carefully avoided by the clergy is considered "dirty" language. But truth is never dirty, not even when it is compelled to deal with dirty subjects. Hausler wanted the rules committee to "see that this kind of literature is not passed to our desks so we don't have to swallow this dirty literature". No doubt, he was especially anxious that the booklet should not be placed on the desks of the other senators. As for his own desk, he could put up a sign, "No truth wanted here." Or perhaps his objection was based on the fact that the booklet was not written in Latin. When one writes in Latin one can be as dirty as one wishes. Witness the book that deals with questions which priests may address to females in the confessional. The book would not be printable in English, but the priests do ask the questions in English. The booklet left with the Minnesota senators was different. It sets forth important facts, showing the tactics of the Hierarchy in its efforts to carry out the plan to "make America Catholic".

Another senator, Charles Orr, chairman of the rules committee, feeling he had to say something, said that the booklets were "sneaked" into the chamber, but that in the future safe-

guards would be made against a recurrence. Perhaps so. But does papal politics imagine it can hold back the floodwaters of truth which will sweep away the refuge of lies? That the booklet was not "sneaked" into the chamber is evident from the following letter which appeared in the St. Paul Daily News, and which makes a few other important points as well.

KNOCKS AND BOOSTS

* * * *

RAPS STATE SENATORS

Editor, *Daily News*: In the *Daily News*, January 15, attention is called to an "objection" being made by Sen. Charles Hausler over the distribution among the senate members of pamphlets entitled *Truth—Shall It Be Suppressed?* I am writing to Sens. Hausler and Orr in this mail and enclosing you a copy of my letter to them. Inasmuch as this matter was called to the attention of the public in your paper, will you not also publish my letter enclosed, a reply to their statements made on the senate floor on January 15, 1935. The letter follows:

In a recent issue of the public press I note what you had to say from the floor of the senate concerning distribution in the senate of a booklet entitled *Truth*, and referred to the same as "dirty politics", and further the statement that this booklet was "sneaked into the senate". Both of you gentlemen are in error, and I am addressing you thus in order to set you right as to facts.

I am a resident taxpaying citizen of St. Paul for more than 30 years. I shared in the distribution of those booklets in the senate, and others shared in the distribution of the same booklet in the house of representatives. I did not sneak into the senate, but walked in, as I had a right to do. I had been informed that the senate convened at 2 p.m. on the 10th. When I reached the senate chamber I learned the senate was not in session. Hence I walked in and placed the booklets on the desks of the senators.

Had you read the booklet you would have seen that it contains information important to the people. The major portion of it is quotation from the official record of the Federal Communications Commission at Washington, which testimony is now before Congress. As a senator of this state you should be informed about that matter, and in bringing this to the attention of the senators I was doing my duty, and was certainly clearly within my rights and not subject to any such criticism as you gentlemen have placed upon me.

You seem to think that senators are bosses of the people, instead of servants of the people, as in fact they should be. Apparently you hold to the theory that senators are entitled to special privileges that other citizens are not. The capital building does not belong to you. The taxpayers paid for it, and I have always understood that every citizen had a right to go into it on legitimate business, and it is legitimate to call the attention of public servants to matters of public interest.

Again you are wrong when you say that you have had to submit to ridicule because of your religion. That is worse than foolish. The facts show that certain religionists are attempting to take undue advantage of the American people, and surely no religionist, regardless of the religion he represents, has this right. There is a desperate effort being made by certain religious organizations to suppress the truth in America and take away from the people liberty of speech and press. Are you in favor of such action? If so, then surely you are not representing the interests of the people from your senatorial district.

When did the senate chamber become such an exclusive place that a taxpaying citizen cannot enter it without first having the approval of that body? The sooner the people of this city know that citizens have to have an O.K. from a senator in order to enter a public place, the better it will be for them, and they will doubtless elect a class of men who will accord to citizens their just rights and privileges without vigorously and unrighteously denouncing them.

—H. B. MORRISON.

In writing this straightforward but dignified letter to those who should be the servants of the people (not their papacy-controlled bosses) H. B. Morrison was instrumental in rendering a great service to the liberty-loving people of Minnesota. In answering Hausler's papal-senatorial outburst he made it clear to the unprejudiced members of the senate that an effort was being made to browbeat them into refusing to consider a booklet which contained information of vital importance. This booklet was gladly received by the United States Senate and House of Representatives. Every state legislature in America likewise received copies. It remains only for the arrogant, oppressive, self-opinionated, self-important Catholic agents to denounce American citizens for exercising their just rights.

It would appear that the Catholic hierarchy is not functioning so well in liberty-loving Minnesota. It would have been more in line with Catholic tactics to sneak around and quietly suppress any mention of the booklet. Perhaps the *St. Paul Daily News* and the *St. Paul Dispatch* are among the few papers that do not have Catholic "contact men" suppressing items of information which do not please the Roman hierarchy, and which would interfere with its effort to "make America Catholic".

Note how friend Morrison went after them for the statement that the booklets were "sneaked" into the senate chamber. Americans do not have to sneak around in making known the truth. Much less do Jehovah's witnesses, who are children of the Most High, feel any need of doing anything in a sneaking way. On the contrary, it is the Catholics who sneakingly worm their way into public office and utilize such positions for private grab and religious (?) ends.

Jehovah's witnesses and other publishers of the truth do not have to sneak, for they have nothing of which they have need to be ashamed. They are not trying to put anything over on the people, as the Catholic hierarchy is doing. All they want to do is to present the truth, and both sides of the truth. It is for this reason that more than two million petitioners requested Congress

to arrange for proper publicity of *all* the testimony presented before the Federal Communications Commission, dealing with the efforts of the Catholic hierarchy to suppress the truth. **The Hierarchy works in the dark, and does not want its activities to be made known.** Those who love the truth, and that includes Jehovah's witnesses, do not play a seductively "sweet" tune, but tell the truth in a straightforward manner, not putting on the soft pedal when certain unpopular references to the Word of God are necessary. The trumpet must not give an uncertain sound. The whole counsel of God must be made known, and will be made known.

Satan's opposition to Jehovah's servants and his efforts to destroy them, as well as his determination to keep the people under his control, are variously pictured in God's Word. There is Haman and his scheme to destroy the people of God. He pictures those who have strong "religious susceptibilities", for personal reasons; the crowd that is now trying to choke the truth and to finish those who proclaim it. But Haman, and all who unite with him, will get it in the neck. It is the fifty-cubit gallows for them. How many American statesmen will be found on the Devil's side? How many Minnesota senators favor the return of the Inquisition and its establishment in that state? All who do may so signify by throwing the booklet *Truth* into the wastebasket.

Pharaoh and his officers tried to bring back into captivity those who had just gained their freedom. At the Red sea these oppressors presumptuously followed the Israelites into the divinely provided channel, only to have its fluid walls collapse and engulf them. Likewise the Catholic and like religious officers of Satan, together with their allies, will be overwhelmed by the collapse of the elements through which they seek to make their way in their unrighteous determination to bring back into bondage those who are marching to freedom.

Jehovah's witnesses, like Daniel among the satraps of Babylon, are in a tight place, humanly speaking. They may have to spend a night in the "lions' den", but they will come out all right. The satraps, picturing the rulers of "Christendom" among whom the Catholic hierarchy seeks to take the lead, smiled up their capacious sleeves, so convenient for carrying off booty. They thought they had Daniel where they wanted him. But up came Daniel, and down they went. Their stay in the den of lions was

short-lived, but a good time was had by all—the lions. Will the Catholic clergy take a lesson from this? They will not. They will keep right on trying to “make America Catholic”.

And finally, remember Jezebel. Age is beauty and gray hair a crown of glory in the way of righteousness. Jezebel's old age was not such. Neither is the old age of “Organized Christianity” anything to be admired. Grown old and out of date, but still ambitious as Jezebel, “Organized Christianity” is dolling herself up and parading her charms (?). But the painted face and the finery will not make any impression on the Greater Jehu. His chariot, drawn by its impetuous horses, is already at the entering in of the gates. It won't be long now until He will

draw up at the window of Jezebel's tower and those who have been more or less associated with the old “unchaste lady”, but unwillingly so, will pitch her out of the window. The hoofs of Jehu's horses will reduce her to dog-feed. This is not jesting. “Christendom” has made herself ridiculous, and a look at her would make one laugh were it not for the whoredoms and “enchantments” with which she has defamed the name of Jehovah, the Most High. If anyone feels that his “religious beliefs” are made ridiculous by examination of them in the light of the Word of God, and if he is determined to prevent such examination or suppress the findings, he will meet his finish as did the foregoing notorious examples.

Among the Lovers of Jehovah God

Splendid Testimony in Her Will

IN HER will bequeathing \$100 to the Watch Tower Bible & Tract Society, which will be published in the *Daily Kennebec Journal*, of Augusta, Maine, Miss Myrtie E. Taylor explained that the bequest was “in appreciation of the outstanding work it is doing, the only religious organization during my whole life's experience that has brought to me a comforting, reasonable and satisfactory understanding of the meaning of life, and faith, and trust in the one supreme being, Jehovah God, to whom all honor is due”.

Sent to Jail for Quoting Bible

ERICH SCHAUER, 25, of Halle, Germany, was sentenced to six months' imprisonment because he called his sweetheart's attention to the Scriptural assurance that the Kingdom of God and Christ will replace all the governments of the world, which, of course, includes the Nazi government.

Satisfied

“SEVERAL times I had the kind visit of a missionary lady from whom I had procured the book *Prophecy* and three booklets. All these books, which rejoice my heart, have been read and reread several times; for I believe they are the truth, and I pray ardently that this good reign of justice may arrive as quickly as possible.”—P., *Dijon*.

No Longer the Houses of God

“I HAVE for many years said and told other folks that churches were no longer the houses of God, but were nothing more than big business, corrupt politics and whatnot, operating behind the cloak of religion and using God's intended house of worship to do so. I have a copy of your book *Crisis*, and enjoyed reading it; I also enjoy all your radio talks, as all you say and speak is the truth and nothing but the truth.”—H. A. W., *California*.

Started Reading the Bible

“I WANT to thank you for the good you have done me. It was through listening to you over the radio that I started reading the Bible. All church members I know think there is a ‘hell’ where the wicked will be tormented for ever. I would like your copy of ‘Universal War’ to give one of my church neighbors. They come here and try to get us to go to church, and they are not satisfied with what they get at church either.”—Mrs. L. S. R., *Kansas*.

“How Grateful I Am”

“I LISTENED to the lecture ‘Universal War Near’, given by Judge Rutherford Sunday, January 13, and I can't find words to express my surprise. I didn't know that such words could fall from the lips of mortal man. It filled my heart with joy, and I want to tell you how grateful I am.”—Mrs. C. McK., *Oklahoma*.

Among the Larger Racketeers

The Mortgage Racket

MORELAND Commissioner Geo. W. Alger, in a report to the governor of New York state, shows that the laws under which the mortgage certificate business developed into a racket were not framed for the benefit of the public. He said, in part:

"The law applicable to these companies was always hopelessly inadequate to protect the public.

"As the companies became stronger through the years such meager protection as was contained in the law was gradually whittled away.

"Such sporadic efforts as were made from time to time to strengthen the law were defeated.

"The companies were represented at Albany when legislation affecting them was proposed. . . .

"Various examiners of these companies reported from time to time activities of a given company which ranged from those which were inadvisable to those which involved actual fraud.

"The reports were filed, and that, following what seems to have been the practice of the Department for many years, was the end of the matter. . . .

"A large part of the investors were poor individuals or persons of modest means who sought safe, rather than speculative, investments and relied upon the fact that the mortgage business was under supervision of the State Department of Insurance."

Utilities Propaganda

THE Federal Power Commission has issued a statement that gas and electric companies expend vast sums of money to influence public opinion in favor of privately owned utilities. They even went so far as to bestow attention "upon educators and educational institutions. . . . No means of presenting the utility story to all schools was overlooked, even the kindergarten being provided with a specially published picture book, *The Ohm Queen*, of which the record shows over 400,000 printed and distributed. The very textbooks in the classrooms were carefully surveyed in all schools in many of the states and definite steps taken to eliminate those considered unfavorable and to have them replaced by others written by utility men or by professors receiving retainers from the industry. . . . Most of the utility advertising, in addition to its ordinary advertising value, has part of its return in the creation of good will with the newspaper fraternity. Such good will frequently opens the newspaper columns to matter, both editorials and news, that clearly falls under the head of propaganda".

Advantages of Telegraph Merger

THE advantages of the proposed telegraph merger were variously set forth by various telegraph officials. A Western Union official said that his company could take over all the Postal Telegraph business without adding a man to the staff, while a Postal Telegraph official said that all the Postal employees would be taken care of. The way they would be taken care of would be to be put on the public relief rolls. The net result would be that the Western Union employees would all have more work to do and the big financiers back of the merger would make more money.

Seven Dollars a Day for Teamsters

IN EXPLANATION of the threatened strike of union teamsters, liable to tie up the port of New York, it was explained that though their nominal wages are seven dollars per day, they work only two or three days per week, and that if open shop arrangements go into effect wages will be cut in half and days of work also cut in half, presenting an insurmountable problem for those who have families to support.

United States International Trade

DURING the first half of 1934 United States exports exceeded imports by \$173,000,000. During the same period there was an inflow of \$920,000,000 in gold and \$30,000,000 in paper currency. International trade and financial transactions showed the most favorable balance in several years. Exports to foreign lands were \$1,036,000,000; imports, \$863,000,000.

The 36,000 Go-Getters

IN THE year 1929 the 36,000 American families with the greatest incomes received as much as the 11,000,000 families with the least income. Just which crowd will seek to rectify matters by plowing a portion of the other crowd under has not yet been settled, but a new solution of the problem is being found every day, and prosperity is just around the corner.

Better Times for the Big

THINGS seem to be going a bit better for the big fellows. In the year 1934, 418 leading corporations made profits of \$911,000,000, a gain of 50 percent over 1933. Meantime wages of employees rose 6.7 percent, food prices went up 11.3 percent, and clothing, 15.3 percent.

U. S. A. Matters Governmental

New Deal Not for Oklahoma Indians

THE New Deal isn't benefiting the Indians in Oklahoma. John Collier, Indian commissioner of the United States, said that these Indians were suffering cruel and devastating wrongs. He said, "Oklahoma interests were strong enough to persuade Congress to exclude the Oklahoma Indians from the protections and benefits of President Roosevelt's legislation." He also stated that "those members of the tribes who still possess anything have been put under the control of 'guardians', appointed by the courts, who, in numerous cases, almost literally have 'eaten them alive'".

But the Osage Indians of Oklahoma do not seem to be faring so badly. Perhaps they do not have "all things common", but they do hold their land in common, and it happens to be oil-land. Consequently, every gentleman Osage, every lady Osage and every little Osage in Oklahoma has an income ten times greater than the average Oklahoma farmer. Before the 1929 crash the per capita wealth of these Indians, big and little, was \$36,000, and while it is less today by a good deal, they still have enough to buy themselves limousines or tin lizzies according to their individual tastes. Other Oklahoma Indians, who have not been having their land in common, are as poor as the average white man, and that is poor enough even in these days of the pope's New Deal. This year, or rather, last year, the Osage nation got a total of \$1,065,650 out of their oil leases, which, it must be admitted, isn't half bad for an Osage nation, and, divided among the headright holders of the tribe, of whom there are something over 2,000, it seems sufficient to keep the wolf from the door a little longer.

New War Tank

WASHINGTON has been treated to a demonstration of the possibilities of a new war tank, which can go sixty miles an hour, when necessary, and maintain an average speed of thirty miles an hour. It is armed with one 50-caliber and two 30-caliber machine guns, and Thompson submachine guns, is protected with $\frac{3}{4}$ -inch armor, and has a radio. It lays its own track or runs on wheels, as desired. The construction of a fleet of these tanks is under consideration, and all that will then be wanting is the clergy's blessing upon their use, which, of course, it will not be hard to get.

Bicameral Legislatures Inefficient

BICAMERAL legislatures are intended to serve as a sort of balance of power in which one chamber restrains the other from enacting undesirable legislation. But politicians in both houses of such legislatures generally work together, and therefore a unicameral legislature is considered by many to be the better form of government, particularly where checks and balances are provided in the separation of legislative, judicial and executive offices. Nebraska, under the leadership of Senator Geo. W. Norris, has decided to scrap one of its chambers and to henceforth run the state under the supervision of one house or chamber. Politicians, however, are not enthusiastic about such innovations, as it provides fewer jobs for themselves. Business men, as well as the professions, incline to favor the one-chamber plan. Three of the original thirteen states had unicameral legislatures: Pennsylvania, Vermont, and Virginia. These subsequently changed to the bicameral plan.

Prohibition in Texas

TEXAS still has prohibition, the state law prohibiting the sale of liquor in that state without a doctor's prescription. However, with the general breakdown of law and order, no attention is paid to the law, and one retail druggist, checked up, was found to have sold 373,344 pints of whisky in 90 days, and did not have a single prescription for any sale made. All this was entirely safe for the druggist, as he well knew, but if he had put in the hands of the people books or booklets calling attention to God's kingdom as the sole hope of the world, he would have been in luck to keep out of jail. As soon as the bishop got on the job he would have had trouble a plenty. The bishops care not a rap about the law, except where they suspect that some activity is going to cut into their particular line of graft.

Armory Opened for Unemployed

ONE of the Brooklyn armories has been opened as a recreation center for unemployed men who, while they sleep in public and private lodging houses during the night, have no place to go during the day. If the experiment proves successful other armories will be similarly used if needed. The unemployment problem is no nearer being settled than it was when Roosevelt became president.

Science and Invention

A New Wood Preservative

ALL woods are subject to the attack of fungi and insects, so industrious and effective in their destructive work that it is noticed, very frequently, only after the damage has been done. They can reduce solid wooden posts to powder, and frequently are clever enough to leave the exterior intact, so as to give the impression of a sound post or board. In reality, however, such undermined timbers are rotten through and through, having been destroyed by an apparently moistureless process called dry rot. A wood preservative, named "Cuprinol", has been invented which may be had in three colors (or without color), dark brown, light brown, green, and neutral. The effects obtained are pleasing, and the wood is made impervious to the attacks of the destructive fungi and insects. The preparation is also of value in the protection of canvas, nets, cordage and sailcloth against decay.

Death Rays

MANY of the stars, especially the "blue" stars, are continually sending out death rays, which are rained upon the earth in a constant barrage. These rays, however, are stopped or turned aside by a layer of ozone about forty miles above the heads of puny man. How easy it would be for the great Creator to wipe out a part or all of the population of the globe by letting through a storm of these death rays which are said to hold the threat "of a blistering, blinding death"! Whatever may be the means employed, Jehovah assures us that He will find out all His enemies and that they shall perish for ever. Yet, He is abundantly able to protect those who trust and obey Him.

A New Motor Oil

A NEW method of making motor oil out of crude petroleum has been discovered. "Chrysalic acid" and propane are poured into the petroleum; the first dissolves and settles impurities, and the second absorbs the useful parts of the oil. The propane oil mixture is then drawn off, and when warmed the propane bubbles off in the form of gas, leaving a superior motor oil. The manufacturer states, "This new way to refine oil is expected to change the entire trend of present-day refining and save millions of dollars for motorists." The savings result from the fact that less oil is needed and that there is less engine wear and no carbon deposit.

Better Lighting Needed

D. R. M. LUCKIESH, who is the lighting authority of the General Electric Company, addressing the Optical Society of America, said that the illumination of the average home or factory should be thirty times greater than it is. He stated that seeing is not merely an act of the eyes, but of the whole body. The eye muscles become tired and the whole body becomes tense to the extent that even the rate of the heartbeat is changed when difficult visual tasks are continued over long periods. The tired feeling of the white-collar office workers is just as real as the physical weariness of the manual worker. Electric lights close to the ceiling or covered with shades give no better light than a candle close at hand.

A New Kind of Putty

THE Goodrich Rubber Company is turning out a new kind of putty, called "Plastikon", which, by the way, is a very nice and ingenious name for the product, suggesting something that is both plastic and made to stick on. It is very much like ordinary painter's putty, but is combined with rubber. It contains practically no oil, requires no mixing, and resists corrosive chemicals and fumes. The rubber in the new putty increases its moisture-proof qualities. It is also superior to ordinary putty in use upon steel surfaces, to which it sticks readily.

Flexible Glass

A NEW glass is being perfected which will bend and bulge when struck with sufficient force. A bag of shot weighing eleven pounds was dropped upon a pane of this glass placed in a frame, and produced a permanent bulge. It is suggested that this indicates what would happen if your head struck the windshield of an automobile. The windshield would "give", but it is not entirely certain what would be the effect on the head. It is perhaps best not to experiment with this idea.

Measuring Depth by Sound

A DEVICE called the "shoal fathometer" measures the depth of sea water by means of an inaudible sound, which is directed downward, and returning affects a neon tube in such a manner that the depth of the water can be ascertained to within an inch. It works rapidly, so that depth can be taken every ten inches, giving a continuous "chart" of the sea bottom.

Health Notes

Do You Smoke?

THE debauching of women by inducing them to smoke, by means of attractive advertisements, continues. The advertisements suggest that it is smart, progressive and pleasant to smoke; that if you do not smoke cigarettes you are a back number, a hick, or whatnot. As a matter of fact, if you fall for the smooth suggestions of the ads you show you are a numskull, a nitwit, or at best a thoughtless and spineless copycat. What possible good can smoking do you or anybody else? It befouls the air, and your breath as well, it stains your fingers, and messes things up generally. Nevertheless, during 1933 approximately 120,000,000,000 "coffin nails" were eagerly, fatuously consumed by the American public, including plenty of women. Why bring yourself under the power of a weed? Dr. George Starr White doesn't like the cigarette ads. He particularly disliked the one where the city salesman was trying to get a nice, clean-looking country girl to smoke. What Dr. White said about that ad was plenty. Then he says, "Daily I treat the poor, unfortunate dope fiends—addicts to all kinds of drugs—but the worst I have now are the cigarette fiends! The cigarettes are being drugged, so far as the effects go. I cannot prove how they are doped, but I have been told in confidence by those working in the largest cigarette factories in the world that the doping is being increased gradually. . . . I do know the mental and nervous symptoms of the addicts are terrible now. Loco weed as well as hemp weeds, I am told, are being used with other weeds of a similar nature."

Serum for "Christmas"!

A CERTAIN "health" commissioner offered the suggestion a short time ago that no mother could give her child a better present for "Christmas" than diphtheria immunization, meaning an injection of filthy and poisonous serum. It is said that diphtheria is particularly deadly of late, and that seems likely. Parents cannot give their children the foods needed to build sturdy bodies that can resist the disease. But while parents are not able to get proper foods, they can get the serum injections for their children free. The Devil is bent on destroying the human family, denying them the necessary comforts of life, and urging them to give their children "Christmas" presents of germ-laden pus. What a travesty of civilization!

About Red Noses

A SUBSCRIBER'S complaint that some people have red noses who are not guilty of drinking too much alcohol moves the insertion of this item. The objection was raised to a statement which appeared in the October 10 issue, which said, "People who drink too much alcohol often have red noses, and Dr. B. Kauders, of Vienna, has discovered that this is the result of damage to the part of the brain which governs the operation of the smaller blood vessels." We hasten to say that we are aware that not all red noses are the result of alcoholism, and the item does not so state. The subscriber lists the following among probable causes: kidney trouble, too much milk, tea or coffee, nervousness, weariness, constipation.

Tuberculosis and Climate

THE idea that a patient suffering from tuberculosis must be sent to a climate that is drier and higher is being questioned by physicians. Doctors of the Brooklyn Health Council assert that "in practically all cases the patient suffering from tuberculosis can be treated as **successfully in Brooklyn, under adequate and careful medical attention, as in Denver or Arizona**". It is further stated that there is not necessarily any danger connected with treating patients at home, provided certain reasonable precautions are taken.

"Sleepy Death" and Vaccination

IN AN official report of the scientists of the United States government it is stated that the sleeping sickness is a sequela to vaccination for smallpox, and that in all instances where death followed vaccinia was found in the brain upon post-mortem. More than a hundred persons in St. Louis died of this malady in the latter half of August 1933, and the scientific investigation of the "sleepy death" was reported in the March 1934 issue of the *Country Gentleman*.

"Black Widows" Move Inside

ONE of the most poisonous of spiders, the "black widow", is invading Denver in large numbers. Ordinarily encountered only outdoors, they are now found in residences, office buildings, warehouses, and other heated enclosures. One "black widow" lays two hundred eggs at a time, and under favorable conditions these spiders increase rapidly.

Here and There over the Planet

Quack Methods of Dictators

THE *Svenska Dagbladet* gives publicity to the following statements by Professor Gustav Cassels: "A dictatorship has no right to exist if it is unable to contribute to the reconstruction of world economy. But dictatorships have not done so. Instead, they have introduced economic experiments strikingly reminiscent of quack doctors' methods. Developments have been almost identical in Germany, the United States and Russia. Nazi Germany's economic policy is typical and is based on the greatest possible self-sufficiency. If carried through, it means the ruin of international trade as well as a return to terrible universal poverty and the consequent incompetency of nations to fulfill their obligations. Moreover, German Nazism means the denial of . . . justice and liberty."

Ex-Senator Reed said: "The present administration, having abandoned the precepts of the Democratic platform and the solemn commands of the Constitution, is drifting upon a sea of Bolshevism, Socialism and Red Internationalism. The major portions of its acts are rendering real recovery impossible." He charged the administration with subjecting the "business of the country to a dictatorship more obnoxious than that of the monsters who control the enslaved peoples of many European countries". Stating that he had supported Mr. Roosevelt with every ounce of energy he possessed, he asserted that the United States has "arrived at a condition where the right to work is no longer a right. It is a privilege granted upon condition by some board or bureau".

The Guardian Angel of Europe

IN THE *Sunday Sun* and *Guardian*, of Australia, there is a cartoon of "The Guardian Angel of Europe". The angel's wings are made of swords, cutlasses, dirks and spearheads. The angel itself wears a gas mask and is busy pouring out poison gas and dropping bombs on the world beneath. A fine picture of the Devil's kingdom.

China and the League

CHINA has, since 1931, paid 5,250,000 gold francs into the treasury of the League of Nations, but she isn't getting much in return. China was not re-elected to a place on the League Council, and is now seeking to have the arrangement made permanent whereby Chinese assessments were reduced by half.

An Aggregation of Wirepullers

THE London *Evening News* says, editorially: "Are we willing to be dragged into wars that don't concern us at the instance of the intrigue-ridden League of Nations, an aggregation of sentimentalists and wirepullers, which cannot possibly be trusted to say who is the attacker and who the attacked?" Another London paper says: "For ourselves, we have long since given up hoping that the League will ever be anything but a dangerous nuisance, or that the League of Nations Union [an English organization] will be anything but the instrument of a bunch of truculent pacifist busybodies who nearly landed us in a war with Japan and are still trying to do it."

The Needle Workers of Puerto Rico

VIRTUALLY everything produced in Puerto Rico is sent out of the country to absentee landlords living in Spain or France in luxury. Some idea of how badly Puerto Rico needs God's kingdom may be gathered from the fact that in an investigation of sweatshop conditions in that beautiful island it was found that in 252 homes the 323 women workers earned less than the cost of decent food. Only 6 percent received more than 4 cents an hour, while 31 percent earned less than 1 cent an hour. Puerto Rico has been solidly Catholic for centuries. Make America Catholic and the whole United States will be like that.

Mummies in Mexico

THE bodies of 37 men and women, nine of them in a perfect state of mummification, were found in the Indian country of Sonora, Mexico, in a remote district south of Ciudad Obregon. They were all over seven feet in length but with extraordinarily small feet. They are said to have been members of a lost tribe that wore sandals and turbans. The discovery was made by an expedition headed by Paxson Hayes, ethnologist of Santa Barbara, Calif.

Unemployment in Britain and Germany

THOUGH Britain's official unemployment figures are but 2,151,000, and Germany's but 2,854,320, the *Winnipeg Evening Tribune* says that unofficial but accurate figures show close to 13,000,000 unemployed in Britain and 14,000,000 on relief in Germany. The only thing that will ever straighten out this situation is God's kingdom.

Department of Ambrose

St. Hubert Falls Down on the Job

EVERY saint in the calendar has his particular job to perform. For instance, St. Anthony has charge of the 'lost and found' department. St. Christopher looks after travelers, including those who travel by auto and by air. He was the one who was looking after the Mollisons when they crashed on their flight from England to the United States, just missing the ocean by a few miles. Now we have St. Hubert brought to our attention, and he also seems to be negligent. Dr. Prentice Pugh, rector of the Episcopal Church of the Advent, blessed a pack of hounds that were about to go fox-hunting. But the blessed hounds failed to get the fox. Since Dr. Pugh was all rigged out in his night-gown when he did the blessing, which anybody knows is the proper way to bless anything, it must be that St. Hubert was the one who fell down on the job of helping the hounds get the fox. Besides, the hunters themselves were all wearing blessed medals; and what more could be done by anybody?

Preparing for the Priesthood

"FATHER" GRIFFITH, an Episcopal clergyman, wanted to become a priest. He had a wife, however, and was told by Catholic church officials that the only way he could become a priest was either to have his marriage annulled or for his wife to enter a convent. So he began to treat her merely as an obstacle in his way to complete sanctity. He struck her, cursed and swore at her, and once hurled a breadboard and a loaf of bread at her. He even refused to be seen with her on the street, saying that priests were never supposed to be seen alone with women. His wife was finally forced to leave him, and gained a divorce by telling the court these facts. Which leaves "Father" Griffith free to become a priest.

Roman Catholic Monopoly on Gambling

IT IS now or never with the Roman Catholic hierarchy to get their hands on every cent that can be nabbed. Hence one reads with interest that at a conference of Chief of Police Callahan with others of like mind, at Louisville, Ky., it was agreed, since other gamblers were making \$100 a night at the form of gambling known as "bingo", and since it was desired that all this money should be kept under "Holy Name" influence, hereafter this gambling must all be done on church property.

Too Many Boys and Girls

THE desperate condition of the Devil's empire is shown by the explanation that the rise in unemployment in the fall of 1934 over 1933 was due largely to the increase in population, which normally adds more than 400,000 to the army of job-seekers. Here is a chance for some great statesmen to rise up and suggest plowing one-third of them under. Isn't it just as bad to have too many boys and girls as to have too many houses and too much food and clothing? Leave it to the great statesmen. Secretary Wallace says that the philosophy behind the new deal is at one with that of the Catholic church, as expressed through the Vatican.

A Fine Way to Treat Peter

AT HOGANSBURG, N. Y., an ice-jam three miles up the St. Lawrence river was pushing its way toward the village, part of an Indian reservation. The priest of the R. C. church saw that the church building was in danger and placed a statue of Peter between the ice-jam and the church. He said later that he did so at the request of the frightened Indians, and thereby confesses his failure to teach these benighted heathen the vanity of idol worship.

Priests Hard Up

WHEN priests have to go to work it is time something were done. So, in Greece, measures are under consideration to give the priests of the Greek church regular salaries, which the people, as you might expect, will pay through taxation. Greek priests had found it necessary to apply for manual work in fields and on roads. It makes one feel very sad, to think that the government would discourage their efforts to make themselves useful.

Jesuit Says Wealth Will Be Seized

IN AN address at Washington Rev. Edmund A. Walsh, prominent Jesuit, said that the wealthy would have to share their profits more equitably or their wealth would be seized. A large part of the finest building sites in Washington are in the hands of the Roman Catholic church. Doctor Walsh was not sure whether the government would conscript the property of those who have too much, or whether the mobs would get it.

(Continued from page 400)

to determine exactly when the construction of the temple was begun, to the very day, and exactly how long it was after the exodus. The two passages that cover the subject are now quoted:

“And it came to pass, in the four hundred and eightieth year after the children of Israel were come out of the land of Egypt, in the fourth year of Solomon’s reign over Israel, in the month Zif [the name itself is of heathen origin], which is the second month, that he began to build the house of [Jehovah].” (1 Kings 6:1)
 “And he began to build in the second day of the second month, in the fourth year of his reign.”
 —2 Chronicles 3:2.

Some of the items that go to make up the 480 years from the exodus to the building of the temple are known and may be set down, as follows:

Wanderings in the wilderness	40	years	
To the birth of Boaz (son of Salmon, one of the wanderers, by Rahab) ?	“	(91½?)	
To the birth of Obed, David’s grandfather . ?	“	“	
To the birth of Jesse, David’s father . . . ?	“	“	
To the birth of David . ?	“	“	
To the death of David .	70	“	
To the 4th year of Solomon’s reign	4	“	
Total years			480

In the past some thought it expedient, or wise, or necessary to say of this text that the four should be changed to a five (to agree with a passage in Acts which they misread and misunderstood). It would be folly to think that Jehovah God would make it necessary for any to resort to such a method of preserving the meaning of one of the most important texts in the Bible. This text is the one text that directly connects up the days of Moses with the days of the kings of Israel: in connection with the accurate and reliable record of events preceding Moses’ time, and the accurate and reliable record forward from Solomon’s time, it enables one to say with full assurance that the building of the typical temple of God was completed just three thousand years after man appeared upon the earth; indeed, this item in itself is very suggestive that there was nothing accidental

about the time of the beginning of this work of construction.

The years that the judges ruled, as stated in the book of Judges, plus the years of the reigns of Saul and David would, if put end to end, be more than 480 years, but they are wisely admitted to be “broken, lapped and tangled”, needing a text just like this to keep a true and accurate chronological record for the use of Jehovah’s people.

It is highly important at this point that the reader should familiarize himself with the contents of the Watch Tower publication entitled *Preservation*. On this subject of the miraculous manner in which Jehovah God maintained the lineage of Christ Jesus, despite the great age of many of His ancestors at the time of the birth of the one next in line, this work says, in part:

Here is stated the genealogy from Pharez to David. Between Obed and Jesse no one is mentioned. Is this due to the lack of importance of connecting links, or did each one from Nahshon to Jesse live to be of a very great age, and each one in his extreme old age bring forth a son? This latter conclusion is supported by the words of the divine record: “And the three eldest sons of Jesse went and followed Saul to the battle: . . . and David was the youngest,” and David was the eighth son of Jesse. (1 Sam. 17:13, 14) “Now David was the son of that Ephrathite of Bethlehem-judah, whose name was Jesse; and he had eight sons: and the man went among men for an old man in the days of Saul.”—1 Sam. 17:12. . . . The fact that no intermediary generations are mentioned in the genealogy of the book of Ruth shows that each one of the men named lived to a great age before begetting the son named in the genealogy. Thus it appears that there was continued difficulty in maintaining the royal line. Jehovah had given his word that the Vindicator should come from the tribe of Judah, hence Satan tried to interfere with the genealogy of that tribe. At various times it appeared that God’s word would fail, and each time Jehovah stepped in at the opportune hour, even as shown in the book of Ruth. . . . There does not seem to be any good reason, therefore, to conclude that in the genealogy there are links missing between Obed and Jesse.

In the table just published the average age of the father at the time of the birth of the child next in the royal line was at least 91½ years. To change the divine record from the “four hundred and eighty years” to “five hundred and eighty years” would make the average age of the fathers at least 116½ years at the time of the birth of such child; hence the wisdom of trying to force a chronology by such a method

CONNECTED EVENTS OF HISTORY

Dating from the creation of Adam, *Mursday, Edenic day No. 0, moon No. 0, vernal equinox No. 0, B.R. 4060* (Friday, March 22, 4028 B.C.)

does not appear. It is better to take the Lord's Word as it is, unless some direct evidence appears that the record has been tampered with: in this case those that most love God's Word have seemed in too great haste.

Would any of the "millions now living" be stumbled by the discovery that they have a hundred years longer to live than they once thought? Hardly. Would they be stumbled because they were consecrated with the understanding on their part that six thousand years of human history ended in A.D. 1874? One can but smile at the thought. Any person consecrated with a condition or codicil attached to his consecration may as well forget the whole matter: he is not consecrated at all, and does not love God.

Nothing in the Scriptures says that Christ Jesus would have to wait until the beginning of the seventh thousand years of human history before the second advent would occur and the Day of Jehovah begin, in which Christ, as Jehovah's vicegerent, rules in the midst of His enemies. As a matter of fact these events occurred in Y.R. 1882 (1914 A.D.); not earlier, and not later.

Footnote on Calculating Future Lunations

The duration of an eclipse cycle is correctly stated on page 373 of *The Golden Age* No. 404 as 6,585.32 days, and the figures on page 375 should be corrected to correspond. (On the latter page also, forecasting the future, insert moon No. 73766 immediately before the moon marked on the chart as No. 73766 and change the latter number and all the remaining numbers to 1 higher.)

It will be observed by the careful student that from No. 73131 (January 5, 1886, 10:13 a.m.) to No. 73354 (January 17, 1904, 6:15 p.m.) is 4 minutes longer than from No. 73354 to No. 73577 (January 28, 1922, 2:13 a.m.). As the sun is constantly making compensations, altering the length of the year slightly, so with the eclipse cycles of the moon. The astronomers understand these latter very well, and the reasons for them, but it is not the intention of *The Golden Age* to examine them. In calculating future lunations they should be noticed, but, even then, any figures the average *Golden Age* reader will make will be subject to astronomical adjustments.

Persons desiring to forecast future lunations should take note of the following table, in which is a list of the "Minutes Over 29 Days" (a) for the eclipse cycle from No. 73131 to No. 73354, (b) for the cycle from No. 73354 to No. 73577, and (c) for the incomplete cycle from No. 73577 to No. 73800; and (d) is the difference, plus or minus, between the corresponding lunations of (a) and (b), and (e) is the difference, plus or minus, between the corresponding lunations of (b) and (c). It will be observed that the figures, plus or minus, necessary to make (a) agree with (b) are about the same as are necessary to make (b) agree with (c). Let the astronomers battle over the differences of a minute or so.

Using this method, the lengths of the 38 lunations needed to complete column (c) are shown in parentheses, and the

table is followed with a list of the times of lunations thus indicated. When the number of "Minutes Over 29 Days" is known, it is an easy matter to determine when the lunations themselves will occur (the approximate days and hours), within an hour or so.

There Must Be Freedom of Speech

ARCHBISHOP McNICHOLAS (R.C.) speaking at the National Catholic Charities Conference, said, "If I were asked to give in a single word the formula that would end the depression, I could readily give it in the word of Pope Benedict XV [rather, the word of Christ]—Love, or charity, if you will understand charity as defined by the Catholic church. If the virtue of love dominated all groups in America, if the virtue of charity dominated all nations of the world, there would be no strife, no uprisings, no injustice. . . . There must be freedom of speech, there must be freedom of the press, there must be freedom of religion, so also there must be freedom of business, not under the old order of greed, industrial slavery, lust for power and corruption of government, but under the freedom of social justice. . . ." This is all well said; and now, if the archbishop will just say a few words to those Catholic interests that have worked so hard, though unsuccessfully, to exclude Judge Rutherford from the radio and the press, it would give a good illustration of charity's beginning at home. And above and before everything else, let there be an end of hypocrisy.

Did You Get Your Booklets for the Special Period?

EVERYONE who is really interested in the advancing of the Kingdom interests in the earth is going to have a part in THE ANOINTED'S THANKSGIVING PERIOD, April 13-21. Here is an extraordinary opportunity for you to make an expression to the Lord of your devotion to Him and His kingdom. Order now the special packet of Judge Rutherford's publications:

- 10 *Supremacy*
- 10 *His Vengeance*
- 30 *Who Shall Rule the World?*

and call on your friends and neighbors and offer three of the booklets on a contribution of 10c, using the testimony which appeared in *The Golden Age* No. 404, the last page. Write now to The Watch Tower, using the attached order blank.

The Watch Tower

117 Adams St.
Brooklyn, N. Y.

I desire to have a part in the witness, and I desire to be a publisher of the Kingdom message during THE ANOINTED'S THANKSGIVING PERIOD, April 13-21. Please send me, therefore, the special packet composed of the following booklets. Enclosed find a dollar contribution so that more of these can be printed.

- 10 *Supremacy*
- 10 *His Vengeance*
- 30 *Who Shall Rule the World?*
- 1 Testimony Card
- 1 Report Card

UNIVERSAL WAR NEAR

THAT is the subject of Judge Rutherford's lecture delivered in January over a chain of more than 100 radio stations throughout the United States. And now again hundreds of stations have arranged to broadcast this lecture by electrical transcription, between April 14 and 21, because the people want to know, Why are the nations arming for war? Which side will the churches take? Why is the truth involved? What will be the result? How are both people and Congress of this land affected as never before? Be sure to tune in on any of the stations listed below and

(In 3 Parts—Part 3)

Building of Solomon's Temple

IT IS a simple matter, now, to ascertain the exact date when the construction of Solomon's temple was begun. The new moon nearest the vernal equinox rose at 10:55 N., *Light-day, Edenic day No. 1093164, B.R. 1067, vernal equinox No. 2993* (4:55 a.m., Sunday, March 16, 1035 B.C.). This was the counterpart of No. 73590 in the Lunation Experience Table. Making use of the eclipse cycles to promote greater accuracy, the next new moon rose at 4:39 N., *Earthday, Edenic day No. 1093193* (10:39 p.m., Monday, April 14). The moon was not seen that night: hence the second month did not begin until 45 hours later, *Lifeday, Life 1, Edenic day No. 1093195, God's month No. 37019, vernal equinox No. 2993* (6:00 pm, Wednesday, April 16, 1035 B.C.). The second day of the month was 24 hours later; the work of building the temple would hardly have been begun after sundown; therefore, the work on the temple was begun *Mansday, Life 2, 1067 B.R.* (sometime Friday morning or afternoon, April 18, 1035 B.C.). Probably all that was done that day was to lay the corner stone.

* The asterisks at top of the calendar on page 381 of *The Golden Age* No. 404 represent days, each counted as a part of Jehovah's Year of Ransom 1906. The first asterisk on that page (the one immediately beneath *Lifeday*, the day of vernal equinox, *Lifeday, 9:43 D., Jerusalem time*) is no part of Jehovah's Year of Ransom 1906, but belongs to the year previous.

"In the fourth year was the foundation of the house of [Jehovah] laid, in the month Zif [name of heathen origin]: and in the eleventh year, in the month Bul [name of heathen origin], which is the eighth month, was the house finished throughout all the parts thereof, and according to all the fashion of it. So was he seven years in building it."—1 Kings 6: 37, 38.

ESSENTIALS OF JEHOVAH'S MEMORIAL CALENDAR

EACH year has 365 or 366 days, from one vernal equinox to another, governed by the sun. Each year ends with the end, about sundown, of that day in which the vernal equinox occurs at Jerusalem; the old year's ending at that point marks the time of the beginning of the new.* The years are numbered, backward or forward, from the Ransom of mankind, by the death of Jesus, at Jerusalem, which by that act became the time center of the earth.

Each month has 29 or 30 days, governed by the moon (at Jerusalem). The 14th day of each month is that day, beginning about sundown, in which the moon becomes full over Jerusalem. The months of God (His moons) are numbered from the creation of Adam in Eden; they are named after the works of God, His doings.

Each day has 24 hours, 12 of night followed by 12 of day, of equal length at equinox, governed by the sun. The day begins, about sundown, at that point which is midway between noon and midnight. The total days of human history (Edenic days) are numbered from the creation of Adam, in Eden. They are named after the works of God, His doings.

The date of this issue (No. 406) of *The Golden Age* is Starday, Redemption 6, Edenic day No. 2177593, God's month No. 73740, Jehovah's Year of Ransom 1903.

It is wished to locate the days of dedication of the temple, and as it is desirable to be as exact as possible, recourse is again had to the eclipse cycles. No. 37105, nearest the vernal equinox of 1028 B.C., is the counterpart of No. 73677, Friday, February 28, 1930, 3:58 p.m., from which it is removed by 164 eclipse cycles of 223 moons each. Table for the first eight months follows (overleaf).

The point of special interest is moon No. 37111; a correction of one hour and 29 minutes over the "mean" lunation was obtained by using the eclipse cycles. In this month the temple was dedicated, before it was quite completed.

Dedication of the Temple

The dedication of the temple was forecast in the following instructions to Moses: "The fifteenth day of this seventh month is the feast of tabernacles for seven days unto Jehovah... Besides the sabbaths of Jehovah... on the fifteenth day of the seventh month, when ye

Vernal Equinox	Moon No.	Hour	Day of Week	Edenic Day No.	Ensuing Month	Year B.R.	Hour	Gregorian Date	Year B.C.

"	37112	4:45	N. Lifeday	1095940	Peace	"	10:45 pm	Wed. Oct. 20	"

have gathered in the fruits of the land, ye shall keep the feast of Jehovah seven days: on the first day shall be a solemn rest and on the eighth day shall be a solemn rest . . . And ye shall rejoice before Jehovah your God seven days. . . . It is a statute for ever throughout your generations."—Leviticus 23:34, 38, 39, 40, 41, *A.R.V.*

Allowing for the usual time for observation and proclamation, the eighth day of the seventh month began at sundown *Mansday, King 8, Edenic day No. 1095920*, which day began Thursday evening, September 30, and continued until sundown of October 1 (vernal equinox No. 3000). On that day began the dedication of the altar, lasting for seven days. The day of atonement fell on the tenth day of the same month; very appropriately the dedication of the altar began two days before. The figures are all unusually interesting. The Edenic day itself ushered in week No. 156560. This is a noteworthy number, being composed of $2 \times 2 \times 2 \times 2 \times 5 \times 19 \times 103$. Falling on October 1 of the year of creation No. 3000, and at the time of the beginning of the dedication of the altar of Solomon's temple, this number probably has some significance that sometime will be understood. The record of the dedication itself is as follows:

"And all the men of Israel assembled themselves unto king Solomon at the feast, in the month Ethanim [the name is of heathen origin], which is the seventh month. And all the elders of Israel came, and the priests took up the ark. And they brought up the ark of Jehovah, . . . There was nothing in the ark save the two tables of stone, which Moses put there at Horeb, when Jehovah made a covenant with the children of Israel, when they came out of the land of Egypt. And it came to pass, when the priests were come out of the holy place, that the cloud filled the house of Jehovah, so that the priests

could not stand to minister by reason of the cloud; for the glory of Jehovah filled the house of Jehovah." (1 Kings 8:2, 3, 9-11, *A.R.V.*) "And on the eighth day they held a solemn assembly: for they kept the dedication of the altar seven days, and the feast [of tabernacles] seven days. And on the three and twentieth day of the seventh month he sent the people away unto their tents, joyful and glad of heart for the goodness that Jehovah had showed unto David, and to Solomon, and to Israel his people."—2 Chronicles 7:9, 10, *A.R.V.*

Another Astounding Confirmation

Another astounding confirmation of the accuracy of God's "faithful witness in the heavens" now appears. While, according to Holy Writ (Leviticus 23:33-39), the feast of tabernacles (which began on the 15th of this month, and lasted seven days) could have begun on any day of the week and ended on any day of the week, and both of the days would properly have been counted as special sabbaths unto Jehovah God, yet what if infinite Wisdom had so arranged it that on this most extraordinary occasion these fifteen days ended in such a way as to coincide exactly with the regular weekly sabbath arrangement? That is just what took place, for the 'twenty-third day' above specified was a weekly sabbath. The account is interesting at this point; for instead of saying that Solomon sent the people home, it says that he sent them to their tents. They remained in their tents another night, starting for home the next morning, on the first day of the week, as was meet.

The dedication of the altar for seven days, followed by the feast of tabernacles for seven days, and dismissal of the people on the next succeeding day, is set out in the following table:

Vernal Equinox	Moon No.	Day of Week	Edenic Day	Day of Month	Year B.R.	Gregorian Date	B.C. Year	Activity Specified
3000	37111	Mansday	1095920	King 8	1060	Fri. Oct. 1	1028	Altar dedicated
3000	37111	Mansday	1095927	King 15	1060	Fri. Oct. 8	1028	Feast of tabernacles
3000	37111	Godsday	1095935	King 23	1060	Sat. Oct. 16	1028	Final day

How did it happen that Solomon, after the required time had elapsed for dedication of the altar and the temple, sent the people away a day later "glad and merry in heart" as God's true people are as they read this account? The table answers. The next day was a sabbath day of rest and worship. For, be it known, this record was written for Jehovah's people that are living now. Not until now were these particular 'precious things of the moons' "thrust forth" by the power of Jehovah God.

The student who reads the accounts in 1 Kings 8 and 2 Chronicles 7 will note that not all the details of the temple furnishings, etc., were completed until a few days after the dedication services had ended. The exact time when the last vessel was made ready is not stated; it is merely mentioned that it was in the next month.

It is so in the antitype. The dedication of the spiritual temple of God and its "altar" of the sacrifice of praise to Jehovah has been in full swing for years; since 1918. When the work will all be finished is not known. Probably the end is near, but it does not matter whether it is or not.

Cleansing the Temple

The next days in the Scripture record that can be definitely located are those identified with cleansing the temple in the first year of the reign of the good king Hezekiah. His reign began in the year 777 B.R. (745 B.C.). Hezekiah was the good son of a bad man, Ahaz, in whose days the worship in the temple was neglected and idolatry was practiced. The temple had become so filled with refuse of all sorts that it took 14 men 16 days to clean it, a total of 224 days' work.

After listing the workers the account says: "Now they began on the first day of the first month to sanctify [clear away the rubbish], and on the eighth day of the month came they to the porch of Jehovah; and they sanctified the house of Jehovah in eight days: and on the sixteenth day of the first month they made an end."—2 Chronicles 29:17, A.R.V.

The cleansing work was not finished in time for the passover to be held at the regular time (fourteenth day of first month), so, in accordance with the law, made elastic to take care of just such an emergency (Numbers 9:10, 11), arrangements were made "to keep the passover in the second month" (2 Chronicles 30:2) and messengers were dispatched to every part of Palestine to have as large and representative a gathering as possible.

"And Jehovah hearkened to Hezekiah, and healed the people. And the children of Israel that were present at Jerusalem kept the feast of unleavened bread [beginning the next day after the passover] seven days with great gladness; and the Levites and the priests praised Jehovah day by day, singing with loud instruments unto Jehovah. And Hezekiah spake comfortably unto all the Levites that had good understanding in the service of Jehovah. So they did eat throughout the feast for the seven days, offering sacrifices of peace-offerings, and making confession to Jehovah, the God of their fathers. And the whole assembly took counsel to keep other seven days; and they kept other seven days with gladness. For Hezekiah king of Judah did give to the assembly for offerings a thousand bullocks and seven thousand sheep; and the princes gave to the assembly a thousand bullocks and ten thousand sheep: and a great number of priests sanctified themselves. And all the assembly of Judah, with the priests and the Levites, and all the assembly that came out of Israel, and the strangers that came out of the land of Israel, and that dwelt in Judah, rejoiced. So there was great joy in Jerusalem; for since the time of Solomon the son of David king of Israel there was not the like in Jerusalem. Then the priests the Levites arose and blessed the people: and their voice was heard, and their prayer came up to his holy habitation, even unto heaven. Now when all this was finished, all Israel that were present went out to the cities of Judah, and brake in pieces the pillars, and hewed down the Asherim, and brake down the high places and the altars out of all Judah and Benjamin, in Ephraim also and Ma-

nasseh, until they had destroyed them all."—
2 Chronicles 30:20-27; 31:1, A.R.V.

Locating the Days of Hezekiah

From the spring of 777 B.R. (745 B.C.) to Y.R. 1903 (1935 A.D.) there are 2,679 years. There are 12.3682 lunations per year: total for the period, 33,135 moons. In 33,135 moons there are 148 eclipse cycles of 223 moons each, and 131 over. Back 131 moons from No. 73740 (down at this end) was the corresponding moon No. 73609. Now, 33,135 moons minus 131 are 33,004, the number of moons it is desired to go back from No. 73609, to locate the lunation nearest to the spring equinox in the year of Hezekiah above mentioned. Moon No. 73609 rose, astronomically, Jerusalem time, at 11:02 a.m., Saturday, August 30, 1924 A.D. In 33,004 moons are $33004 \times 2551442.864976$ seconds, which are 84,207,820,315.667904 seconds. Dividing in the usual way, first by 604800 (seconds in a week), then by 86400 (seconds in a day), then by 3600 (seconds in an hour), and finally by 60 (seconds in a minute), this length of time equals 139232 weeks 3 days 13 hours 12 minutes. These 3 days 13 hours 12 minutes back from 11:02 a.m., Saturday, August 30, take one to a Tuesday at 9:50 p.m. Now it is desired to go back 139,232 weeks (which are 974,624 days) from 9:50 p.m., Tuesday, August 26, 1924 A.D. From 745 B.C. to 1924 A.D. there are 2,668 years. These years contain 2668×365 days (973,820), 26×24 leap days in the 26 unbroken centuries (624), 6 leap days in the present century, 11 in the eighth century B.C., and 6 quadricentesimal leap days: total days in 2668 years, 974,467. The desired day is $974624 - 974467$, which is 157, days back from (before) August 26. The answer is that in the first year of Hezekiah's reign the new moon rose at 3:50 N., *Star-day, Edenic day No. 1199091, God's month No. 40605, B.R. 777* (9:50 p.m., Tuesday, March 22, 745 B.C.). In the year 1935 A.D., March 22 comes on a Friday. Reference to the six-thousand-year calendar (page 368 of No. 404) shows that in the year 777 B.R. (745 B.C.) the date named would have fallen on a Tuesday; which shows that the answer is correct.

Very well. The first month was ushered in about 44 hours subsequently. Cleaning up the temple, therefore, began on the morning of *Mansday, Redemption 1, Edenic day No. 1199093, B.R. 777* (Friday, March 25, 745 B.C.).

This was a work that could properly be pushed on any day of the week. The account says that on the eighth day, which was *Mansday, Edenic day No. 1199100** (Friday, April 1), ushering in week No. 171300, they came to the porch of Jehovah, and on the sixteenth of the month, which was *Godsday, Edenic day No. 1199108* (Saturday, April 9), they made an end of the cleansing work.

Referring to moon No. 73609 (counterpart, in 1924 A.D., of moon No. 40606 in Hezekiah's day), the time intervening to the next lunation was 29 days 699 minutes (29 days 11 hours 39 minutes): it therefore occurred 3:29 D., *Life-day, Edenic day No. 1199120* (9:29 a.m., Thursday, April 21). Another glance at the Lunation Experience Table, moon No. 73610, shows that the time intervening to the next succeeding lunation was 29 days 641 minutes, half of which is 14 days 17 hours 20½ minutes. Therefore, the full of the moon in the second month was 8:49 N., *Mansday, Life 13, Edenic day No. 1199135* (ushering in week No. 171305), *B.R. 777* (2:49 a.m., Friday, May 6, 745 B.C.). Depending upon visibility, it would have been possible to hold this passover on a Thursday night, and it may have been so held, but the account rather suggests that it was held sometime after sundown, next thereafter, on the sabbath which had then begun. The seven days' feast of unleavened bread began, according to the law, on the 15th of the month, *Lightday, Life 15, Edenic day No. 1199137* (Sunday, May 8), and they necessarily ended on a second sabbath; and all received such a blessing from Jehovah God that they remained over for yet another week. Their convention, therefore, like that at the dedication of the temple, seems to have lasted over three sabbaths; it ended on *Godsday, Life 28, Edenic day No. 1199150* (Saturday, May 21).

What Calendar Does God Use?

This item about Hezekiah is set out in some considerable detail, together with the calculations, because it provides yet one more surprising proof of the manner in which Jehovah God caused His 'faithful witness in the heavens' to bear record of the reliability of His Word. If the Devil, or any of his theologians, had had anything to do with the movement of the moon through the heavens, no such record would now be available.

* The prime factors are $2 \times 2 \times 3 \times 5 \times 5 \times 7 \times 571$.

"For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made." So says one faithful witness of Jehovah. (Romans 1:20) "The heavens declare the glory of God; and the firmament sheweth his handywork. Day unto day uttereth speech, and night unto night sheweth knowledge. There is no speech nor language, where their voice is not heard. Their line is gone out through all the earth, and their words to the end of the world. In them hath he set a tabernacle for the sun." (Psalm 19:1-4) Who can doubt the precision, the exactitude, the wisdom, of the great Creator? The daytime, the nighttime; summer and winter; seedtime and harvest; year in, year out, follow one another with unfailling regularity. Is it not reasonable to believe that the great Jehovah would give to His human creatures some reliable measuring "line" so their relationship to time could be reliably recorded? Jesus told His disciples the day and the hour of His second coming was known only to His Father. (Matthew 24:36) If the Father kept record with such exactness, what calendar did He use? Would He be party to the caprice of the worshippers of heathen gods and recognize the days and months named after these gods, or would He have the heavens show forth His handiwork? Would their line (measuring cord) go out throughout the earth? Is it not reasonable to believe that, with the time having come for the knowledge of Jehovah to cover the earth, His method of recording the times and seasons would be made known to His people?

Josiah's Great Passover

The next day definitely marked in the Scriptures is the great passover of King Josiah, at which time Josiah destroyed idolatry out of Judah. The reader should read the 22d and 23d chapters of 2 Kings and note the very considerable attention given to this subject in Holy Writ. On account of its connection with the feast of Jeroboam it would seem that this is about to have its fulfillment, in antitype, in "Christendom". After describing in detail the thorough cleansing work carried on under Josiah's direction (similar to that which Jehovah God is now carrying on in the earth) the account terminates:

"And he slew all the priests of the high places that were there, upon the altars, and burned

men's bones upon them; and he returned to Jerusalem. And the king commanded all the people, saying, Keep the passover unto Jehovah your God [Exodus 12:22,23], as it is written in this book of the covenant. Surely there was not kept such a passover from the days of the judges that judged Israel, nor in all the days of the kings of Israel, nor of the kings of Judah; but in the eighteenth year of king Josiah was this passover kept to Jehovah in Jerusalem. . . . And like unto him was there no king before him, that turned to Jehovah with all his heart, and with all his soul, and with all his might, according to all the law of Moses; neither after him arose there any like him." —2 Kings 23:20-23, 25, *A.R.V.*

It will now be of great interest to see on just what day this passover occurred. The new moon at that season rose at 12:19 N., *Lifeday, Edenic day No. 1237067* (6:19 p.m., Wednesday, March 13, 641 B.C.). The month began 48 hours thereafter (Friday evening, March 15, 641 B.C.), and its fourteenth day was *Mansday, Redemption 14, Edenic day No. 1237082, B.R. 673*, beginning at sundown Thursday, March 28, 641 B.C. Surely there could be no hour more appropriate to commemorate the passover than the same hour and the same day of the week in which the Lord himself last observed it, and at which time He instituted the new thing, the memorial of His death in vindication of Jehovah's name. How does it happen that in every one of these instances it turns out that the moon was such a true and faithful witness? It does not happen. It was arranged. There is an appropriateness about all these designations of particular days that cannot fail to impress every person who loves God. Jehovah God knew centuries in advance what would be the day of the week, as well as the day of the month, when His first and best loved son would die a ransom for many.

The Times of the Gentiles (Luke 21:24)

The seven (Gentile) times ended with the placing of earth's rightful king upon His throne, approximately *Lifeday, King 10, Edenic day No. 2170097, Y.R. 1882* (Thursday, October 1, 1914). If they had begun exactly 2,520 years previously they would have begun October 1, 607 B.C. But the World War did not begin exactly on time. "The nations were angry" (Revelation 11:18), so angry that they could

not wait until the Devil's lease had expired; therefore the war began some nine weeks ahead of time. An approximate date is the best that can be expected on this item.* The date 588 B.C. in Oxford Bibles is nineteen years out of the way; the proper date for the following passage is 607 B.C., hitherto generally spoken of as being the beginning of the year 606 B.C. (However, the assumption that the true beginning of the year is in the fall is erroneous. The items are properly placed in 607 B.C., and nicely show the anger of the nations ahead of time, 2,520 years subsequently, as the times of the Gentiles were drawing to a close.)

"And the city was besieged unto the eleventh year of king Zedekiah. And on the ninth day of the fourth month the famine prevailed in the city. . . . And in the fifth month, on the seventh day of the month . . . came Nebuzaradan, captain of the guard, a servant of the king of Babylon, unto Jerusalem: and he burnt

the house of [Jehovah], and the king's house, and all the houses of Jerusalem, and every great man's house burnt he with fire. But it came to pass, in the seventh month, that Ishmael, the son of Nethaniah, the son of Elishama, of the seed royal, came, and ten men with him, and smote Gedaliah, that he died, and the Jews and the Chaldees that were with him at Mizpah. And all the people, both small and great, and the captains of the armies, arose, and came to Egypt: for they were afraid of the Chaldees." (2 Kings 25:2, 3, 8, 9, 25, 26) There the seventy years desolation of Judah and Jerusalem began.

In the year 607 B.C. the new moon nearest the spring equinox rose 9:23 N., *Lifeday, Edenic day No. 1249499, God's month No. 42312, vernal equinox No. 3421* (3:23 a.m., Thursday, March 27). The day when the famine is noted as having been severe, *Mansday, Freedom 9, Edenic day No. 1249598*† (Friday, July 4), is interesting, as it was about this time (in 1914,

* "But, as above observed, the proof shows that the three and one-half times of Daniel began at the 'time of the end', to wit, October 1, 1914. At that time there were on the earth a number of persons consecrated to God and wholly devoted to his cause. They had **entirely separated themselves from and broken off all alliance with worldly organizations.** They were putting forth their best endeavors to preach the truth of God's kingdom. The Scriptures and the facts then, and those which follow, show that this class exactly fits the prophet's description of 'the holy people'.

"Just exactly [‡] three and one-half literal years, or 1260 days, by Biblical method of calculation, after the time of the end, there began, to wit, 1918, a great persecution of these holy people of God. Early in February, 1918, many of 'the holy people', or God's anointed, in Canada were arrested and thrown into prison. In the same month the books of account and private papers of the Society's office at Brooklyn headquarters were seized. A few days later the officers of the Society at Brooklyn were arrested. They were indicted at the instance of **Satan's representatives** and were tried, convicted, and sentenced to long terms of imprisonment, and were, on the 20th day of June, 1918, confined in prison. At the same time many others of like precious faith and devotion to God, and in different parts of the earth, were arrested and imprisoned. The main office of the Society was completely dismantled, all communication between the main office and branch offices was cut off, and the work of giving the witness to the truth throughout the earth virtually and effectually stopped.

It was at this climax of the experiences of the church 'when he [Satan the enemy, by and through his agencies] accomplished [that is to say, completed and finished] the work of scattering the power of God's holy people'. This work was the wicked expression of Satan, who had been expelled from heaven and who was wrath with God's holy people.—Revelation 12:13-17.

"As many of the numerals in Revelation appear to be literal, even so the same appears to be true in the prophecy of Daniel. According to Biblical method of calculation of time, a year of 360 days is 'a time'. Therefore, 'a time, times, and an half,' or three and one-half times, is equivalent to 1260 days, or three and one-half literal years. The beginning of this period, which must be at 'the time of the end', to wit, October 1, 1914, would necessarily end in the spring of 1918. [‡] The Scriptural statement and the physical facts as they are well known to exist are therefore exactly in harmony and show that 1260 days are literal in time and began October 1, 1914, and ended practically the first of April, 1918."—*The Watchtower*, 1929, page 372.

‡ Beginning exactly October 1, 1914, and ending exactly 1,260 literal days thereafter, brings to March 14, 1918, the day when the United States government joined with the British government of Canada in banning certain publications of the Watch Tower Society. The storm raged around Christian literature (now no longer in print), extending, in some instances, even to Bibles and hymn books, and was the end, for that time, of religious freedom in America.

‡ The prime factors are $2 \times 7 \times 7 \times 41 \times 311$.

2,520 years later) that this war to give the liberty-loving peoples of the West a larger and better share of the "new freedom" was first seen as inevitable. The war turned out to be a famine for freedom, not a feast. Canada's Independence Day is a day earlier than that of the United States. Both countries were conspicuous in their advocacy of and participation in the war to make the world safe for democracies.

The day when Jerusalem was destroyed, including the temple, was the seventh day of the fifth month, *Lifeday, Vindication 7, Edenic day No. 1249625,* B.R. 639* (Thursday, July 31, 607 B.C.), generally regarded as about the day, in 1914, when the World War broke out.

The day in the seventh month when the flight of the Israelites (under Johanan) into Egypt took place is not named. In the year 1914 the seventh month began with moon No. 73486, rising, Jerusalem time, 6:02 N., *Lightday* (12:02 a.m., Sunday, September 20). Allowing for visibility and proclamation the month began at sundown Monday evening, September 21, and its tenth day (ten is symbolic of completeness with respect to things earthly) was, as would be expected, exactly October 1, when the world was provided with its new ruler, Christ Jesus, who will destroy every vestige of Satan's empire. (See page 432, ¶ 2.4.)

It is really astounding, the way in which all those dates, back there, 2520 years before 1914, were timed with such accuracy and such appropriateness to their fulfillments. Only the hand of God could have so arranged. These things particularly, that is, the "times and seasons", He put entirely in His own power, not taking anybody into His confidence, but leaving the record in the moons so that all may now read it clearly.

'The New Moons . . . by Number'

Readers have noticed that *The Golden Age* has numbered the moons from creation forward: this makes an excellent method of identification, good for the purposes of history. There seems to be a possible hint that this course would be proper in God's sight, in 1 Chronicles 23:31, which reads as follows:

"Offer all burnt sacrifices unto [Jehovah], in the sabbaths, in the new moons, and on the set feasts, by number, according to the order

commanded unto them, continually before [Jehovah]."

When Solomon had determined to build the temple, he wrote to Hiram, king of Tyre, saying, in part: "Behold, I am about to build a house for the name of Jehovah my God, to dedicate it to him, and to burn before him incense of sweet spices, and for the continual showbread, and for the burnt-offerings morning and evening, on the sabbaths, and on the new moons, and on the set feasts of Jehovah our God. This is an ordinance for ever to Israel."—2 Chronicles 2:4, *A.R.V.*

End of Seventy Years of Desolation

It hardly seems necessary to say that the seventy years of desolation ended seventy years from the time they began. As they began in the year 607 B.C., they ended in the autumn of 537 B.C., at the time which was formerly (incorrectly) called the beginning of the year 536 B.C. Only one event in 537 B.C. claims attention, i.e., that "from the first day of the seventh month" burnt offerings were made to Jehovah at Jerusalem by the restored remnant. (Ezra 3:6) In the year 537 the new moon nearest the spring equinox (*No. 43178*) rose, astronomically, at 3:09 p.m., Saturday, April 3. The seventh moon of that year, *No. 43184*, rose at 7:33 p.m., Monday, September 27. The first day of the seventh month (*Lifeday, King 1, 569 B.R.*) began at sundown Wednesday, 47 hours thereafter, and ended at sundown Thursday, September 30. This may be taken as a hint from Jehovah God that the legal end of the desolating rule of Satan was the last day of his month of September, 1914.

The movements of Ezra can be traced "in the seventh year of Artaxerxes the king" (Ezra 7:7), now known to have been the year 500 B.C. (468 B.C.). "For upon the first day of the first month began he to go up from Babylon, and on the first day of the fifth month came he to Jerusalem, according to the good hand of his God upon him." (Ezra 7:9) The new moon nearest the spring equinox that year rose at 11:21 N., *Starday, Edenic day No. 1300262, God's month No. 44031* (5:21 a.m., Wednesday, March 22). The new year, and the first month of the new year, began about 37 hours subsequently, and it can be said with confidence that Ezra began his trip to the contact point at the river Ahava on *Mansday, Edenic day*,

* The prime factors are 5 x 5 x 5 x 13 x 769.

No. 1300264* (Friday, March 24), ushering in week No. 185752.

"Then we departed from the river of Ahava, on the twelfth day of the first month, to go unto Jerusalem." (Ezra 8:31) The journey proper was begun *Earthday, Redemption 12, Edenic day No. 1300275, B.R. 500* (Tuesday, April 4, 468 B.C.). Ezra arrived at his destination 107 days after leaving Ahava, i.e., reached Jerusalem on *Lifeday, Vindication 1, Edenic day No. 1300382* (probably about the beginning of that day, sundown Wed., July 19).—Ezra 7:9.

"And we came to Jerusalem, and abode there three days" (the day of arrival and two subsequent days, including the sabbath). "Now on the fourth day [*Lightday, Vindication 4, Edenic day No. 1300385* (beginning at sundown Saturday, July 22)] was the silver, and the gold, and the vessels, weighed in the house of our God by the hand of Meremoth the son of Uriah the priest; and with him was Eleazar the son of Phinehas; and with them was Jozabad the son of Jeshua, and Noadiah the son of Binnui, Levites; by number and by weight of every one: and all the weight was written at that time. Also the children of those that had been carried away, which were come out of the captivity, offered burnt offerings unto the God of Israel, twelve bullocks for all Israel, ninety and six rams, seventy and seven lambs, twelve he goats for a sin offering: all this was a burnt offering unto [Jehovah]." (Ezra 8:31-35) Although the account does not stipulate that this great burnt offering of the people was made "upon the first day of the week" (1 Corinthians 16:2), yet the record of God's "faithful witness in heaven" discloses that it *was* made on that day, and that accounts for the delay on the part of Ezra and his companions for three days so that the offerings could be made at the appropriate time.

Ezra's Further Activities

One of Ezra's tasks was the breaking up of the mixed marriages with the heathen women of the land, entered into by certain Israelites. "It was the ninth month, on the twentieth day of the month; and all the people sat in the street of the house of God, trembling because of this matter, and for the great rain." (Ezra 10:9) This conference was called for *Earthday,*

* Prime factors are $2 \times 2 \times 2 \times 7 \times 7 \times 31 \times 107$.

Order 20, Edenic day No. 1300520, B.R. 500* (Tuesday, December 5, 468 B.C.).

"And Ezra the priest, with certain chief of the fathers, after the house of their fathers, and all of them by their names, were separated, and sat down in the first day of the tenth month to examine the matter [ten days after the date last named]. And they made an end with all the men that had taken strange wives by the first day of the first month." (The session lasted three months, beginning *Mansday, Logos 1, Edenic day No. 1300530,† week No. 185790* [Friday, December 15], and ending *Earthday, Redemption 1, Edenic day No. 1300618, B.R. 499* [Tuesday, March 13, 467 B.C.].) (Ezra 10:16, 17) The chronicle of Ezra, written with references here and there to the days of God's months, now becomes a diary which can be read with accuracy and therefore with added zest and enjoyment.

A Glimpse at Nehemiah's Diary

The last date, prior to the time of Christ, that is "thrust forth by the moons" through the Scriptures is "the twentieth year of Artaxerxes the king". (Nehemiah 2:1) This year, hitherto mentioned as 454 B.C. (by which was meant the beginning of the year 454, on the supposition that the true beginning of the year is in the autumn), is now positively known to be the year 455 B.C. In this article the time of Christ's death will be exactly shown. That event was midway of a week (of years) before the full end of seventy such weeks (490 years) which ended October 1, A.D. 36. (Daniel 9:24-27) From the beginning of the year 455 B.C. to the fall of A.D. 36 is $490\frac{1}{2}$ years, the $\frac{1}{2}$ year being ignored as in the case of Jesus, who, when $12\frac{1}{2}$ years of age, is referred to as 12.

Nehemiah was a great organizer and a great worker. At the time of his first visit to Jerusalem he had but a brief leave of absence from the court at Shushan, Persia, but managed to get the wall of the city repaired by "the twenty and fifth day of the month Elul, in fifty and two days". (Nehemiah 6:15) The name "Elul" is of heathen origin; it refers to the sixth month of the year. The date is located as follows: The new moon nearest the spring equinox rose 9:33 D., *Lifeday, Edenic day No. 1305016, B.R.*

* The factors are $2 \times 2 \times 2 \times 5 \times 13 \times 2501$.

† The factors are $2 \times 3 \times 5 \times 7 \times 11 \times 563$.

487 (3:33 p.m., Thursday, March 28, 455 B.C.). The date desired is 174 days later, *Starday, Hope 25, Edenic day No. 1305190* (Wednesday, September 18). Nehemiah's trip one way, in those days, required four months. Now airplanes make it in a few hours, and underneath the way that he traveled runs, almost the whole distance, the largest pipe line in the world.

"And all the people gathered themselves together as one man into the street that was before the water gate: and they spake unto Ezra the scribe to bring the book of the law of Moses, which [Jehovah] had commanded to Israel. And Ezra the priest brought the law before the congregation both of men and women, and all that could hear with understanding, upon the first day of the seventh month." (Nehemiah 8:1, 2) This was on *Earthday, King 1, Edenic day No. 1305196* (Tuesday, September 24).

As Ezra, on the second day of the convention, read to the people, "they found written in the law" (Nehemiah 8:13, 14) the arrangement for eight holy days (Leviticus 23:39) to be observed, beginning with the fifteenth of that month, *Earthday, King 15, Edenic day No. 1305210* (Tuesday, October 8). The people at once expressed their desire and intent to wholly obey Jehovah God. The last day of this holy convocation was *Earthday, King 22* (Tuesday, October 15). In the next verse (Nehemiah 9:1) there is an account of what took place on the twenty-fourth day of the month, two days later.

All the days definitely mentioned in the Scriptures, down to the time of Christ, that can be identified by references to the month (God's months) have now been located and discussed, and a true and perfect chronology has been found with which, in due time, all history will be found to be in accord. Not an item has been found, or could be found, that is out of harmony with God's 'faithful witness in the heavens'. The 'precious things thrust forth by the moons' have been found precious indeed; but most precious of all are the things that are coming next.

"Praise ye Jehovah. Praise ye Jehovah from the heavens: praise him in the heights. Praise ye him, all his angels: praise ye him, all his host. Praise ye him, sun and moon: praise him, all ye stars of light. Praise him, ye heavens of heavens, and ye waters that are above the heavens. Let them praise the name of Jehovah." —Psalm 148:1-5, *A.R.V.*

In the Month Logos

In the naming of the months in the calendar of Jehovah God, the command of Jehovah seems to properly apply: "Declare his doings among the people, make mention that his name is exalted." (Isaiah 12:4) Among all the doings of Jehovah God for humanity, what can compare with His sending of the Logos to be man's Redeemer? Appropriately, therefore, this month in which the Logos was sent is named to commemorate that act, and in grateful appreciation, also, of the Logos himself.

Quickly calculating 29 days 12 hours 44 minutes for each lunation from the one nearest the spring equinox, mentioned in the Lunation Table, it appears that the new moon which was to usher in the month *Logos* rose 3:56 D., *Godsday, Edenic day No. 1470358, God's month No. 49791, B.R. 35* (9:56 a.m., Saturday, December 5, 3 B.C.). The new month began at sundown 32 hours later. The nineteenth day of that month *Logos, Mansday, Edenic day No. 1470378* (December 25), has arrived—day of tremendous importance in heaven and in earth.

The scene shifts to Nazareth. Elisabeth, wife of Zacharias, cousin of Mary, still in the hill country of Judea, was then in her sixth month, carrying with her her blessing, her gift from Jehovah God. The Logos and Gabriel have received their great commission: nothing like it has ever been done before, or will ever be done again. When that commission, accepted gladly, instantly and unquestioningly, had been given, the Father then and there "sent the Son to be the Saviour of the world". He did not come of himself: He was sent; but He was glad to come; glad to do *anything* that would reflect honor upon His heavenly Father's name.

He came, the Logos, accompanied by Gabriel, from the courts of heaven to the lowly scenes of earth. Together they located the humble abode of a true and faithful woman, the one to whom they had been sent. It was on the 19th day of God's month No. 49791; the heathen call it December 25; other heathen call it Christ's mass. The Logos remained invisible; Gabriel alone materialized in human form.

Gabriel came in and said to Mary, "Hail, thou that art highly favoured, the Lord is with thee: blessed art thou among women"; what followed is a matter of history, recorded in the first chapter of Luke. The evidence now in hand provides proof that it was on that

day, and probably within a second from the time Mary said, "Behold the handmaid of the Lord; be it unto me according to thy word," that the Logos "made himself of no reputation, and took upon him the form of a servant, and was made in the likeness of men". "Though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich."—2 Corinthians 8:9.

Then and there the Logos *divested* himself, laid aside the royal livery of heaven and entered into the tiny cell which Jehovah God had prepared for Him. The Father closed the door softly and the Logos slept; and in that cunning chamber in which all humanity were fashioned the One that had made all things, and 'without whom not anything was made that was made', experienced great changes in His organism; and they went on in Mary's too, until the morning, 280 days later, when she held in her arms her own hope of life eternal, and the hope of all the rest of humankind, "hope of earth and joy of heaven," the Lord Jesus.

The Lord Born October 1

The evidence herein seems to clearly prove that the day of Christ's birth was *King 3, Edenic day No. 1470658*, completing *week No. 210094*, *God's month No. 49801*, *B.R. 34* (Oct. 1, B.C. 2). He was born on a *Mensday* (Friday), and died on the same day of the week, which, as will hereinafter be shown, was *Redemption 14, Edenic day No. 1482894*,* completing *week No. 211842*, *God's month No. 50215*, *Year of Ransom 1* (Friday, April 1, A.D. 33). The time of His death was 9:00 D. ("the ninth hour" of the day, 3:00 p.m.). (Mark 15:34-37) This was midway from the beginning of His ministry, about Oct. 1, A.D. 29, to the conversion of Cornelius, about October 1, A.D. 36. Jesus' ministry began on His thirtieth birthday, when He "began" to be thirty years of age, or, as the *Diaglott* puts it (Luke 3:23), "And he, Jesus, was about thirty years old when he began [his work]." Jesus being 33½ years old when He died, it is manifest that the season in which He was born was a half year removed from that of the time of His death. Jesus was born at 3:00 a.m., October 1.—Daniel 9:26, 27.

There is a nice point in determining the

*This number is made up of 7x2x8x3x8x3023, and will probably be found sometime to have deep significance. The sum of the digits of 3023 is 10+7.

exact number of days that the Lord lived. He was cut off in the midst of the last week (of years) of the seventy weeks determined upon Jerusalem. He therefore lived to be exactly 33½ years old, from the moment of His birth to the moment of His death.

If it be true that not one sparrow falls to the ground without your heavenly Father's knowledge, how much more the critical care with which all the details of the great Vindication on Calvary were looked after! The honest-hearted will get a blessing from their confidence in the Lord that so small a matter as this was not overlooked by Jehovah God. He made the sun, and its years, and nothing is too small to escape the notice of the One who marks the sparrow's fall.

"And when the sixth hour was come, there was darkness over the whole land until the ninth hour. And at the ninth hour Jesus cried with a loud voice, saying, Eloi, Eloi, lama sabachthani? which is, being interpreted, My God, my God, why hast thou forsaken me? And some of them that stood by, when they heard it, said, Behold, he calleth Elias. And one ran and filled a sponge full of vinegar, and put it on a reed, and gave him to drink, saying, Let alone; let us see whether Elias will come to take him down. And Jesus cried with a loud voice, and [expired]. And the vail of the temple was rent in twain, from the top to the bottom."—Mark 15:33-38.

The account of Matthew and Luke also mention the ninth hour (9:00 D., 3:00 p.m.).

(a) If the years of Jesus' life are counted as ordinary calendar years, then He lived 33½ x 365 days (12227.5 days), plus the 9 leap days of B.C. 1 and A.D. 4, 8, 12, 16, 20, 24, 28 and 32; total days, 12,236, and 12 hours. In the 12,236 days there are just 1,748 weeks; and by this reckoning Jesus was born on a *Mansday* (Friday) at 3:00 a.m.; in other words, in the early morning of October 1, B.C. 2. This seems the most likely view. Jesus was born into Satan's world (2 Corinthians 4:4; John 14:30), and lived on earth while the vagaries of the Roman calendar were in use.

(b) If the years of Jesus' life are counted as years of God, i.e., each 365.2422 days in length, then the days of His life were 12235.6137, or almost a day less than in the paragraph above. By the latter calculation He was born at 12:16 a.m. a day later, i.e., *Godsday* (Saturday), Octo-

ber 2, B.C. 2. Both views are presented, so that the reader may take his choice. But there are reasons down in A.D. 1914 to believe that the view presented in (a) agrees best with the logic of later events.

The next point of special interest is when God's boy had come to the age of 12½ years. Meantime "the child went on growing, and waxing strong, becoming filled with wisdom; and the favour of God was upon it. And his parents used to journey yearly into Jerusalem, at the feast of the passover. And when he became twelve years, and they went up, according to the custom of the feast, and completed the days, and then were returning, the boy Jesus remained behind in Jerusalem, and his parents noticed it not."—Luke 2:40-43, *Rotherham*.

Using the eclipse cycles, to locate the temple incident as closely as possible, moon No. 49955 was the counterpart of No. 73593 in the Luration Experience Table, which please see. And 106 eclipse cycles of 223 moons each take one back to 5:43 N., *Godsday, Edenic day No. 1475201, B.R. 21* (11:43 p.m., Friday, March 9, A.D. 12), at which time the new moon rose under which Jesus and His parents went to Jerusalem to the passover and subsequent feast. The new month and new year began 36 hours later. On the 14th day the passover was celebrated in the early hours of *Lightday, Redemption 14* (Saturday evening, March 24). The feast of unleavened bread began the next evening, and lasted seven days, ending at sundown (Sunday evening, April 1).

The three days in which Jesus was left behind were *Heavenday, Earthday and Starday, Redemption 22-24, B.R. 21* (Monday, Tuesday and Wednesday, April 2-4, A.D. 12). No doubt some of the very doctors of the law with whom Jesus talked on *Heavenday, Redemption 22* (Monday, April 2), were rejoicing 21 solar years later, to the very day, that Jesus was then silent in the tomb. At the end of the Millennium they will get a chance to see what they missed.

The Time of Jesus' Death

Of great interest to readers of *The Golden Age* is it to know the time when Jesus could look up to the One who had sent Him and cry out, in the place of the sinner He came to redeem, "My God, my God, why hast thou forsaken me?" and shortly thereafter bow His dear head and meekly say, "It is finished." The read-

ers of this magazine are the first in the world to know this most precious of all the ancient things which Jehovah God has thrust forth through the moons. Recourse is had to the eclipse cycles, to be as exact as possible.

Jesus' last days were spent under moon No. 50215, removed by 105 eclipse cycles of 223 moons each from No. 73630, its counterpart, which please see in the Luration Experience Table and the chart. This moon, No. 50215, rose at 1:22 D., *Lifeday, Edenic day No. 1482879* (7:22 a.m., Thursday, March 17, A.D. 33). Reference to the table shows it was 29 days and 693 minutes to the next in succession, No. 50216, one-half of which amount of time is 14 days 17 hours and 47 minutes. The moon under which Jesus was crucified, therefore, was at its full at 7:05 N., *Mansday, Redemption 14, Edenic day No. 1482894* (1:05 a.m., Friday, April 1, A.D. 33). Fourteen hours later that day Jesus was dead; the battle was fought and won. The Vindicator had done what He came to earth to do, and what He did was in itself a great vindication of Jehovah's word and name.

Calendar of the Lord's Last Days

The Jewish feast of the passover, held on the fourteenth of the first month, was thereafter followed by seven days of unleavened bread. These seven days of unleavened bread, in the mind of most Jews, seem to have been the important thing. They occurred on the 15th to the 21st of the month, inclusive. The 14th, the day of Christ's death, was referred to as "the day of the preparation". (Matthew 27:62; Luke 23:54) See footnote, *Emphatic Diaglott*, comment on Luke 2:43: "Eight days, of which the feast of the Passover was one, and the rest were the seven days of unleavened bread."

When, therefore, one reads, "Then Jesus, six days before the passover, came to Bethany," and "There they made him a supper", the proper understanding is that He came in the daytime, not of *Godsday*, but of *Lightday, Redemption 9, Edenic day No. 1482889, Y.R. 1* (Sunday, March 27, A.D. 33), and that the supper at which Mary broke upon Him the alabaster box of ointment, and wiped His feet with her hair, was in the closing hours of *Lightday, Redemption 9* (Sunday, March 27). John 12:1-11 may now be read with added zest.

The story continues (John 12:12) that "on the next day", *Heavenday*, occurred the tri-

umphal entry, which is therefore identified as having taken place in the daylight hours of *Heavenday, Redemption 10, Edenic day No. 1482890* (Monday, March 28). There God's paschal Lamb was selected for sacrifice. (See John 12:12-15; Matthew 21:1-11; Mark 11:1-10; Luke 19:29-44.) This is the day on which Jesus wept over Jerusalem and declared it should be leveled to the ground. (Luke 19:41-44) "And Jesus entered into Jerusalem, and into the temple: and when he had looked round about upon all things, and now the eventide was come, he went out unto Bethany with the twelve."—Mark 11:11.

"And on the morrow, when they were come from Bethany, he was hungry." (Mark 11:12) It takes considerable food to supply the needs of twelve active men, and apparently rations were short or missing for Jesus and His followers on the morning of *Earthday, Redemption 11, Edenic day No. 1482891* (Tuesday, March 29). Some of Jehovah's people today are familiar with the sensation of hunger which led to Jesus' prophetic act. (Verse 13) It was on this day that the second cleansing of the temple occurred. "And when even was come, he went out of the city."—Mark 11:19. (See Luke 19:45-48; Matthew 21:12-16; Mark 11:14-18.)

"And in the morning [*Starday, Redemption 12, Edenic day No. 1482892* (Wednesday, March 30)], as they passed by, they saw the fig tree dried up from the roots." (Matthew 21:20-22; Mark 11:20-25) On this day Christ's authority was challenged by the chief priests and elders (Matthew 21:23-27; Mark 11:27-33; Luke 20:1-8); He spoke the parable of the certain man who planted the vineyard (Mark 12:1-12; Luke 20:9-19); answered the question about the tribute to Caesar (Matthew 22:15-40); spoke about the woman who had seven husbands, and which is the greatest commandment (Mark 12:13-34; Luke 20:20-40); asked whose son is Christ (Matthew 22:41-46; Mark 12:35-37; Luke 20:41-44); gave His condemnation of the clergy (Matthew 23; Mark 12:38-40; Luke 20:45-47); contrasted the ostentatious rich with the poor humble widow who gave her all. (Mark 12:41-44; Luke 21:1-4) On this day Jesus said His hour was come, and on it the Father spoke to Him audibly from heaven. (John 12:20-36) On this day the Jews turned away from Him, refusing to accept Him (John

12:37-50); on this day was the great prophecy spoken regarding the end of the world (Matthew 24 and 25; 26:1, 2; Mark 13; Luke 21:5-38); and on this day Judas made his bargain with the chief priests. (Matthew 26:1-5, 14-16; Mark 14:1, 2, 10, 11; Luke 22:1-6) One can hardly imagine the amount of nervous energy used up in such a strenuous day.

On *Lifeday, Redemption 13, Edenic day No. 1482893* (Thursday, March 31), the disciples prepared for the passover, and that night, after sundown, there was the last supper (Matthew 26:17-30; Mark 14:12-26; Luke 22:7-30; John 13:1-30), and Jesus gave His intimate followers His farewell discourses (Matthew 26:31-35; Mark 14:27-31; Luke 22:31-38; John 13 to 16 inclusive) and the last prayer.—John 17.

On that same day, i.e., *Mansday, Redemption 14, Edenic day No. 1482894, Y.R. 1* (Friday, April 1, A.D. 33), there was the agony in Gethsemane (Matthew 26:30-46; Mark 14:26-42; Luke 22:39-46; John 18:1), the betrayal and arrest (Matthew 26:47-56; Mark 14:43-52; Luke 22:47-53; John 18:1-12), the trial before the Jewish authorities (Matthew 26:57 to 27:10; Mark 14:53-72; Luke 22:54-71; John 18:12-27), the trial before Pilate (Matthew 27:11-31; Mark 15:1-20; Luke 23:1-25; John 18:28 to 19:16), and, of course, the crucifixion and burial.

On *Godsday, Redemption 15, Edenic day No. 1482895* (Saturday, April 2), the priests and the Pharisees had their watch posted at the Savior's tomb.—Matthew 27:62-66.

On *Lightday, Redemption 16, Edenic day No. 1482896* (Sunday, April 3), Jesus was raised from the dead (Matthew 28:1-10; Mark 16:1-11; Luke 23:56 to 24:12; John 20:1-18), and the watch reported their unsuccessful efforts to keep Him in the tomb (Matthew 28:11-15); Jesus took the walk to Emmaus with two of His disciples (Mark 16:12, 13; Luke 24:13-35), and that night appeared to the disciples, Thomas being absent.—Mark 16:14; Luke 24:36-43; John 20:19-25.

Life and Visitation

Awakened from the sleep of death on the day last above named, Jesus "shewed himself alive after his passion, by many infallible proofs, being seen of them forty days". (Acts 1:3) Therefore His ascension into heaven

took place on *Lifeday, Life 24, Edenic day No. 1482935* (Thursday, May 12). Had Jesus not ascended into heaven and there presented the evidence of His perfect work on man's behalf, God's gift of *life* to fallen man would have been held in abeyance. All hope of life for man rests in the fact that Jesus finished in every respect the work the Father gave Him to do, and this included His ascension on high as well as His death. A dead Savior would be a great testimonial of love, but a risen and exalted Savior means *life* to a dead and dying world.

Ten days later, at Pentecost, *Lightday, Visitment 6, Edenic day No. 1482945* (Sunday, May 22), the holy spirit was poured out upon the little company waiting for it at Jerusalem. The name *Visitment* is applied to this month because of this great event. See in the concordance the many, many times in which God promised to visit His professed people, either for good or for ill. This word may be used in respect to either kind of visit; in this case, how gracious and kind!

Thus, of the thirteen months that may go to make up one of the years of Jehovah God, four, *Redemption, Life, Visitment* and *Logos* are named after the doings of God at the time of the first advent of the Lord Jesus Christ. The other months are named after His doings in the last threescore years. In the interim little of real consequence occurred.

The Watchtower—Visitment

The night of darkness that settled down upon the world with the death of the apostles began to be lifted on *Earthday, Visitment 11, Edenic day No. 2157222, Y.R. 1847* (Tuesday, July 1, A.D. 1879), by the publication of the first number of the magazine that Jehovah God has used as His mouthpiece from that time to this. Twice every month it has gone to His people in every part of the world, filled to the brim with the truth as it has become due in these last days. What *The Watchtower* is, and what it does, can be readily learned by any inquirer who will address The Watch Tower, Brooklyn, N. Y., and request a sample copy. The journal is devoted entirely to the vindication of God's name. All its studies in the Scriptures are to that end. It should be in the home of every reader of *The Golden Age*, and, indeed, of every child of God. The month *Visitment* is also appropriately named in that in this month the first

issue of *The Watchtower* appeared. Not only are the contents of *The Watchtower* different, and on a far higher plane than of any other journal in the world, but the Lord's poor have always been able to get it without money and without price, merely by asking for it once a year. Studies in the Divine Word, appearing from issue to issue in *The Watchtower*, often find their way, later, into important books on Bible subjects. The readers of *The Watchtower* get the truths first, and later on the same truths get to the general public.

Under moon No. 73630, *Earthday, Visitment 12, Edenic day No. 2174351, Y.R. 1894* (Tuesday, May 25, A.D. 1926), at London, England, there the 1335 days ended and there began the great era of blessedness spoken of by Daniel the prophet. This blessedness was marked by a testimony to the rulers that Jehovah God has placed His chosen One upon His throne.

Order—1 Corinthians 14: 40

"Order is heaven's first law"; and so that the Lord's work might be prosecuted in an orderly manner in the earth, the Watch Tower Bible & Tract Society was incorporated, on *Godsday, Order 21, Edenic day No. 2159214, Y.R. 1852* (Saturday, December 13, 1884). Back in the days of Judges, the Bible says of the simple pastoral people that then constituted Jehovah's people, "every man did that which was right in his own eyes." But those that then lived in Canaan were not entrusted with a world-wide witness work. Such a course now would be wasteful, disorderly and inefficient in the highest degree. God's work, to be done properly, requires organization, order, system. (Deuteronomy 12:8) The Watch Tower Bible & Tract Society, God's organization in the earth, is today the most efficient organization beneath the sun. The arrangement is of God. The Society was incorporated by men, true, and men carry on God's work, the witness feature; but the witnessing is of God.

The Day of Jehovah

The "Day of Jehovah", "That Day," the "Great Day of God Almighty", began with His placing His Son upon His throne, and commissioning Him to rule in the midst of His enemies. While the Bible is full of pictures representing that epoch, which reaches from the establishment of the kingdom of God in

the earth down to and including Armageddon, yet none seem to represent it better than Moses' errand to Egypt, so forcefully presented in the book *Jehovah*.

Moses, in Egypt, delivering the Israelites, humbling Pharaoh and bearing witness to the approaching vindication of God's name, represents the Lord Jesus, through His organization visible and invisible, doing the same thing, on a colossal scale. The serving of notice on Pharaoh, and the subsequent pouring out of the plagues, engaged Moses and Aaron for 21 days.* Christ Jesus has been reigning in the midst of His enemies 20½ years. The anti-typical plagues, however, did not begin until after the coming of the Lord to His temple, in the spring of 1918. Everything indicates that Armageddon is very near.

It will be a pleasure, now, for Jehovah's people to hastily sketch some of the principal items that have gone to make up the Day of Jehovah and to observe how appropriately the names selected for the remaining months of the year agree with the things that Jehovah God, through His Field Marshal, and His organization, has been doing within that pe-

King

roughout the Elijah period of the activities of Jehovah's organization in the earth, there was repeated insistence of expectation of a great change take place October 1, 1914. How well that expectation was based upon the Scriptures is clearly apparent from comments on pages 423-425 of this issue on "The Times of the Gentiles".

It is now noted that the King came on *Mansday, King 3, Edenic day No. 1470658, B.R. 34* (Friday, October 1, B.C. 2). That was the day that He was born. "Pilate therefore said unto him, Art thou a king then? Jesus answered, Thou sayest that I am a king. To this end was I born, and for this cause came I into the world."

* Others have fancied the plagues extended over long intervals, months or even up to 2½ years, but the reverse view, i.e., that Jehovah God was there to deliver His people and to absolutely crush all opposition by continued and ever-increasing pressure, seems much more reasonable, especially in view of the fact that the expression "tomorrow" occurs so repeatedly in the account. Exodus 7:7: "And Moses was fourscore years old . . . when [he] spake unto Pharaoh," coupled with the fact that he died just forty years (lacking 16 days) afterwards, proves that the plagues all occurred in less than two months up to the passover in the spring of 1515 B.C.

(John 18:37) Christ became earth's righteous ruler 1915 years from the day He was born. In other words, the long anticipated Hope of the World began His reign on *Lifeday, Edenic day No. 2170097* (Thursday, October 1, A.D. 1914). It is from that date that the 1260 days of Daniel 12:7 begin to count.

Because it is the reign of Christ Jesus that constitutes the Second Presence or *Parousia*, it would seem to be not improper to say that the Second Advent occurred on *Lifeday, King 10, Edenic day No. 2170097, Y.R. 1882* (Thursday, October 1, A.D. 1914), under moon No. 73486. He came to bring life to man; He came as man's King; He came to perfectly fulfill His office as the appointed Ruler of the earth, as the symbolism of 10 indicates. Ezekiel 21:27 shows that when Jesus comes God gives Him the Kingdom. Before that coming God did not disclose the day or the hour.

Under moon No. 73548, *Starday, King 6, Edenic day No. 2171923, Y.R. 1887* (Wednesday, October 1, A.D. 1919), the first issue of *The Golden Age* was published. It has always been true to the King, earth's bright and morning Star. Some will notice the "6" and remark that *The Golden Age* is not quite perfect yet; yes, but the best possible under the circumstances. Its columns, also, are full of hope for distressed humanity.

Under moon No. 73572, *Godsday, King 28, Edenic day No. 2172654, Y.R. 1889* (Saturday, October 1, A.D. 1921), *The Harp of God* was published. It is a book of God, a book of the King, now in its 6,000,000 edition, in 32 languages. What hope and comfort it has brought to millions can hardly be estimated. In instances, even clergymen have said of this work that it is the most wonderful book they have read.

Under moon No. 73647, *Godsday, King 4, Edenic day No. 2174845, Y.R. 1895* (Saturday, October 1, 1927), *Creation* was published, one of the most valuable of aids to a comprehension of God's purposes; a perfect harmonization of science and the Bible. In instances this work has been used as a textbook in high schools, in the coal regions, as the most scientific and reasonable record in print as to how the coal measures were laid down.

Under moon No. 73684, *Godsday, King 3, Edenic day No. 2175937, Y.R. 1898* (Saturday, September 27, A.D. 1930), *Light, Books One*

(Continued on page 443)

Suppressing Truth

A five-minute talk

(Part 2)

by Judge Rutherford

THERE are millions of persons associated with the Catholic and Protestant church organizations who desire to know the truth and to do what God commands. If they are not permitted to hear discussed the truth of the Bible, then they cannot learn. The clergy teach the people the same doctrines that they were taught 1500 years ago. The Bible says that greater light shall come to the people at the end of the world. We are now at the end of the world, and greater light has come, and the people must hear the truth.

If the truth when broadcast exposes to view the erroneous doctrines that have long been taught by men such programs are not an attack on clergymen as men, but are for the good of all honest persons because the truth is of greatest public interest, convenience and necessity. The Scriptures declare: 'Let God be true though the truth make liars of all men.' Note some of the doctrines taught by the churches for centuries but which now clearly appear to be erroneous and injurious to the people. One is the doctrine of "purgatory", which teaches that when a man dies he is not in fact dead but that he is conscious in "purgatory", undergoing punishment, and that a Catholic priest by praying for such one in "purgatory" may shorten the term of his punishment, and that the people should pay money for such prayers. The Bible shows such doctrine to be wholly false. The Bible teaching is that when a man dies he is completely dead, cannot feel or hear, and that he knows not anything, and that he is not undergoing punishment anywhere. If the Bible is true, and the doctrines of men false, which one should the people hear? If priests take money from the people with the understanding that it is pay for their prayers to get dead men out of "purgatory", or to shorten their punishment, then that is obtaining money under false pretenses and is to the injury of the people. Is it more important to let the people receive the truth or to keep in vogue false doctrines by which they are injured?

Christ Jesus was raised from the dead, and the Bible teaching is that His resurrection is a guarantee that all who have died shall be raised out of death. Jesus said (John 5:28,

29): 'All in their graves shall come forth.' It follows that those in their graves are not undergoing punishment. The proof shows that your beloved dead are not in "purgatory" suffering, but that when God's kingdom is established all the dead shall be awakened and your loved ones brought back to you. Is the truth more comforting and important to the people than the "purgatory" doctrines which enable selfish men to gain money? Should the people have the opportunity to hear what God's Word says and then each one decide for himself what he wants to believe?

The clergy say that only they can interpret the Scriptures. The Bible says the Scriptures are not of private interpretation. God makes it plain that His due time has now come for all persons to understand the Bible who try to understand it. Jehovah's witnesses are bringing to your attention these great and important truths that you may know what the Bible contains and thus learn the truth and be free from superstition, error and false doctrines that do injury to you. Jesus said, 'Learn the truth, and the truth shall make you free.' Get the books that Jehovah's witnesses bring to you, and thereby learn the truth of the Bible.

Honest persons desire peace, prosperity and life. There is only one way to learn how such blessings can be obtained, and the Scriptures disclose that way. Jehovah God is the Giver of life, through Jesus Christ, but no one can receive a gift without having a knowledge that the gift is offered to him. The clergy talk to the people only about the schemes of men for the peace and prosperity of the world. God in His Word declares that the kingdom under Christ, alone, will bring peace and prosperity. The clergy tell you that the world is growing better, and you know the facts show to the contrary. The Scriptures show that the great crisis has been reached and that the most terrible trouble is just ahead and the only way to escape that trouble is to learn and to follow God's instructions. There is nothing of such great importance to you as a knowledge of the truth, and for that reason Satan and his agents are trying to suppress the truth. But the Lord declares the message of truth shall be established for ever.

[The foregoing is another of Judge Rutherford's "five-minute" talks which have met with such appreciation. This unique series of talks on vital Bible subjects has been reproduced for the phonograph, and the records may be used on the ordinary type of machine. They are being widely used for the home

circle and for passing on to neighbors, friends and acquaintances the Bible's message for today. The records are made by the Watch Tower Bible & Tract Society, Brooklyn, N. Y. Inquiries concerning these records should not be addressed to The Golden Age, but to the Society.]

Jehovah's witnesses

More About "Religious Susceptibilities"

THE MONITOR, official organ of the archdiocese of San Francisco, gives space to the following item:

"Montreal, Jan. 11 (NCWC).—An interesting decision on the question of religious liberty was handed down here Monday by Mr. Justice Charles Wilson of the Quebec Superior Court, in dismissing appeals made by 12 members of the International Bible Students Association from convictions of the recorder of Ste. Rose, Que.

"The 12 were found guilty in connection with the propaganda methods. They gathered outside the parish church at Ste. Rose last August and distributed pamphlets to the worshipers as they left the church after mass and stopped to discuss their beliefs with them. They were arrested and found guilty on charges of violating the Lord's Day Act and of acting in a manner likely to cause disturbance of the public peace.

"Mr. Justice Wilson, in rendering his judgment, said that there was a difference between the exercise of religious liberty and license to offend the religious sensibilities of fellow-citizens. He pointed out that if the group had hired a hall to voice their views no offense would have resulted, but, he added, their action in interfering with citizens peacefully leaving their own church was a different matter."

Justice Wilson is to be congratulated on stating what will or will not offend the religious sensibilities or religious susceptibilities of certain people. But his decision is open to question. In a certain section the Catholics and their religious susceptibilities were so profoundly disturbed and offended that when a hall or theater was hired for the purpose of giving a Bible lecture they saw to it that the speaker was surrounded by machine guns and the place was overrun by "officers of the law" heavily armed. You can never tell about religious sensibilities. They don't seem to have a thing to do with what is fair, honest and just. In fact, the more there is of religious susceptibility, the less of justice, truth and righteousness. It is wonderful, too, what you can get by with when you start hollering about your hurt "religious sensibilities". You can put it all over on the judges and "officers of the law" who would

never bat an eye when you point out the undisputed fact that they are going contrary to the law of Jehovah God.

The Lawless Police of Griffin

THE Atlanta Journal gave no intimation, some months ago, that there had been a convention of Jehovah's witnesses in that city during which thousands of individuals went from house to house, without interference, presenting to the people the gospel of the Kingdom, in printed form. Later, however, when forty of such workers were arrested and jailed by the lawless police of the little city of Griffin, the Atlanta "news" paper in question took pains to mention it and to say that they "were reported to have been selling anti-Catholic literature". The press is not interested in giving the people the facts, but in so misrepresenting the facts that the iniquitous oppressors of the people, political, financial and ecclesiastical, including the lawless police, may continue a little longer in their work of spoliation. Incidentally, that little tell-tale lie, "anti-Catholic literature," shows who were the ones behind the crime of illegal arrest.

Eager to Reproach Jehovah

THE eagerness with which the Associated Press welcomes an opportunity to dishonor the name of the Most High is evidenced from the wide publicity given to the following item, which certainly contains no news value.

BIRMINGHAM, Ala., Dec. 21.—A Negro approached a window in the license inspector's office to-day to buy a tag. As the prospective purchaser gave his name the clerk's pencil stopped; he glanced up in surprise. "Is that your name, or the name of some church organization?" Jenkins asked. "It's my own personal name," the Negro replied, displaying a bill of sale to prove it. Jenkins passed over the tag. It was issued to "Jehovah Witnesses".

This item was given considerable prominence in the press, but when a convention of thousands of Jehovah's witnesses assembles or when a petition circulated by them receives millions of signatures, the public press is entirely silent.

Social and Educational

Federal Strangulation Board

THE tendency to present and support legislation which will suppress free speech and the free expression of opinion in various ways is increasingly manifest in the affairs of America. A bill to censor motion pictures and to prevent the portrayal of certain unwelcome truths is now under consideration. Among other things, the bill provides that no motion picture would be granted a license if not in accord with public welfare; for instance, such pictures as deprecate or ridicule public officials, or officers of the army or navy, or offend the religious beliefs of any person, creed or sect, or ridicule ministers, priests, rabbis or *recognized* leaders of any religious sect. In other words, the clergy are to be made to appear an irreproachable group, whatever they may be in fact. From this standpoint, it would be improper, for instance, to portray the episode enacted in a New York hotel in which a Roman Catholic priest got a newly married couple well drunk and then took the lady to his own room, thinking the man was asleep. The man followed and caught the priest and the woman together, killed them, and also shot himself. Isn't that enough to shock anybody's "religious sensibilities and susceptibilities"? But it happened in real life, so why not stop such things in reality before attempting to suppress their portrayal? Let the truth be told.

Military Service Not Optional

TWO students of the University of California, Los Angeles, were suspended because they refused military drill, basing their refusal on religious grounds. The United States Supreme Court upheld the University's authorities in suspending the students, declaring that the military training requirement is constitutional. The court held that no conscientious objector, student or not, has any constitutional immunity from military service. This in spite of the fact that Jesus said, 'They that take to the sword, shall perish by the sword.' The weapons of the Christian's warfare are not carnal.

Abandoned Railroad Track

DURING the past year and eight months enough railroad track been abandoned in the United States to reach across the country and half way back, or a total of 4,555 miles. Less than 100 miles of new track was laid during that time.

Daily Dog Walking Service, Inc.

JAMES DALEY, of New York, observing what an unpleasant job most people find it to take the dog for a walk, has organized a Dog Walking Service, and will take out a dog every day for \$5.00 a month up per dog. We venture the suggestion that the Dog Walking Service provide each dog walker with a shovel, broom and container. This equipment seems to be a necessary item in the fine art of dog walking. Other refinements may be added with the advancement of science. Of course, it would be much better if there were no dogs to be walked in the city at all. The country is the place for dogs.

Lining Up for the Grand Bust

THINGS seem to be lining up nicely for the grand bust. There are 11½ millions of unemployed in America. The proposals for their relief are a half billion under last year's budget, and, as the work relief program will cost more than the method superseded, the exhaustion of the relief fund will be along by early summer. And then what? Might as well ring up the ambulance.

Are You Chiliastic?

R. ORVILLE YEAGER, of Veedersburg, Ind., who claims the title of "Reverend", says that the chiliastic view is heretical. A chiliast is one who believes that Christ will reign upon earth a thousand years. No doubt the "Beverend" considers the apostle John a chiliast and a heretic; for John wrote the words of Revelation 20: 4-6.

How He Got the Dollar

TONY N—— (Minnesota) says: "Yesterday a buddy stopped me on the road and wanted to buy my American Legion cap. After I had given him the reason why it would never fit my head again, he still wanted it; so the deal was made. Here is the dollar for a year's subscription for *The Golden Age*."

New York's Poor Man's Court

NEW YORK, N. Y., has opened a poor man's court at which, though not debarred, lawyers are not welcome. Claims above fifty dollars are excluded. Plain English is used instead of legal phraseology. The cost of a trial is only \$1.25.

Eureka

ONCE upon an evening dreary I was searching, weak and weary (And I hoped I would not have to search in vain), Through a mass of reading matter, Most of which was hopeless chatter, For a good outstanding magazine, When at last a cover page, On it written "GOLDEN AGE", Came to view and fairly took me off my feet. Then I knew my search was ended, And that now I was befriended, By a magazine no mortal mind can beat. You may have your numerous volumes With their long and tedious columns; This new find of mine contains them all in one. In concise and pungent dictum It brings forth the world, a victim, Holds it up and slowly turns it 'round and 'round. As it turns we see its actors, Good and bad, and all the factors In this life of joy and hope and greed and woe. So, my friends, if you would gather Truth from all the reading matter, To *The Golden Age* forthwith you'll surely go.—E. D. Eales, with apologies to Poe.

Mr. Hershey's Viewpoint

MR. HERSHEY, chocolate manufacturer of Hershey, Pa., has had a lot of fun providing orphan boys with educational opportunities. He started with two boys, and now has built an industrial school which will accommodate 1500 pupils. At the dedication of the new building which was recently completed Mr. Hershey said: "I had no idea what would happen or how it would grow. I thought that if it grew to provide for 100 boys it would have been a good job. I hope to see this school carry on to new heights. After a man dies he cannot spend his money, and it has been a pleasure for me to spend mine as I have done."

Old Enough to Know Better

THROWING stones at trains is dangerous business. Three boys, aged 8, 9 and 10, indulged in this pastime and broke 25 windows, in 13 trains, injuring 23 passengers, on the New York Central railroad. One of the boys was the son of a policeman.

Two Children Each in Massachusetts Families

IN THE state of Massachusetts there are 1,070,970 families, with an average of 4.017 persons per family. There are 1,808,840 employable persons in the state, which is 42 percent of the population.

Celebrating Christmas

CHRISTMAS tree candles or short circuits in Christmas tree electric wiring caused a number of tragedies. Three children and their mother died in a tree fire in Joplin, Mo., and a similar group lost their lives in another such fire at Sedalia, Mo. For the first time in many years there were no reports of poison liquor cases as compared with the large number of holiday deaths during prohibition years. There were many accidents due to automobile drivers' being intoxicated, however.

Self-Tuning Radio

A NEW radio set has been invented which will tune to any one of seven radio stations desired at any time during twelve hours. Surrounding the clock are little holes or sockets into which cords can be plugged which connect the radio with the desired station or stations. The sockets are fifteen minutes apart; and when the hour hand points to a socket that has been connected with a certain station the radio will tune in on that station.

Crime in the Grand Style

CRIME costs the United States \$12,000,000,000 a year. This branch of present-day civilization gets and spends more than the income of the United States government itself. The United States homicide rate is fifty times that of Great Britain. Now that the rich are in danger as a result of the increased activity of kidnapers, an effort will perhaps be made to do something about the crime situation.

Old Manuscript Found

A PILE of dusty manuscripts found in a Cairo bookshop was discovered to be a portion of the Bible, written in the second century. It is the oldest manuscript copy of the Bible yet found. The next oldest manuscript dates back to the fourth century. The manuscript included the gospel of Matthew, Paul's epistles and portions of the Hebrew scriptures.

Talking Books

BOOKS that talk will soon be a possibility and a probability. It will merely be a matter of recording the book on a film and then having an electric eye projected through the sound tracks, of which there can be several on one film, each representing an installment or chapter in the story.

Transportation Items

Santa Monica's Municipal Buses

MANY Santa Monicans make their living in Los Angeles and therefore have to go back and forth every day. A few years ago the only way to get to Los Angeles was by railroad, and the fare was 30c one way, 55c for round trips, and a slightly lower rate for monthly tickets. The Santa Monicans decided that this was too much for its commuters, and so set about to provide municipal transportation service. Motor coaches or buses, 33 feet long, were purchased, eight to begin with, and others were added as needed. They weigh eight tons each, and carry 31 passengers. By this time the original buses have been driven 700,000 miles, four others have covered 500,000 miles, and two bought still more recently have 300,000 miles to their credit. And the fare is now 15c to Los Angeles, the distance from Santa Monica to that city being divided into three 5c zones. The bus line pays its executives less than private companies do, but the drivers receive 50-percent more than do drivers of a competing privately owned transit company.

Heads We Win; Tails You Lose

UNDER laws kept on the books by the influence of the shipping lobby the liability of the owners of the Morro Castle cannot exceed the present value of the wreck, and collections made from passengers and sale of cargo. Because the vessel is a complete loss, the Ward Line collects and keeps all the insurance. Its liability for damages is reduced almost to zero. Heirs and dependents of the 134 who died in the disaster have brought suits against the company for more than \$1,000,000, but the company went into Federal court and asked for an order limiting its liability to \$20,000, in spite of the fact that it had already arranged to collect several millions in insurance. An American steamship company finds it more profitable to lose a ship than to salvage it, hence an "SOS" is likely to be delayed, even though passengers are in danger. In the case of the Vestris disaster it was charged that this is exactly what was done.

Too Much of a Strain?

H. D. ROBINSON, the engineer who piloted the new streamlined, Diesel-engined train most of the way across the country, from Los Angeles to New York, completing the run in 56 hours 55 minutes, fainted in the New York station when he tried to tell his story to a battery of newsreel operators.

TVA Brings About Lower Power Rates

THE low rate for electricity in the Tennessee Valley has resulted in reduction of power rates in portions of eleven states to the extent of effecting a total saving to consumers of approximately \$15,000,000 yearly. Using the increased consumption of electric power under TVA rates at Athens, Ala., as a gauge, Edward Falck, TVA rate engineer, estimates that under like circumstances and conditions the entire United States would use twenty-one billion kilowatt hours of electricity at a cost of \$463,000,000 instead of the twelve billion kilowatt hours at a cost of \$633,000,000 as reported for 1932 by the census bureau.

New Trolley Car in Brooklyn

BROOKLYN has a new type of trolley car, just one, so far. It is built along modern lines, similar to the new streamlined trains, with the sides extended almost to the street, covering the wheels and giving the car a trim appearance. Windows are operated by means of turning handles, as in automobiles. Lighting is indirect. It has aluminum handrails and fittings. The use of aluminum for exterior trimmings and fittings is objectionable, as it is known to corrode rapidly.

Record Crossings of the Atlantic

THE Bremen, crossing the Atlantic for the 100th time, made the trip in four days 14 hours 27 minutes, established a record run for the North Atlantic trade, though the weather was not entirely favorable. The Italian liner Rex, however, still holds the record for Atlantic crossings, winning the blue ribbon in August, 1933, crossing from Gibraltar in 4 days 13 hours 58 minutes. The Bremen's route was from Cherbourg.

\$25 Fee to Be a Truck Driver

MAYBE you have thought it might be a good idea to come to New York and get a job as a truck driver. But don't come unless you have \$25 initiation fee, to get into the truck drivers' union; and if not in the union it is useless to drive on the piers, as the longshoremen refuse to handle goods from non-union trucks. Life gets more and more complicated every day.

"Glad Now I Listened"

"THIS was the first time I heard Judge Rutherford speak over the radio, and I am glad now that I listened in."—Mrs. J. N., Ohio.

Attempts at Government

If It Be So, Why Is It Thus?

AN ITALIAN, in the *Pittsburgh Press*, asks the following questions with reference to Fascism: "If it uplifts the classes, why is it necessary that every third person in Italy be a policeman, a guard or a spy? If it celebrates a new enlightenment, why does Mussolini say, 'We must furnish the brains of our people less sumptuously in order to build up their character,' and then spend money intended for schools to the building of battleships? If it corrects our institutions, why has Mussolini found it necessary to announce five times the establishment of corporative state, officially, and yet no such corporative state exists? If it means a frank facing of facts, why is there such a tight censorship on news from Italy, so that we hear of the many peasant revolts and farmers' uprisings by letter only months later? If Fascism inspires the respect of the masses of Italian people (and I have far too great faith in my own people to believe that), why does Mussolini find it important that when the people vote they vote 'yes' for Mussolini on a blue ballot and 'no' on a pink as guards watch?"

It Looked Suspicious

SENATOR CLARK, addressing the Senate in connection with the munitions inquiry, said: "Loudly proclaiming our devotion to the cause of disarmament, we in the last Congress aroused suspicion throughout the world and probably caused the start of another disastrous naval-building race by authorizing more than \$1,000,000,000 for additional warships." He asserted that the existence of an international munitions ring is well known and that indisputable evidence had been found of intimate connection between American munitions firms and those of the chief countries of the world. Senator Pope said: "The nations of the world seem to be in the grip of some monster that is driving them to destruction. Preparations for the next war are feverishly under way. That it is inevitable is widely assumed."

"Alone on the Range"

THE *Nashville Tennessean* has a good take-off on the NRA. It is a cartoon of the blue eagle cooking in a pot on a hot stove entitled "Criticism of the NRA". As he cooks the eagle screams, "It is not the heat; it is the 'Hugh'-midity." The title of the cartoon is the popular song "Alone on the Range".

The Boy Who Made the Best Choice

THREE Indiana boys walked twelve miles to a distant town, robbed a grocery, and each carried back a twenty-pound load of food for the folks at home. Arrested, tried and found guilty, the presiding judge offered each boy his choice of a term in a reformatory or, for sixty days, he must walk every day the 24 miles and carry his twenty-pound load. On Saturdays and Sundays the lad need walk but one way. Two of the boys chose the reformatory sentence, but one of the boys chose the better part. Throughout the bitterest winter weather, at last accounts, he was walking out his 1,248 miles. He is not allowed to accept rides. He will emerge from his experience in better condition physically, mentally, and morally than the boys who chose the reformatory sentence.

In the Detention Camp at Fort McPherson

IN THE detention camp at Fort McPherson, Ga., thirty-three persons who had committed the crime of being hosiery workers and wanting better working conditions were confined in a garage not provided with sanitary conveniences. Cases of trench mouth developed, due to the use of aluminum vessels for drinking water; there was no floor to the garage; the furnace leaked, and made the men sick. Rats in the adjoining storeroom kept the men awake at night. Towels and soap were issued after three days. Two meals a day were served, with the diners standing. Letters written by prisoners to their families were not delivered. When the hosiery workers emerged they were verminous. Hitler papers, please copy.

\$13,500 to Watch Nine Rooms

TEN watchmen guard the entire Empire State building, tallest business structure in the world. The Tammany administration had that beat all to pieces. They had nine watchmen at \$1,500 each watching nine rooms. Maybe the real method pursued was to give each watchman three rooms to watch, while the other six were official watchmen or superintendent watchmen or overseer watchmen, or whatever would look best on the pay roll. Indeed, one man could have done the whole work and had time to spare, the idea being that the other eight could go to Miami or Palm Beach or wherever else they wished to go, only having representatives on hand at pay day, Tammany style.

Science and Health

How About It?

“ALMOST all of the new patients coming to us for treatment are suffering with aluminum toxemia, and don't know it. In our examination we always test for at least two forms of aluminum poisoning. We will not treat patients if they continue to use aluminum cooking utensils, after we tell them what aluminum will do. In fact, we do not take their word regarding their doing away with aluminum utensils, as we always test them for this poisoning each time they come to the office for treatment. In the two years we have been preaching against these utensils we have had only three patients who would not co-operate with us. Whenever we have an opportunity to explain what this form of poisoning will do, we make good use of the time. We have been privileged to acquaint hundreds in the past two years.”—S. M. L., *Ohio*.

Synthetic Rubber Tires

IT IS anticipated that synthetic rubber tires will soon be on the market. These tires have been subjected to severe tests and compared with natural rubber tires, proving to be quite as tough and as durable. Coal, limestone, salt and water are among the materials used to make the tires, which are said to be better able to resist the destructive effect of gasoline and kerosene and to be more resistant to the action of air and chemicals of certain kinds than natural rubber.

Thumbs Down on Aluminum at Fresno

SAYS H. A. Scott, California: “Rev. Powell's church at Fresno received the silver (?) communion set from the church at Pinedale when that prosperous community closed at the beginning of the depression. So many were made sick at the communion services from the wine served in supposedly silver cups that when the cause of the trouble was discovered the church was compelled to get a real silver set.” Thus ended the aluminum communion services.

Insulin Increases Number of Diabetics

INVESTIGATIONS carried on by physicians have convinced them that diabetes is hereditary, and that since the discovery and use of insulin as a curative agent for this trouble the number of diabetic children in the United States is increasing at the rate of a thousand a year.

Mechanical Cotton Picker

JOHN and MACK RUST, of Lake Providence, La., claim to have perfected a machine that will pick cotton, an acre an hour, taking the place of a hundred workers. It removes the cotton without use of hooks or claws, but uses instead a smooth spindle, which rotates rapidly and is moistened when it enters the boll, twisting out the cotton.

Cure for X-Ray Burns

X-RAY burns do not heal, the only effective cure being by means of skin grafting. It has now been discovered that the leaf of the aloe vera, a large, green, cactus-like plant, will heal the burns without the need of grafting. This plant, however, is scarce, and obtainable only in parts of Florida, the islands of the Caribbean, and South Africa.

Fireproofing Cloth

CLOTHING or drapes soaked for five minutes in a solution made of one pound of ammonium phosphate and two quarts of cold water are said to be fireproofed, when dried. The powder sells for about 25c a pound. Articles treated in this way remain fireproof until washed or otherwise soaked.

“G. A.” Readers Could Tell Them

UNIVERSITY hospital authorities are awaiting the reports of chemists and bacteriologists engaged in attempting to trace the source and nature of a food infection which rendered 150 nurses and internes of the institution violently ill Sunday evening.”—Ann Arbor (Mich.) *Daily News*.

Nerve Grafting for Facial Paralysis

FACIAL paralysis has been overcome by grafting in nerves from another part of the body. Such operations have been performed at the New York Hospital and Cornell University Medical College Centre.

Watch Your Fish Bowl

SHINING through a fish bowl and focused to a point of great heat, the sun set fire to a pair of mittens lying beside the bowl in the home of Mrs. Sutton of Penn Yan, N. Y. The fire spread and did \$500 worth of damage.

Poisoning Department

Silly Health Columns

MUCH of the advice found in so-called "health columns" is written by individuals who know on what side of their bread the oleomargarine appears. Wonder why they are so anxious to tell you that aluminum cooking utensils are O.K.? And again, they are sure that white bread is all right for you, even though, if you eat enough of it at one sitting, it forms a sticky and pasty mass in your insides which acts as a plug somewhere on the way through your anatomy. Then these wise "health" writers will tell you that, of course, you need the roughage that there is in the grain, but this can be supplied in some other way. So then, there is the very sensible procedure of removing your roughage from the grain and then supplying it in some other way. Why not leave it there in the first place, in the proportion and balance in which the Creator provided it? Also, the mineral salts in the grains are a very valuable and important part of it. Why remove these and lose the benefit to be derived from their assimilation?

Not Selling Cooking Utensils

THE GOLDEN AGE does not care what kind of cooking utensils you use. It isn't even concerned if you insist upon using aluminum of any kind. That is your privilege and responsibility. But it will not cease to warn those who are interested in their health that aluminum is injurious to the health in numerous and various ways. There is no question about this whatever. Thousands of tests upon human creatures (not guinea pigs), though unwittingly made, prove that aluminum is poison. The aluminum trust may as well use the metal for some other purpose, for people are going to stop using it, more and more. The foregoing statement is made because of the following vague item which appeared in the *Scientific (?) American*:

"Statements to the effect that the use of aluminum cooking utensils causes cancer or other grave maladies or of the increase of such disorders among the users of such utensils, will be discontinued by an individual engaged in the sale and distribution of cooking ware, as a result of a stipulation [?] of the Federal Trade Commission. Several other representations will be abandoned by this individual, [?] including one to the effect that thousands of people are dying every day from cancer because of their

use of aluminum cooking utensils, and one to the effect that doctors and hospitals are now advising people against the use of aluminum utensils because of poisonous effects."

Also, the *Tacoma News* carries a large advertisement that "Aluminum Is Not Injurious to Cook With". This is all very interesting; for the more the advertisements say that aluminum is *not* poisonous, the more people will suspect that there is something rotten in Pittsburgh. Now what would you think of a person who came to you with the assurance that he or she was *not* a thief, and insisting loudly that you ignore any statements to that effect? You would consider him rather odd, to say the least.

There are numerous doctors who warn their patients against the use of aluminum, and there are thousands of persons who have found out through painful experience what effect food cooked in aluminum is likely to have upon them.

Aluminum Yet Again

LADIES of the Lutheran Reformed church of Sunbury made a potato salad for the Sunday school picnic and placed it in aluminum containers. The picnic was postponed on account of rain, and the salad remained in the aluminum vessels overnight. Next day 30 persons attending the picnic were made violently ill. Now, if these ladies had been reading *The Golden Age* nothing of the kind would have happened. The newspaper reporting this poisoning bee mentioned the aluminum container by name, a flagrant breach of Mellon etiquette. This was mentioned in *The Golden Age* last summer, but the information is of value and worth repeating.

Lemon Juice, Aluminum and Cider

WRITES H. G. Begeman, New York: "I remember, years ago, we took an aluminum flask along when hiking, and one day, when it was filled with lemon juice, it was partly dissolved and leaking. I have thrown out our aluminum kitchen ware. . . . One night after supper I had two glasses of apple cider, and shortly afterwards noticed an unusual fluttering of the heart, followed by extreme weakness, which seemed almost to stop the heart. I assume that this was caused either by poison with which most apples are sprayed or by benzoate of soda (too large a dose) used as a preservative and sanctioned by the law, although it is very detrimental to the heart."

"Religious" Miscellany

General Butler at B'nai Jeshurun

THE conviction that war is a racket of gigantic proportions is spreading. Speaking to the Congregation B'nai Jeshurun, of New York, General Butler said:

"The churches pepped the boys up in 1917. The next time the people who believe in God cannot preach to the soldiers that war is a holy crusade. It's not. It's the greatest curse of the civilized world, the greatest international racket. . . . The war never brought this country anything. A few insiders made the profits. The International Nickel Company earned 1,800 percent profit. The government bought \$20,000,000 worth of mosquito nets. And there wasn't a mosquito in France. Thirty-five million pairs of shoes, for only 4,000,000 men, when every pair of shoes would last a year. One billion dollars' worth of airplanes that wouldn't get off the ground. . . . Amend the Constitution and change the method of declaring war. . . . Let only those who are going to do the dying do the voting. The story would be different. I beg of you not to espouse a cause of any kind that might force us to war outside the United States. Let's be sure our homes are in danger before we fight. It's up to us. It takes courage. You may be ostracized. But that's nothing. Nobody speaks to me now."

Where Was Jesus?

THE question of Jesus' whereabouts from His 12th to His 30th year has often been a matter of speculation with those who are unwilling to accept the Bible's testimony as sufficient. Some who consider themselves very wise contend that Jesus visited India during that time. Others, that Jesus was a Master of the Sacred Ancient Mysteries, being initiated into the order in the secret chambers of the Great Pyramid of Egypt! But what does the Bible say? "He went down with them [Joseph and Mary], and came to Nazareth, and was subject unto them." (Luke 2:51) "Is not this the carpenter, the son of Mary, the brother of James, and Joses, and of Juda, and Simon? and are not his sisters here with us?"—Mark 6:3.

Divorce War God

DR. LOUIS L. MANN, of the University of Chicago, told 1,000 women delegates to the National Conference on the Cause and Cure of War that religion should never again bless war. He said: "If religion everywhere would boycott war there could be no war. There should be no chaplain in any army. A chaplain is not there to comfort the dying and bury the dead. He is there to give divine sanction to the hellish business of human slaughter."

What the Bishop Thinks of His Flock

SAID Bishop Charles Wesley Burns, addressing the members of the Tremont Street Methodist church, Boston: "The average person has a moronic intelligence of seven and one-half years, and the way to bring a man to God is through his emotions rather than his intellect." In pointing out the strong swing towards things scientific, Bishop Burns told his hearers that in time to come agriculture, industry, and mining would cease to exist. "Everything will be made in the laboratory and we will live on pills. The church has recognized this and is detouring from philosophy to science." No doubt this explains why "the church" has so long been trying to feed the people on such pills as "eternal torment", "inherent immortality," "trinity," etc., and kept them from the food which the Word of God contains. The bishops appear to have much in common with their flocks as far as "intelligence" is concerned. And the flocks for the most part show that they are not so moronic as their leaders credit them with being. At any rate, many of the sheep are turning down the pills and looking for real food.

Dominie Hopes to Win Calluses

A LONG ISLAND episcopal dominie has given up all hope of ever being of any use to his fellow men, but still hopes to raise a set of calluses. He aims to get these on his knuckles instead of on the palms of his hands. He writes to his favorite church paper, "Please do not put any address (for me) in the 1935 annual, as I expect to be a tramp." If any of Jehovah's witnesses notice somebody with a downcast countenance and a lugubrious tone of voice rapping for handouts, they will please wait in respectful silence until the gentleman of the cloth has onward wended his weary way. In his new avocation the gent will at least not be doing anything to push his fellow citizens farther into the muck. He is leaving the world's most disreputable business.

Governor Backs Clergymen

GOVERNOR JAMES M. CURLEY, of Boston, does not want justices of the peace to perform marriage ceremonies, and tells them to expect no reappointments from him if they do. He wants all the business to go to the clergy, in spite of the law that empowers justices to perform such ceremonies. Wonder what church the governor belongs to.

"Holy Murder"

HOLY MURDER, a book by Charles Kelly and Hoffman Birney, tells of the career of Porter Rockwell, who became chief of the secret police of the Mormon church in the early days of its history. This body of men was called "the Danites", and killed those who were likely to be dangerous to the "Church of Jesus Christ of Latter Day Saints". That was their job, their bloody oath binding them to obey the "prophet", Joseph Smith, and his successor, right or wrong, and never to tell anybody about the source of their orders. Porter Rockwell was the most notorious of the Danites, and has at least a hundred murders charged to his account. In many cases the property of the murdered person was confiscated and given to the church.

Kashruth Kosher Killed Poultry

ACCORDING to an "issur" pronounced by the Kashruth Association of rabbis New York Jews are forbidden to eat poultry that does not bear the seal of the Kashruth Koshers. As about a million dollars' worth of kosher poultry is eaten in and about New York every week, the dealers felt very badly about this regulation. The poultry dealers say that to comply with the demand of the rabbis would put many of them out of business by forcing up the price of poultry bearing the seal. It would seem that the dealers doubt the willingness of the orthodox Jews to pay fancy prices for sealed poultry.

Horses in Heaven

DR. F. J. PRETTYMAN, dean of the pastors of the Baltimore conference of the Methodist Episcopal church, South, is of the opinion that the old Methodist circuit riders, who spent almost as much time on horseback as on the ground, would not feel at home in heaven without their horses. He said that John Wesley believed in the immortality of horses. By such absurdities have the clergy misrepresented the truth, and made the Word of God, which they profess to believe, ridiculous.

Wants President to Help Unemployed Ministers

REVEREND CARLETON E. WHITE, of Chase City, Va., has written President Roosevelt that there are 20,000 ministers that nobody wants to hear talk, or to support, and wonders if some way cannot be found to give these useless men something to do.

'Playing on Emotions'

THE New York *World-Telegram* recently said, editorially:

At the closing sessions of the Interstate Evangelistic Association rally in Calvary Baptist church a resolution was passed opposing pacifism on the grounds that it "played on the emotions, causing men to make pledges which were impossible to keep, and are unconstitutional, disloyal, unpatriotic and unchristian". By what strange twist of the human mind can a body of men whose lives are presumably dedicated to the one altruistic profession in the world, the tenets for whose guidance contain the injunction, "Thou shalt not kill," solemnly repudiate the specific teachings of the Book and ally themselves on the side of the jingoes and the munition makers? It is a sad thing when the guides of human conduct retreat into the murk of reaction and substitute the words "unconstitutional, disloyal, unpatriotic and unchristian" for "faith" and "hope" and "charity". And as to 'playing on the emotions', what body of men other than the clergy have recourse to that expedient oftener than the gentlemen who have passed these harsh, militaristic resolutions?

A Pastor's Conscience

THEDO. SHEPARD, of Humboldt, Nebr., had no objection to serving as an army chaplain, but he drew the line when he was told to attend a dance. That was going too far. He said: "From my experience I would say that chaplains are not allowed to be real pastors in the army; they are under the thumbs of their commanding officers, and church and conscience mean nothing at all."

God's Eternal Covenants

DR. ALEXANDER B. WINCHESTER, of Knox church, Toronto, gave a talk on the everlasting covenants of God. In considering this subject of the covenants the doctor is on the right track. Now, if he will carefully and honestly read the book *Jehovah*, issued by the Watch Tower, he will get a rich blessing.

The Second Hand in the Timepiece of God

(Continued from page 432)

and Two, were released, making the hitherto mysterious Revelation of John as clear as the noonday sun. These works present the physical facts of the fulfillment of The Revelation, and show the things that must shortly come to pass.

Under moon No. 73696, *Heavenday, King 1, Edenic day No. 2176289, Y.R. 1899* (Monday, September 14, A.D. 1931), the booklet *The Kingdom, the Hope of the World* went to the rulers of earth. All can see the appropriateness of this going out on *King 1*. It contains the grave message for all who govern that they must come squarely over on the Lord's side or perish in Armageddon.

Temple and Sanctuary

The Lord Jesus came to His temple in the spring of 1918. There the sleeping saints were awakened. There the purification of the truth began. "Behold, I will send my messenger, and he shall prepare the way before me: and the Lord, whom ye seek, shall suddenly come to his temple, even the messenger of the covenant, whom ye delight in: behold, he shall come, saith [Jehovah] of hosts. But who may abide the day of his coming? and who shall stand when he appeareth? for he is like a refiner's fire, and like fullers' soap: and he shall sit as a refiner and purifier of silver; and he shall purify the sons of Levi, and purge them as gold

and silver, that they may offer unto [Jehovah] an offering in righteousness."—Malachi 3:1-3.

It is of great interest at this juncture to have a little table of Jehovah's calendar for this period. The hours, except for the top line, are assumed, to fill out the table.

One dare not say that the anniversary, in 1918, of Jesus' resurrection marked the exact date of the resurrection of the members of His body, but it would have been a most appropriate day. According to the Devil's calendar it would be four days earlier in the year than the day of Jesus' resurrection (because *Redemption 1* in A.D. 1918 was 4 days earlier than in 33), and it was one day earlier in the week, but the correspondency is very close, and there seems no harm in holding to the thought that on *Godsday, Redemption 16, Y.R. 1886* (Sat., March 30, A.D. 1918), the sleeping saints were awakened.

Historically, it is true that about that time judgment began at the house of God (Malachi 3:5), and it therefore seemed that the last month of the year should be called *Temple* (when there are but twelve months in the year). When there are thirteen months in the year, *Temple* is the twelfth month, and *Sanctuary* the thirteenth. The last month of the year included April 1 in the *Years of Ransom 1883, 1886, 1889, 1891, 1894, and 1900* (A.D. 1916, 1919, 1922, 1924, 1927, and 1933).

WHEN THE LORD CAME TO HIS TEMPLE—IN 1918

Vern. Equi.	Moon No.	Hour	Day of Week	Edenic Day No.	Month	Day Y.R.	Hour	Gregorian Date	Year A.D.	Item

*The prime factors are 2 x 2 x 3 x 3 x 3 x 5 x 4021.

Freedom

Freedom is on the way, and will be here in God's due time. It is not God's will that men should be slaves to Big Business, Big Politicians, Big Clergy, or any other kind of "big guns". All these have been hard taskmasters. Under moon No. 73607, *Mansday, Freedom 22, Edenic day No. 2173682, Y.R. 1892* (Friday, July 25, A.D. 1924), at Columbus, Ohio, was sounded the third trumpet, "Civilization Doomed," exactly ten years, to the day, after the opening of the World War.

Under moon No. 73631, *Earthday, Freedom 3, Edenic day No. 2174372, Y.R. 1894* (Tuesday, June 15; A.D. 1926), the *Watchtower* magazine first announced *Deliverance*. This book is perhaps the first ever published to be dedicated to Almighty God. Its chapter on The Deliverer (96 pages) is the finest life of Christ ever written. This work has encouraged millions to anticipate freedom in God's appointed way.

Under moon No. 73644, *Lightday, Freedom 24, Edenic day No. 2174776, Y.R. 1895* (Sunday, July 24, A.D. 1927), at Toronto, Ontario, Canada, there went out to all the world the message "Freedom for the People" on what was, until then, the greatest radio broadcast in history, and which broadcast was free. This message, the sixth vial of God's wrath, was a message of freedom for all who desire truth and righteousness, and they are to be found in all walks of life. The Lord is impartial. No one is necessarily condemned by Him because of having some of the good things of life, or necessarily approved because he has little, or vice versa. For example: A business man said, "Sure, I will contribute \$1 for your books, but what I really want is that lecture, 'Freedom for the People'; I heard it, and consider it well worth \$1 of any man's money." An evidently wealthy woman said, "Of course I want what you have shown me: I heard that lecture; that man took his life in his hands to give the people the truth." Though it was their masters that sought and accomplished Jesus' death, yet it was the servants that "plucked off the hair" and spat in His face. It was this lecture that caused the fourth month to be called *Freedom*.

Vindication

Now, in the Day of Jehovah, it fully appears that the key to an understanding of the Scriptures is in the vindication of God's name. Un-

der moon No. 73657, *Lightday, Vindication 18, Edenic day No. 2175154, Y.R. 1896* (Sunday, August 5, A.D. 1928), at Detroit, Michigan, there was delivered to all the world the message that Jehovah God is the peoples' Friend, and His name will be vindicated by the establishment of a righteous government in the earth. At that time two of the most important books in the world were released to the people, *Government*, which has been placed in the hands of every important public official, besides several millions in other hands; and *Reconciliation*, which latter is a plain statement of the gracious provision Jehovah has made to bring all men into full harmony with Himself, that the obedient ones may have everlasting life on earth in contentment and complete happiness. Among intelligent, thinking people, no other such constructive work on government* has ever appeared as the work first named. It presents indisputable evidence showing that the peoples of earth shall have a righteous government, and explaining the manner of its establishment. Many of Jehovah's witnesses make the *Government* book their leader, as it goes to the heart of all the difficulties of earth.

One of the most fascinating pictures of the vindication of Jehovah's word and name is that provided by the book of Job, first explained in *Life*. This book, also, was the first book to have a chapter heading "Vindication". The work was issued under moon No. 73669, *Heavenday, Vindication 7, Edenic day No. 2175498, Y.R. 1897* (Monday, July 15, A.D. 1929). In this book it now plainly appears that the terrible experiences of the prophet Job represent the awful experiences that have befallen the human family under the reign of Satan, but as Job finally was granted a great deliverance, so mankind is coming grandly into the golden age of glory and peace and joy and divine blessing everywhere promised in the Holy Word. One of the hardest things mankind has had to bear under the reign of the Devil has been the brand of "comfort" (?) provided by the purveyors of hell-fire or purgatory at so much per.

Under moon No. 73694, *Lifeday, Vindication 13, Edenic day No. 2176243,† Y.R. 1899*

* It is the government of God that vindicates His name, and therefore the doctrine of government is the most important doctrine in the Scriptures.—Luke 8:1; Acts 20:25.

† Four days earlier, *Lightday, Vindication 9, Edenic day No. 2176239* (Sunday, July 26), Jehovah's witnesses accepted that name as their "new name", with all that it implies.

(Thursday, July 30, A.D. 1931), at Columbus, Ohio, *Vindication*, Book One, was released. Under moon No. 73706, *Heavenday, Vindication 6, Edenic day No. 2176590, Y.R. 1900* (Monday, July 11, A.D. 1932), *Vindication* Book Two was released. A week later, *Heavenday, Vindication 13, Edenic day No. 2176597* (Monday, July 18), *Vindication* Book Three was released. Jehovah's holy name will be vindicated by the elimination of all unrighteousness from the universe. The testimony of Ezekiel's prophecy, sealed until the publication of these books, announces the judgments of God against all, in heaven or in earth, that have participated in the defamation of the name of the Most High. Since these studies were completed, God's object in writing the Scriptures, and the manner in which they are to be understood, are clearly revealed. In the last of these three wonderful books the Jonadabs (people of good will foreshadowed by Jonadab) are Scripturally identified as the "millions now living that will never die". The destruction of the Devil and all his forces is imminent.

Hope

Hope for fallen man is a gift from God, and is so stated in His Word. Under moon No. 73547, *Mansday, Hope 10, Edenic day No. 2171897, Y.R. 1887* (Friday, September 5, A.D. 1919), at the international convention of Jehovah's witnesses at Cedar Point, Ohio, the house-to-house witness work was covenanted by Jehovah's people, and has since that time resulted in placing about two hundred million pieces of literature, many millions of which were bound books (and the rest booklets), in the hands of the people, for their comfort, their uplift and their hope in the dark hours of this dark day before the dawn of the glory just ahead.

It was under moon No. 73584, *Mansday, Hope 15, Edenic day No. 2172996, Y.R. 1890* (Friday, September 8, 1922), at the second international convention of Jehovah's witnesses at Cedar Point, Ohio, that the spirit was poured out upon all flesh. (Joel 2:28) There all of Jehovah's people became publishers of the truth. There ended the 1290 days of Daniel 12:11; there began the 1335 days leading up to the peculiar blessedness upon the people of God. (Daniel 12:12) The world may as well know of these facts: their value will be apparent to all in due time.

Under moon No. 73596, *Godsday, Hope 11,*

Edenic day No. 2173347, Y.R. 1891 (Saturday, August 25, A.D. 1923), at Los Angeles, California, "the Second Angel" sounded THE WARNING (a resolution). Man has hope, yes; but hope brings responsibilities which cannot be set aside.

Under moon No. 73621, *Godsday, Hope 8, Edenic day No. 2174082, Y.R. 1893* (Saturday, August 29, A.D. 1925), at Indianapolis, Indiana, was adopted the resolution called "Message of Hope", from which this month takes its name.

Order and Peace—at Last

Under moon No. 73661, *Lifeday, Order 2, Edenic day No. 2175256, Y.R. 1896* (Thursday, November 15, A.D. 1928), there was published in *The Watchtower* the truth about the Great Pyramid; and the same subject was continued, under the same moon, *Godsday, Order 18, Edenic day No. 2175272, Y.R. 1896* (Saturday, December 1, A.D. 1928). The removal of this entanglement from the paths of Jehovah's people has been a great blessing and has resulted in order and peace where before there was disorder and confusion.

Under moon No. 73673, *Lifeday, Order 25, Edenic day No. 2175634, Y.R. 1897* (Thursday, November 28, A.D. 1929), the work *Prophecy* was released. Never before has there been a book published that makes clear so much of the prophecies of the Bible as this book. Because it is now God's due time to make clear His prophecies, any unbiased student can now see much of the fulfillment thereof. An understanding of prophecy establishes faith and confidence in God and lifts many burdens from mankind. *Prophecy* has brought order and peace to the minds of lovers of God's Word in every land. (See chapters entitled "God's Organization" and "Peace".)

Under moon No. 73710, *Starday, Order 2, Edenic day No. 2176704, Y.R. 1900* (Wednesday, November 2, A.D. 1932), the work *Preservation* was released. Two of the most beautiful books of the Bible, Esther and Ruth, are now due to be understood. In these dramas are set forth facts which are of greatest importance for all who love God and who are anxious to see the complete triumph of righteousness in the earth. The final conflict between the wicked and the righteous is just at hand. In this great crisis no man could preserve himself. But the book shows who will be preserved, and how it will be brought about.

Under moon No. 73709, *Godsday, Peace 14,*

Edenic day No. 2176686, Y.R. 1900 (Saturday, October 15, A.D. 1932), there was published in *The Watchtower* a resolution, publication of which was official notification that then and there ended the 2300 days of Daniel's prophecy. (Daniel 8:14) It pleased God to thereafter have a cleansed sanctuary. Since then God's people have had *peace* in God's temple. This was the occasion for the naming of this month. "And all thy children shall be taught of Jehovah; and great shall be the peace of thy children."—Isaiah 54:13, *A.R.V.*

The Best at the Last

Finally, last of all and best of all, under moon No. 73737, *Godsday, Jehovah 27, Edenic day No. 2177526, Y.R. 1902* (Saturday, February 2, A.D. 1935), the book *Jehovah* was released to the public. This book, it is to be hoped, will give Jehovah His rightful place in the hearts of millions. The month which is named for Jehovah God takes the place of what, under the Devil's calendar, was the first month of the year. In His own expression of His will on the subject, God has made it clear that the first month of the year (*Redemption*) is appropriately named as has been done in this series of articles. "Verily, thou art a God that hidest thyself."—Isaiah 45:15.

Some may wonder whether by calling a month "Jehovah" the name will be brought into common use. It *should* be brought into common use. Men need to think about God, the Source of all their hopes and joys, as well as of their present and future life itself.

Hallelujah (Praise Ye Jehovah)

The Israelites caught somewhat the spirit of the Scriptures when they made use of such names as Jehovah-jireh (Jehovah will see to it), Jehovah-nissi (Jehovah is my banner), Jehovah-tsidkenu (Jehovah is our righteousness), Jehovah-shalom (Jehovah is peace), Jehovah-shammah (the name and renown of Jehovah), Jehozabad (Jehovah-endowed), Jehohanan (Jehovah-favored), Jehoiada (Jehovah-known), Jehoiachin (Jehovah will establish), Jehoiakim (Jehovah will raise), Jehoiarib (Jehovah will contend), Jehonadab (Jehovah-largess), Jonathan (Jehovah-given), Jehoadah (Jehovah-adorned), Jehoaddan (Jehovah-pleased), Jehozadak (Jehovah-righted), Jehoram (Jehovah-raised), Jehosheba (Jehovah-sworn), Jehoshua or Joshua (Jehovah-saved), Jehoshaphat (Jeho-

vah-judged), Joab (Jehovah-fathered), Joah (Jehovah-brothered), Joel (Jehovah is his God), Jozachar (Jehovah-remembered), Joha (Jehovah-revived), Jochebed (Jehovah-gloried), Abijah (Jehovah is his father), Adonijah (Jehovah is my Lord), Urijah (flame of Jehovah), Azaniah (heard by Jehovah), Ahaziah (Jehovah has seized), Ahiah (Jehovah is his friend), Elijah (God of Jehovah), Amaziah (strength of Jehovah), Amariah (Jehovah has said), Besodeiah (in the counsel of Jehovah), Baaseiah (in the work of Jehovah), Beraiah (Jehovah has created), Bithiah (daughter of Jehovah), Gedaliah (Jehovah has become great), Gemariah (Jehovah has perfected), Dodavah (love of Jehovah), Delaiah (Jehovah has delivered), Hodaviah (majesty of Jehovah), Zerachiah (Jehovah has risen), Haggiah (festival of Jehovah), Hazaiah (Jehovah has seen), Hezekiah (strengthened of Jehovah), Hachaliah (darkness of Jehovah), Hasadiah (Jehovah has favored), Harhaiah (fearing Jehovah), Tebaliah (Jehovah has dipped), Tobiah (goodness of Jehovah), Jaazaniah (heard of Jehovah), Josiah (founded of Jehovah), Ibnijah (building of Jehovah), Jeberechiah (blessed of Jehovah), Igdaliah (magnified of Jehovah), Jedidiah (beloved of Jehovah), Jedaiah (praised of Jehovah), Jehu (Jehovah is He), Jehoahaz (Jehovah-seized), Jehoash (Jehovah-fired), Josiphiah (Jehovah is adding), Joezer (Jehovah is his help), Joash (Jehovah-hastened), Josibiah (Jehovah will cause to dwell), Joshaviah (Jehovah set), Jeziah (sprinkled of Jehovah), Jezrahiah (Jehovah will shine), Jehdeiah (unity of Jehovah), Jahaziah (Jehovah will behold), Jehiah (Jehovah will live), Jecoliah (Jehovah will enable), Jeconiah (Jehovah will establish), Hananiah (Jehovah has favored), Ismachiah (Jehovah will sustain), Jaaziah (emboldened of Jehovah), Iphedeiah (Jehovah will liberate), Jekamiah (Jehovah will rise), Irijah (fearful of Jehovah), Jeriah (Jehovah will throw), Jeremiah (Jehovah will rise), Jeshohaiah (Jehovah will empty), Jesiah (Jehovah will lend), Ishmaiah (Jehovah will hear), Isaiah (Jehovah has saved), Cononiah (Jehovah has sustained), Chenaniah (Jehovah has planted), Moadiah (assembly of Jehovah), Micah (Who is like Jehovah?), Melatiah (whom Jehovah has delivered), Malchiah (king of Jehovah), Maadiah (ornament of Jehovah), Maaziah (rescue of Jehovah), Maaseiah (work of Jehovah), Meso-

baite (found of Jehovah), Mattathah (gift of Jehovah), Neariah (servant of Jehovah), Nariah (light of Jehovah), Nethaniah (given of Jehovah), Semachiah (supported of Jehovah), Obadiah (serving Jehovah), Adaiah (Jehovah has adorned), Azaziah (Jehovah has strengthened), Uziah (strength of Jehovah), Azariah (Jehovah has helped), Amasiah (Jehovah has loaded), Ananiah (Jehovah has covered), Anothijah (answers of Jehovah), Athaliah (Jehovah has constrained), Pelatiah (Jehovah has delivered), Pelaliah (Jehovah has distinguished), Pelaliah (Jehovah has judged), Pethakiah (Jehovah has opened), Zedekiah (right of Jehovah), Zephaniah (Jehovah has secreted), Rehabiah (Jehovah has enlarged), Ramiah (Jehovah has raised), Remaliah (Jehovah has bedecked), Reelaiah (fearful of Jehovah), Raamiah (Jehovah has shaken), Rephaiah (Jehovah has cured), Shebaniah (Jehovah has prospered), Shemaiah (Jehovah has heard), Sherebiah (Jehovah has brought heat), Seraiah (Jehovah has prevailed). Jah (-iah) is a contraction for and means Jehovah.

Under the circumstances it does not appear that any valid objection can be raised to the use of this name to take the place of that of the present first month of the Devil's calendar. And, anyway, people who have been writing "January" all their lives, in honor of the two-faced god of war, should be quite willing now to often write the name of the true and living God. The due time has come: Jehovah God will not be pushed into a corner any more. The theologians of the Devil can say nothing; they never have a kind word to say for Jehovah; some of them have freely admitted that they do not know anything about Him.

Not counting the combinations above mentioned, the name Jehovah appears in the Scriptures 6,587 times; yet, in the King James, or *Authorized Version*, it is translated by that name but four times: Exodus 6:3; Psalm 83:18; Isaiah 12:2; Isaiah 26:4. In a single chapter in the original Hebrew (Deuteronomy 28) this name occurs forty times. "Alleluia; Salvation, and glory, and honour, and power, unto the Lord our God. And again they said, Alleluia. . . and worshipped God that sat on the throne, saying, Amen; Alleluia. . . The voice of mighty thunders, saying, Alleluia; for the Lord God omnipotent reigneth."—Revelation 19:1, 3, 4, 6.

THE END

As Essential as the Food You Eat

YOU wouldn't try to get along without eating.

No sane person would. Well, there's something more important in our lives than the three meals we eat per day. What is it? Jesus answered that question, when He said, "This is life eternal, that they might know thee the only true God." Therefore, every person good will, every person who desires life in its fullness, should seek to know more about Jehovah and His purposes.

It is for this very purpose that, twice a month, *The Watchtower* magazine is published, that is, to enable the people to know Jehovah God and His purposes as expressed in the Bible. Every reader of *The Golden Age* should be a subscriber for *The Watchtower* also. It is a 16-page journal devoted entirely to the publishing of Bible instruction specifically designed to aid Jehovah's witnesses as well as all other people of good will who desire righteousness. It adheres strictly to the Bible as authority for its utterances and is entirely free and separate from all parties, sects or other worldly organizations. It is wholly and without reservation for the kingdom of Jehovah God under Christ His beloved King.

If you are not already a reader of *The Watchtower*, fill out the coupon below and send it in immediately, and start feeding upon the food which the Lord has provided.

~~~~~  
 The Watch Tower, 117 Adams St., Brooklyn, N. Y.

Please enter my subscription for the *Watchtower* magazine for 1 year. Enclosed find a contribution of \$1.00 (Canada and other countries, \$1.50) to aid in carrying on the Kingdom work.

**WHO SHALL RULE THE WORLD?**

*All three written by*

**JUDGE RUTHERFORD**

**I**N THESE DAYS of perplexity and many conflicting opinions thoughtful persons are seeking to know and understand from the sure Word of God what is the truth. To aid the people in getting a proper understanding these books are published. Frequently you are confronted with questions like these: Why is there so much wickedness on earth? Will wickedness continue forever, or may we hope for something better? Who shall rule the world? Who is the supreme and all-powerful one? and how will that supremacy be made known to us?

A proper answer to those and many related questions will be found in these books, and the answer will bring you comfort, strength and hope. Voluntary contributions make it possible to publish these three booklets for ten cents. Would you take these three and contribute ten cents that more like books might be published for the benefit of the people?

**THEN SEND IN THE COUPON**

**The Watch Tower  
117 Adams St., Brooklyn, N. Y.**

I desire to have Judge Rutherford's three latest booklets, SUPREMACY, HIS VENGEANCE, and WHO SHALL RULE THE WORLD! Enclosed find a 10c contribution which will make it possible to publish more of these booklets.

\* A series of articles in explanation will appear in The Golden Age. Watch for them.

March 1, 1935 Watchtower

selves in keeping with his kingdom of righteousness under Christ. Let no one be so unwise as to think that he can pursue any kind of loose course merely because he knows that he cannot bring himself to perfection in the flesh. The fact that he is imperfect does not mean that he should not war at all times against the imperfections. "He that saith he abideth in him, ought himself also so to walk, even as he walked." (1 John 2:6) "See then that ye walk circumspectly, not as fools, but as wise, redeeming the time, because the days are evil. Wherefore be ye not unwise, but understanding what the will of the Lord is. And be not drunk with wine, wherein is excess; but be filled with the spirit."—Eph. 5:14-18.

We are in the evil day. Satan and his agents are

using and will continue to use every possible means to cause Jehovah's witnesses to deflect and turn away from the proper course. It is therefore needful for each one to be watchful and to hold himself or herself strictly within the rules laid down by the Scriptures. We are in a real fight, and now we must maintain our integrity toward Jehovah by faithfully representing him, perfecting holiness in the fear of God. Let all who undertake to serve Jehovah God strictly observe the rules that are laid down in his Word, and follow them explicitly. None of these rules have been relaxed or set aside because the kingdom is here. A strict observance of the Lord's commands and rule of his kingdom now is necessary for those who will have his approval.

## CALENDAR

**T**HE English word "calendar" means a system of reckoning time by dividing time into days, months and years. The ability of man is very limited; and when man attempts to do anything of importance and, in doing so, ignores Jehovah's Word, he is certain to get into difficulty. Since the time of the rebellion in Eden that old Serpent, also called Satan, Dragon and Devil, has employed all manner of subtle and deceptive methods to divert the attention of man from Almighty God. This is particularly noted with reference to the calendars for the division of time. Naturally men have desired to divide time in such manner that they could keep an accurate record of events. In doing this had men adhered strictly to the Word of Jehovah God and diligently sought to be guided by the Most High, they would have fared far better. The ancient Greeks and Romans made calendars, but in doing so they disregarded the Word of God entirely and employed the wisdom of men, which is foolishness in the sight of God. Satan saw to it that they were turned away from Jehovah.

Many persons of the present day have the idea that the calendar generally in use is of divine origin; but in this they are entirely wrong. The calendar now used was prepared and came into use in this manner: An Italian physician called Aloysius Lilius projected a plan for amending the Julian calendar, which was used for some time; and after his plan was made then it was presented to Pope Gregory XIII. Gregory called in the wise men of the Catholic hierarchy for a consultation about this calendar; and this occurred

about the year 1577. In the year 1582 Gregory issued a brief abolishing the Julian calendar, and introduced in its stead the calendar that is now generally in use and which is known as the Gregorian calendar. According to the Word of God the Gregorian calendar is entirely wrong, and this alone is proof that the making of that calendar and its introduction were not by God's direction but were done under the influence of Satan, the enemy of Jehovah.

Now, since the coming of the Lord Jesus Christ and his enthronement and his gathering together of his faithful followers, the time seems at hand to more clearly understand God's purposes as expressed in his Word, and this includes the manner of measuring time. It seems proper and fitting that we should try to ascertain the correct way of measuring time and give publication thereto.

In its *Year Book* for 1935 this Society has published a sample calendar, and a detailed explanation of this calendar shall also be published. The space in *The Watchtower* is hardly sufficient for such publication, because that space is needed for other truths. The *Golden Age* magazine is one of the publications of the WATCH TOWER BIBLE & TRACT SOCIETY, and *The Golden Age* will publish the explanation of the division of time, or the calendar, and the *Watchtower* readers are requested to give careful consideration to the same. A series of articles covering this matter will appear within a short time in the *Golden Age* magazine.

### ON SIDE OF JEHOVAH AND HIS KING

DEAR JUDGE RUTHERFORD:

I have just finished reading your lecture "Who Shall Rule the World?"

I will at this time say Aye! with joy in my heart of a desire to be on the side of Jehovah God and his righteous King.

God bless you for having the courage to bring the truth of the Word of God to those longing for the righteous rule of his King.

Sincerely,

ALBERT E. THUESEN, Iowa.

May 1, 1935 Watchtower

was yet standing: which was a [prophetic] figure for the time then present, in which were offered both gifts and sacrifices, that could not make him that did the service perfect, as pertaining to the conscience; which [service] stood only in meats and drinks, and divers washings, and carnal ordinances, imposed on them until the time of reformation. But Christ being come an high priest of good things to come, by a greater and more perfect tabernacle, not made with hands, that is to say, not of this building," did bring about redemption for the human family.

Then the apostle says that the blood of the animals offered on the atonement day foreshadowed the offering of the blood of Christ as redemption for man. He says: "Neither by the blood of goats and calves [or bullocks], but by his own blood, he entered in once into the holy place, having obtained eternal redemption for us. For if the blood of bulls and of goats, and the ashes of an heifer sprinkling the unclean, sanctifieth to the purifying of the flesh; how much more shall the blood of Christ, who through the eternal spirit offered himself without spot to God, purge your conscience from dead works to serve the living God?"—Heb. 9:12-14.

The blood of the animals at Mount Sinai foreshadowed the ransom and sin-offering, and was the basis for the confirmation of the law covenant of God with the Israelites. The blood of Christ Jesus provided the redemptive price and an offering for sin on behalf of mankind, and is the basis for the making and inauguration of the new covenant which the Lord God promised in the prophecies. (Heb. 9:15-21) Then the apostle makes it clear and positive that the blood of Christ Jesus is essential to salvation, saying:

"And almost all things are by the law purged with blood [of animals]; and without shedding of blood is no remission. It was therefore necessary that the patterns of things in the heavens should be purified with these [sacrifices]; but the heavenly things them-

selves with better sacrifices than these. For Christ is not entered into the holy places made with hands, which are the figures [pictorial] of the true; but into heaven itself, now to appear in the presence of God for us. Nor yet that he should offer himself often, as the [Jewish] high priest entereth into the holy place every year with blood of others; for then must he [Jesus] often have suffered since the foundation of the world: but now once in the end of the world hath he appeared, to put away sin by the sacrifice of himself."—Heb. 9:22-26.

The foregoing Scriptural argument proves beyond any question of doubt that the blood of Jesus is the great redemptive price for mankind, and that the presentation of that blood in heaven constitutes the sin-offering on behalf of the human family.

Many will then naturally ask, Why, in the face of this tremendous argument showing the value of the shed blood of Christ Jesus, are there so many men claiming to be preachers of the gospel who deny that the blood of the Lord Jesus has any purchasing value whatsoever? The answer to that question the Lord foretold and caused his inspired witness to write down, saying, "But there were false prophets also among the [Jewish] people, even as there shall be false teachers among you, who privily shall bring in damnable heresies, even denying the Lord that bought them, and bring upon themselves swift destruction." (2 Pet. 2:1) "For there are certain men crept in unawares, who were before of old ordained to this condemnation; ungodly men, turning the grace of our God into lasciviousness, and denying the only Lord God, and our Lord Jesus Christ."—Jude 4.

Will the people continue to be hoodwinked by these false prophets, who are wise in their own conceits and who pose as preachers of the gospel, or will they be guided by the plain Word of God, which is now due to be understood? Let each hearer answer for himself.

## THE CALENDAR

**T**O HAVE a correct system of reckoning time is desirable. It is well known that the calendars heretofore used have been incorrect and unsatisfactory. For this reason *The Golden Age* published facts concerning a system of reckoning time, obtaining the important data from the Scriptures, and some from astronomy. Seeing there is a danger of giving importance to this and to the exclusion of weightier matters, this note of warning is here sounded. God's people should keep in mind the "pyramid" delusion and the speculations that ac-

companied the study of chronology, and the pitfalls into which these things led many. Do not fall into a similar trap. It is of far more importance to understand our commission and to perform it than to understand at just what time Adam was created. Be reasonable and moderate. Avoid wild speculation as to at what time and in what manner things future will come to pass. Be sure that you always are guided by the counsel of the Lord's Word. The statements in *The Golden Age* are not dogmatic, but are worthy of due and careful consideration.

hovah and for Gideon, to wit, June 1-9 inclusive. A most appropriate booklet for that period will be released then, *Universal War Near*, and this, together with another new booklet, *Favored People*, and the book *Jehovah*, will be offered in combination by all publishers in English-speaking communities.

Immediately with this notification let all publishers, whether of God's anointed remnant or of the people of good will, make due preparation for the forthcoming activities. Those following the Greater Gideon will not fail to arrange to be at their post in their territory, and with full equipment of torchlight and trumpet, and obedient to service signals.
